## Appendix 3—Concluded

## National Museums of Canada—Concluded

NOTES TO THE FINANCIAL STATEMENT  
MARCH 31, 1977

## 1. Significant Accounting Policies

The statement of expenditure and revenue includes the activities of the National Museums of Canada as well as those of the Purchase, Trust, and Special Accounts administered by the Corporation.

Expenditures for the year include amounts paid in April 1977 relating to work performed, goods received or services rendered prior to March 31, 1977.

Receipts of the Corporation's Purchase Account, Trust Account and Special Account are reported on a cash basis and are retained in those accounts. Other revenues are reported on a cash basis and are credited to non-tax revenue of Canada in the Consolidated Revenue Fund.

Disbursements of the Purchase and Special Accounts are made from the receipts of those accounts as well as from parliamentary appropriations provided for that purpose. Disbursements of the Corporation's Trust Account are made from the receipts of that account.

Amounts for services provided without charge by other government departments are included in the operating expenditures of the Corporation (Note 3). Other operating expenditures are charged to parliamentary appropriations provided for that purpose. Capital expenditures are expensed in the year of purchase and are provided for in the same parliamentary appropriations.

Grants are charged to a separate parliamentary appropriation and are subject to criteria and guidelines approved by the Treasury Board.

Employee termination benefits are expensed in the year of payment. The Corporation does not reflect in its financial statement the liability for employee termination benefits, estimated at March 31, 1977 to be \$4,800,000 (\$4,200,000 at March 31, 1976).

## 2. Purchase Account

The amount of \$2,200,000 transferred from Secretary of State Vote 85 to the Purchase Account was designated by the Treasury Board for emergency purchases of national treasures, the Board having previously released \$2,120,000 for other than emergency purchases. At March 31, 1977, the balance of \$5,400,878 in the Purchase Account included \$5,024,000 designated for emergency purchases detailed as follows:

Balance April 1, 1976 . . . . .	\$5,377,000	
Add: Transferred from Secretary of State Vote 85 . . . . .	\$2,200,000	
Interest earned during the year . . .	241,000	2,441,000
		<hr/> 7,818,000
Less: Purchases during the year . . .	674,000	
Released for other than emergency purchases . . . . .	2,120,000	2,794,000
Balance March 31, 1977 . . . . .		<hr/> \$5,024,000

## 3. Services Provided Without Charge

The operating expenditures include the following services provided by government departments for which there was no charge to the National Museums of Canada.

SERVICES PROVIDED:	1977	1976
Accommodation . . . . .	\$3,599,000	\$3,339,000
Employee insurance premiums . . .	322,000	230,000
Cheque issue service . . . . .	79,000	91,000
Employee compensation payments .	1,000	1,000
	<hr/> \$4,001,000	<hr/> \$3,661,000

## 4. Additional Information

The inventory (at cost) of books, pamphlets, replicas and other materials for sale to the public increased from \$927,000 at March 31, 1976 to \$1,097,000 at March 31, 1977.

Payments for goods received and services rendered to March 31, 1977 amounting to \$131,461 (\$364,980 in 1976) that could not be paid by the April 30 deadline have been carried forward to 1977-78.

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
August 31, 1977

MR. GEORGE IGNATIEFF,  
CHAIRMAN OF THE BOARD OF TRUSTEES,  
NATIONAL MUSEUMS OF CANADA,  
OTTAWA, ONTARIO.

I have examined the statement of expenditure and revenue of the National Museums of Canada for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the statement of expenditure and revenue presents fairly the results of operations of the Corporation for the year ended March 31, 1977 in accordance with the accounting policies set out in Note 1, applied on a basis consistent with that of the preceding year.

J. J. MACDONELL  
Auditor General of Canada

## NOTES TO FINANCIAL STATEMENTS, MARCH 31, 1977

## 1. Statutory authorities

(a) The revolving fund was established by Secretary of State Vote L120, Appropriation Act No. 3, 1971, 1970-71-72, c. 46, to provide development and training courses, including specialized language training, and related consultative services, on a cost-recovery basis.

(b) During the year the maximum amount which may be drawn from the Consolidated Revenue Fund as working capital advance was increased from \$2,000,000 to \$3,500,000 under authority of Secretary of State Vote L107b, Appropriation Act No. 5, 1976, 1976-77, c. 2.

## 2. Significant accounting policies

## (a) Year-end cut-off

The accounts of the revolving fund are presented on the accrual basis with the exception of the liability for employee termination benefits and the liability for vacation pay which are not recorded in the books of account. The liability for vacation pay is not considered material. The financial statements show the balance of the working capital advance account as at March 31, 1977 in accordance with the instructions contained in Treasury Board Circular No. 1970-7 of January 8, 1970.

## (b) Surplus/deficit

The Treasury Board on November 1, 1973, authorized the revolving fund to carry forward surpluses or deficits annually up to a limit of \$150,000. These retained earnings are to be used to offset accumulated deficits from prior years' operations or to provide for expected deficits in future years. Any surplus in excess of \$150,000 must be refunded to the Receiver General for Canada as non-tax revenue. Accumulated deficits in excess of \$150,000 will be recouped by authority of Parliament.

## 3. Interest on advance

Interest on the working capital advance was calculated at the rate of 8 7/8% per annum on the month-end balance shown in the Central Accounts of Canada.

## 4. Comparative figures

The presentation of the 1976 comparative figures has been restated to conform to the 1977 format.

## APPENDIX

RECONCILIATION OF WORKING CAPITAL ADVANCE  
WITH PUBLIC ACCOUNTS AT MARCH 31, 1977

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

August 8, 1977

THE HONOURABLE JOHN ROBERTS, P.C., M.P.,  
SECRETARY OF STATE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of The Staff Development and Training Revolving Fund of the Public Service Commission as at March 31, 1977 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, except for the failure to record a provision for employee termination benefits referred to in Note 2(a), these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

J. J. MACDONELL  
Auditor General of Canada

Working capital advance per Public Accounts	\$(103,696)

CENTRAL MICROFILM UNIT REVOLVING FUND  
NOTES TO THE FINANCIAL STATEMENTS, MARCH 31, 1977

## 1. Statutory authorities

- The Revolving Fund was established by Public Archives and National Library Vote 529, Appropriation Act No. 6, 1956 c. 32, to provide microfilm service to government departments and agencies on a cost recovery basis.
- Under authority of Secretary of State Vote L110, Appropriation Act No. 3, 1975, 1974-75-76, c. 57 the maximum amount which may be drawn from the Consolidated Revenue Fund as working capital advance was established at \$200,000.

## 2. Significant accounting policies

## a) Accounting basis

The accounts of the Revolving Fund are recorded on an accrual basis with the exception that the liability for employee termination benefits and the liability for accrued vacation leave amounting to \$39,000 and \$16,000 respectively were not recorded in the books of account as at March 31, 1977. The effect on the financial statements is not considered material. The financial statements show the balance of the working capital advance account as at March 31, 1977, in accordance with the instructions contained in Treasury Board Circular No. 1970-7 of January 8, 1970.

## b) Inventories

Inventory of raw material is valued at cost on a first in, first out basis. Work in process inventory is valued on the basis of cost of raw materials used plus an estimate of the value of direct labour and other costs incurred.

## c) Fixed assets

i) Fixed assets purchases from appropriations prior to April 1, 1969 were transferred to the Revolving Fund without charge and were recorded at an appraised value of \$114,010 of which assets valued at \$41,285 have been disposed of to date. Purchases subsequent to April 1, 1969 were recorded at cost. For assets acquired up to March 31, 1975 depreciation is calculated on a straight line basis, using estimated useful life of each asset, usually 3 to 10 years. For assets acquired after March 31, 1975 depreciation is calculated on a straight line basis at 20% for machinery and equipment and at 10% for other assets based on the acquisition cost.

ii) The Central Microfilm Unit moved in October 1975 to leased accommodation at a new location. Leasehold improvements of \$250,668 are being amortized over the period of the lease of 10 years.

## 3. Loans to finance the acquisition of fixed assets

Loans totalling \$439,760 have been made to the Revolving Fund to finance the acquisition of fixed assets and leasehold improvements. These loans bear interest at the rate of 8 7/8% and are repayable in annual instalments under terms and conditions approved by the Treasury Board, except that a loan of \$20,000 authorized by Secretary of State Vote L105, Appropriation Act No. 3, 1975, and a further loan of \$200,000 authorized by Secretary of State Vote L100, Appropriation Act No. 3, 1976, have not yet received the approval of the Treasury Board for their terms and conditions.

## 4. Deficit

Authority will be requested in the 1977-78 Supplementary Estimates for the recovery of the 1976-77 deficit through a charge to an expenditure vote of the Secretary of State.

Appendix 5—*Concluded*

Public Archives—*Concluded*

Central Microfilm Unit Revolving Fund—*Concluded*

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
September 2, 1977

5. Prior period adjustment

As a result of errors in the accounting for certain billings in 1975-76, the balance of the deficit at March 31, 1976 previously reported as \$13,455 has been restated to show retroactive charges of \$30,664.

6. Comparative figures

The presentation of the 1976 comparative figures has been restated to conform to the 1977 format.

THE HONOURABLE JOHN ROBERTS, P.C., M.P.,  
SECRETARY OF STATE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Central Microfilm Unit Revolving Fund of the Public Archives as at March 31, 1977 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

RECONCILIATION OF WORKING CAPITAL ADVANCE  
WITH PUBLIC ACCOUNTS AT MARCH 31, 1977

Working capital advance per balance sheet	\$254,885
Add: Payments made after March 31, 1977 which were recorded in the Consolidated Revenue Fund as 1976-77 expenditures	111,439
	<u>366,324</u>
Deduct: Amounts received after March 31, 1977 which were recorded in the Consolidated Revenue Fund as 1976-77 receipts	231,563
Working capital advance per Public Accounts	<u>\$134,761</u>

NOTES TO FINANCIAL STATEMENTS, MARCH 31, 1977

1. Statutory authorities

- The Revolving Fund was established by Secretary of State Vote L90, Appropriation Act No. 3, 1971, 1970-71-72, c.46, to provide photographic printing and processing services to government departments and agencies on a cost recovery basis.
- Under authority of Secretary of State Vote L76d, Appropriation Act No. 1, 1977, 1976-77, c.7, the maximum amount which may be drawn from the Consolidated Revenue Fund as working capital advance was established at \$750,000.

2. Significant accounting policies

a) Accounting basis

The accounts of the Revolving Fund are maintained on an accrual basis with the exception of the liability for employee termination benefits which is not recorded in the books of account and amounts to \$99,930 at March 31, 1977 (\$50,000 at March 31, 1976). The financial statements show the balance of the working capital advance account as at March 31, 1977, in accordance with the instructions contained in Treasury Board Circular No. 1970-7 of January 8, 1970.

b) Fixed assets

Fixed assets are recorded at cost. Depreciation is provided on a straight line basis at the rate of 10% per annum.

3. Loans

Loans authorized by Parliament on an annual basis are for the acquisition of fixed assets. These loans bear interest at the rate of 8 7/8% and are repayable in annual instalments over a period of ten years under the terms approved by the Governor in Council. During the year the Fund received an additional loan of \$99,277.

4. Deficit

Authority will be requested in 1977-78 Supplementary Estimate for the recovery of the 1976-77 deficit through a charge to an expenditure vote of the Secretary of State.

5. Prior period adjustment

As a result of errors in the accounting for certain sales transactions, the balance of the deficit at March 31, 1976 previously reported as \$135,446 has been restated to show retroactive adjustments of \$6,639.

6. Comparative figures

The presentation of the 1976 comparative figures has been restated to conform to the 1977 format.

*Appendix 6—Concluded***Canadian Government Photo Centre Revolving  
Fund—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
June 30, 1977

THE HONOURABLE JOHN ROBERTS, P.C., M.P.,  
SECRETARY OF STATE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Government Photo Centre Revolving Fund of the National Film Board as at March 31, 1977 and the statements of operations, deficit, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, except for the failure to record a provision for employee termination benefits referred to in Note 2, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

J. J. MACDONELL

## Appendix 7—Continued

## National Arts Centre Corporation—Continued

## NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1977

## 1. Objects and operations of the Corporation

The objects of the Corporation are: to operate and maintain the National Arts Centre; to develop the performing arts in the National Capital Region; and to assist the Canada Council in the development of the performing arts elsewhere in Canada.

In furtherance of its objects, the Corporation may arrange for and sponsor performing arts activities at the Centre; encourage and assist in the development of performing arts companies resident at the Centre; arrange for and sponsor radio and television broadcasts and the showing of films in the Centre; provide accommodation at the Centre, on such terms and conditions as the Corporation may fix, for national and local organizations whose objects include the development and encouragement of the performing arts in Canada; and at the request of the Government of Canada or the Canada Council, arrange for performances elsewhere in Canada by performing arts companies, whether resident or non-resident in Canada, and arrange for performances outside Canada by performing arts companies resident in Canada.

With a view to achieving the objects, Her Majesty demised and leased the National Arts Centre building complex to the Corporation for a period of twenty years commencing June 1, 1969. Under the terms of the lease, the Corporation is responsible for maintenance and operation of the building complex, but is not required to pay for the use of the complex. Accordingly, the accounts of the Corporation do not include any charge for rent, interest or depreciation related to the building complex.

## 2. Significant accounting policies

## a) Grants

Municipal and specific grants receivable as at March 31 are recorded as assets in cases where the grantors have made firm commitments to the Corporation.

## b) Capital expenditures

Capital expenditures for operations are expensed in the year of acquisition. Capital expenditures for major repairs to the structure of the building are charged to the Capital Fund.

## c) Inventories

Inventories are valued at the lower of cost and net realizable value (restaurants) or replacement cost (production).

## d) Deferred income

Income from tickets sold prior to March 31 for performances taking place after that date is deferred. Deferred income also includes unredeemed gift certificates, exchange vouchers and credit notes; those more than three years old and a percentage of those less than three years old are included in income for the current year.

## e) Cost of concerts and theatrical performances

Direct costs of concerts and theatrical performances are apportioned over the number of performances of the related production. Advances to performing companies and artists under contract and other costs of production in progress are deferred in costs relating to future performances.

Direct costs include expenditures directly attributable to the National Arts Centre's program of concerts and theatrical performances. Indirect cost not attributable to particular performances are charged to general and administrative expense.

## f) Restaurant operations

Restaurant expense does not include costs related to building maintenance, public services and capital operating expenditures. These costs are included in general and administrative expense.

## 3. Provision for severance pay and annual vacation

During the year, the Corporation adopted the policy of recording in its accounts a provision for severance pay and annual vacation accruing to employees. Previously the Corporation had expensed actual severance and vacation payments in the year of payment.

Provisions of \$239,030 have been recorded as at March 31, 1977 representing the estimated liability for severance pay and annual vacation at that date. The accounting change has been applied retroactively and the Statements of Income and Expense and Deficit have been restated. The effect of the change is an increase in the excess of expense over income of \$19,304 in 1977 and an increase of \$16,226 in 1976. The remaining \$203,500 is applicable to years prior to April 1, 1975 and has been charged to the deficit at that date.

## 4. Major repairs to building

During the year, the Treasury Board approved a submission for major repairs to the structure of the building (expansion joints). The cost of this project was estimated at \$750,000. Of this amount \$500,000 has been approved in 1976-77 supplementary estimates "B" and paid to the Corporation. The balance of \$250,000 is to be provided from 1977-78 budgetary estimates.

Expenditures during the year on this project totalled \$125,347 leaving an unexpended balance of \$374,653 for its completion.

## 5. Accounts receivable

Accounts receivable as at March 31 include:

	1977	1976
Customer accounts . . . . .	\$240,261	\$203,330
Loans to musicians . . . . .	15,280	15,946

### 7. Contractual commitments

The Corporation's contractual commitments as of March 31, 1977 amount to \$456,564 and are detailed below.

Fiscal year	Amount
1977-78	\$159,753
1978-79	145,125
1979-80	82,625
1980-81	47,187
1981-82	21,874
	<u>\$456,564</u>

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

June 29, 1977

MR. FRANCOIS MERCIER, Q.C., O.C.

CHAIRMAN OF THE BOARD OF TRUSTEES  
NATIONAL ARTS CENTRE CORPORATION  
OTTAWA, ONTARIO

I have examined the balance sheet of National Arts Centre Corporation as at March 31, 1977 and the statements of income and expense, capital fund and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of the Corporation as at March 31, 1977 and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied, after giving retro-active effect to the change to the accrual method for recording employees' severance pay and annual vacation referred to in note 3, on a basis consistent with that of the preceding year.

J. J. MACDONELL

Auditor General of Canada

### 8. Deferred income

	1977	1976
Tickets sold prior to March 31 . . .	\$766,411	\$516,831
Gift certificates, exchange vouchers and credit notes . . . . .	88,304	69,087
Less: Amounts transferred to in- come for the year . . . . .	23,717	17,488
	<u>64,587</u>	<u>51,599</u>
	<u>\$830,998</u>	<u>\$568,430</u>

### 9. Statutory information

Six executive officers (six in 1976) were paid salaries aggregating \$207,228 in 1977 and \$206,922 in 1976; twelve trustees (eleven in 1976) were paid fees aggregating \$6,600 in 1977 and \$6,000 in 1976.

### 10. Anti-inflation Act

The Corporation is subject to the compulsory controls imposed by various federal anti-inflation programs which set ceilings on wage and price increases.

NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

1. Liquidation of assets

Pursuant to a resolution for a voluntary dissolution, the company entered into an agreement on July 23, 1975 with its sole shareholder, Canadian Broadcasting Corporation, for the implementation of a transfer of all of its assets and for the carrying out of all acts necessary for an orderly takeover of the business of station CKLW-TV by Canadian Broadcasting Corporation. Since July 23, 1975, when the company closed its television operation it has distributed all of its assets to Canadian Broadcasting Corporation which has agreed to assume the responsibility for any future expenses including those resulting from any tax reassessments.

2. Supplementary information

No remuneration was paid during the year to the five directors and four officers of the company.

Appendix 8—*Concluded*St. Clair River Broadcasting Limited—*Concluded*

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
June 7, 1977

THE CANADIAN BROADCASTING CORPORATION  
AND  
THE HONOURABLE JOHN ROBERTS, P.C., M.P.,  
SECRETARY OF STATE  
OTTAWA, ONTARIO

I have examined the balance sheet of St. Clair River Broadcasting Limited as at March 31, 1977 and the statements of income and expense, liquidation account, deficit, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements give a true and fair view of the financial position of the Company as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

Annuity, insurance and pension accounts—Royal Canadian Mounted Police Superannuation Account, Section 25 of the Royal Canadian Mounted Police Superannuation Act, R.S., c. R-11, requires that at least once in every five years an actuarial report on the state of the Royal Canadian Mounted Police Superannuation Account be laid before Parliament.

On May 17, 1972, a report was tabled showing that an actuarial deficit of \$81,000 existed in the Account at December 31, 1969, after making allowances for the amended formula for integration of the Royal Canadian Mounted Police Superannuation Plan benefits with benefits under the Canada Pension Plan. However, no amount was credited to the Account in accordance with section 24(4) of the Act as the actuaries were of the opinion that this situation will correct itself prior to the next valuation.

Certified correct:

G. COUSINEAU  
Departmental Services Officer

Approved:

D. J. BEIERSDORFER  
For CommissionerTHE HONOURABLE FRANCIS FOX, P.C., M.P.,  
SOLICITOR GENERAL OF CANADA,  
OTTAWA, ONTARIO.

I have examined the statement of transactions of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the accompanying financial statement presents fairly the transactions of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1977 and the balance of the Fund as at that date, in accordance with accounting policy described in Note 2, applied on a basis consistent with that of the preceding year.

J. J. MACDONELL  
Auditor General of Canada

## NOTES TO FINANCIAL STATEMENT

## 1. Statutory Authority

The Royal Canadian Mounted Police (Dependants) Pension Fund was established in the Consolidated Revenue Fund by section 55 of Part IV of the Royal Canadian Mounted Police Continuation Act, R.S., c. R-10. Part IV of the Act provides for members of the Force, other than commissioned officers, appointed before March 1, 1949, to purchase certain survivorship benefits for their dependants by payment of specified contributions. The Fund is to be credited with these contributions together with interest computed quarterly on the balance to the credit of the Fund at the end of the preceding quarter, and charged with contributions withdrawn and pension benefits paid.

Section 56 of the Act directs the Minister of Finance to have an actuarial examination of the Fund at least once every 5 years. If the actuarial valuation discloses a surplus, the Governor in Council may, by order, increase the benefit payments. If there is an actuarial deficiency, the Governor in Council may direct that there be credited to the Fund out of any unappropriated moneys in the Consolidated Revenue Fund such amount as may be required to re-establish solvency of the Fund.

## 2. Accounting Policy

## Cash basis

All transactions of the Royal Canadian Mounted Police (Dependants) Pension Fund are accounted for on a cash basis.

## 3. Supplementary Information

As a result of amendments to the Royal Canadian Mounted Police Continuation Act provided for by the Statute Law (Superannuation) Act, 1975, 1974-75-76, c. 81, the most recent quinquennial actuarial examination made as at March 31, 1974 was updated. The amended valuation disclosed an actuarial surplus of \$2.9 million of which \$2 million was allocated to the payment of increased benefits, retroactive to January 1, 1976.

## **SUPPLY AND SERVICES**

### **Department**

#### **Objectives**

##### **ADMINISTRATION PROGRAM**

- The objective of the Administration Program is to provide a broad range of services to assist the Department in realizing the objectives of both the Supply and Services programs.

##### **SUPPLY PROGRAM**

- To encourage research and development in the private sector which contributes to departmental programs and to provide free and subsidized distribution of saleable government publications in accordance with established policies.
- To acquire and provide in the most economical manner goods, printing and related services required by departments and agencies, taking into account the contribution of procurement to the realization of national objectives.
- To provide an effective and economical exhibit and display service to federal government departments and agencies on a recovery basis.
- To provide information to the public and governments through a publishing service and to promote a high standard of excellence in government publications.

##### **SERVICES PROGRAM**

- To provide in the most economical manner to the government as a whole and to client departments and agencies, a broad range of administrative management and advisory services in order to improve government efficiency and reduce costs.

### **Canadian Arsenals Limited**

#### **Objective**

- To maintain an efficient Canadian manufacturing capability for certain military materiel for Canadian defence needs.

### **Canadian Commercial Corporation**

#### **Objective**

- To purchase economically goods and services from Canadian sources for the account of foreign governments.

NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 1976

## 1. Transfer of Assets

The remaining assets administered by the Custodian were transferred to the Minister of Finance during the year. The assets transferred had a recorded value of \$3,431,383 and consisted of:

## Vested Account Assets

Cash	2,259,097
Canada Bonds, at par	25,000
Securities	4,619
	<u>2,288,716</u>

## Administration Account Assets

Cash	934,179
Canada Bonds, at par	200,000
Accrued interest on Canada Bonds	8,488
	<u>1,142,667</u>
	<u>\$3,431,383</u>

The proceeds from the Vested Account assets transferred to the Minister of Finance were to be credited to the War Claims and Foreign Claims Funds. Of the assets transferred \$549,102 were identified as assets returnable to former owners or their heirs. The remainder were classified as assets of former "belligerent" enemies and as such are not returnable. Insofar as the former type is concerned, the Custodian has made arrangements that such assets will be available to settle any claims by former owners (or their heirs) should such former owners prove their claim to the satisfaction of the Custodian.

## Appendix 1—Concluded

## THE CUSTODIAN—Concluded

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
May 10, 1977

The proceeds from the Administration Account assets transferred to the Minister of Finance were to be credited to a special Account in the Consolidated Revenue Fund to be known as the Custodian Administration Account. The amount to the credit of said Account is special purpose money which can be paid out of the said Account by the Minister of Finance for the purpose of satisfying any claim against the Custodian adjudged by a Court of competent jurisdiction to be valid, or which has been established to the satisfaction of the Custodian, and any expenses which appear in the opinion of the Custodian to be reasonable and properly incurred.

## 2. Company Controlled by the Custodian

A company controlled by the Custodian is in the process of being wound up. As at December 31, 1976 the company had assets with a value of \$16,044 offset by liabilities of an equal amount. Included amongst its assets is an amount of \$4,541 due from the Custodian. This represents the over-distribution of the assets of the company which took place as a result of underestimating the company's income tax liability. The Custodian shall recover this sum from the amount of \$1,729,910 realized from the winding up of the company and transferred to the Minister of Finance during the year.

## 3. Contingent Liability

As at December 31, 1976 the Custodian was contingently liable, to an unknown degree, in respect of possible claims on vested assets.

THE HONOURABLE JEAN-PIERRE GOYER, P.C., M.P.,  
MINISTER OF SUPPLY AND SERVICES,  
OTTAWA, ONTARIO.

I have examined the statement of income and expense of the Custodian as at December 31, 1976 and the statements of surplus and change in vested assets account for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances. I have relied on the reports of the auditors who have examined the financial statements of a company referred to in Note 2 to the financial statements for the valuation of the Custodian's equity in this company.

As in previous years, income earned from cash funds and from investments acquired from such funds, held in the vested assets account prior to the transfer to the Minister of Finance as referred to in Note 1 to the financial statements, was transferred as income into the office administration account. In my opinion, such income should have remained with the vested assets account. In 1976, this income amounted to \$35,029.

The change in the equity of the company referred to in the second preceding paragraph included a sixteen month period rather than a twelve month period, as in previous years' financial statements.

In my opinion, except for the matter referred to in the second preceding paragraph, these financial statements present fairly the financial position of the Custodian as at December 31, 1976 and the results of his administration of the Revised Regulations Respecting Trading with the Enemy (1943) for the year then ended in accordance with generally accepted accounting principles applied, except for the matter referred to in the preceding paragraph, on a basis consistent with that of the preceding year.

J. J. MACDONELL  
*Auditor General of Canada*

## NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 1977

## 1. Operations

The Defence Production Revolving Fund has been authorized by section 15 of the Defence Production Act with authority to draw funds from the Consolidated Revenue Fund up to \$100 million. The Fund is a working capital advance as defined in the instructions contained in Treasury Board Circular 1970-7.

The objectives of the Fund are as follows:

- to finance the stockpiling of defence supplies or strategic materials;
- to make loans or advances to aid in defence procurement such as working capital loans as advance payments on contracts but not including loans or advance payments for capital purposes; and
- to permit initial payments for defence supplies which can be promptly billed to a government department, agency or an associated government in advance of delivery of goods.

Retained earnings are transferred to the Government of Canada as non-tax revenue. Reimbursement of a deficit is contingent upon a parliamentary appropriation.

Interest is not charged on working capital advances to the Fund.

## 2. Significant accounting policies

## (a) Year-end cash cut-off

The previous year's figures for accounts receivable, loans to suppliers, and advances from Canada have been restated to reflect the retroactive change in the application of the accrual method from the previous cash method of accounting. Accounts receivable have been increased by \$2,262,190, loans to suppliers by \$2,175,220 and advances from Canada by \$4,437,410.

## (b) Progress payments

Payments for goods received and advances made for defence supplies requisitioned by government departments or agencies or by associated governments are charged to the account—progress payments to suppliers.

Progress payments from customers represents the equivalent of amounts paid to suppliers as referred to in the preceding paragraph, for which delivery of goods to the customer has not yet taken place but which under the terms of the contract constitute sales of the Fund (see Note 1(c)).

Included in progress payments are component items purchased from suppliers and delivered to a prime contractor as Government Supplied Materials for further processing and assembly into a final product. The costs of these items remain in the previously noted progress payments accounts pending delivery of the final product to the customers.

All disbursements from the Fund are covered by DSS contracts which make the contractor liable for any government property held in his plant. Under the General Conditions forming part of all DSS Defence Contracts, the contractor is responsible to account for these component items until they are delivered to customers. Moreover, since an Act of Parliament authorizes interim payments to contractors and requires that these payments be subsequently recovered promptly from a client departments' appropriation, the Fund has always operated on the basis that no separate inventory accounting is deemed necessary.

The previous year's figures have been restated to reflect the retroactive change in the application of the accrual method from the previous cash method of accounting. Progress payments to suppliers have been increased by \$1,682,857, progress payments from customers by \$10,047,697, accrued revenue by \$6,193,189, accounts receivable by \$2,171,651.

## Appendix 2—Concluded

## Defence Production Revolving Fund—Concluded

## NOTES TO FINANCIAL STATEMENTS—Concluded

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
June 30, 1977

## (c) Inventory valuation

Inventories consist of stockpiled defence supplies. These and strategic materials, when they are purchased, are valued at the lower cost and net realizable value. This represents a change from previous years when write-downs were only recognized upon shipment.

The statement of operations for the year ended March 31, 1976 has been restated to reflect such change in policy and consequently a loss of \$3,390,770 previously reported as a charge against the operations for the year ended March 31, 1976 is now being reported as an adjustment to the opening retained earnings as at April 1, 1975.

## (d) Revenue recognition

Sales of strategic materials and stockpiled defence supplies and sales of other defence supplies are recorded when the materials have been delivered or progress payments have been made or accrued to suppliers.

## 3. Loans to suppliers

In 1977 this represents the balance of a loan to a repair and overhaul contractor made in 1973 which became repayable without interest on August 4, 1976 upon settlement of a claim by the contractor against the Canadian Commercial Corporation. The loan has not been repaid because of an additional dispute; however, legal counsel is of the opinion there will be no loss to the Fund. Recent legal opinion is that loan interest should be accrued from August 4, 1976 and will be accrued in 1977-78.

## 4. Prior period adjustment

As a result of the settlement of litigation, interest of \$2,599,853 was received in the current year. Of this amount \$590,647 is applicable to the current year, \$568,282 is applicable to 1976 and the balance to prior years. The retained earnings for previous years have been restated.

## 5. Long-term receivable

In accordance with the terms of an agreement, collection of the long-term receivable of \$2,205,760 is dependent on the recipient's ability to make sales. Should the sales be insufficient to retire the debt, any balance owing will be recovered from the Department of National Defence.

## 6. Comparative figures

Comparative figures have been restated to conform to the current year's presentation. Changes are referred to in notes 2 and 4. The long-term receivables previously included in accounts receivable and federal sales tax payable previously included in accounts payable are disclosed separately in 1977.

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.  
MINISTER OF SUPPLY AND SERVICES  
OTTAWA, ONTARIO

I have examined the balance sheet of the Defence Production Revolving Fund as at March 31, 1977 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained below.

Progress payments to suppliers amounting to \$28.3 million consists of inventories held by others on behalf of the Fund and progress payments to suppliers. The Fund has not kept adequate accounting records of this account and has not determined the proportion of the total account balance that is made up by each of these components. Inventories were not physically counted at the year-end and because of the inadequacy of the records I was unable to confirm certain progress payments to suppliers. I was therefore unable to satisfy myself as to the amount shown as progress payments to suppliers on the balance sheet.

In addition, inventories as shown on the balance sheet in the amount of \$774,276 were not physically counted by the Fund at the year-end and therefore I am unable to express an opinion with respect to this amount.

As discussed in Note 3 to the financial statements, a legal suit has been filed against a supplier for the recovery of a loan for \$1.7 million. The ultimate outcome of the litigation is uncertain at this time.

In my opinion, except for the effect of any adjustments which might have been required had I been able to verify inventories and progress payments, as referred to above, and subject to the outcome of the litigation mentioned in the preceding paragraph, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes in accounting policy as referred to in Notes 2, 4 and 6 to the financial statements, on a basis consistent with that of the preceding year.

J. J. MACDONELL  
Auditor General of Canada

Working capital advance per Public Accounts	\$10,839,117	\$12,279,886

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Purpose and authority

The objective of the Fund is to acquire and provide, in the most economical manner, goods, printing, publishing and related services required by departments and agencies taking into account the contribution of procurement to the realization of national objectives.

The Supply Revolving Fund was authorized by Supply and Services Vote L6d, Appropriation Act No. 1, 1975. Treasury Board authorized that the operations of the Supply Revolving Fund and the Printing Revolving Fund be combined, effective April 1, 1975. Treasury Board authorized that the operations of the Supply Revolving Fund and the Publishing Revolving Fund be combined effective April 1, 1976. The resulting combined fund is under the Supply Revolving Fund.

The Supply Revolving Fund authority for utilization of funds amounts to \$75,000,000 in total. Separate legislation and authorities of the Printing and Publishing Revolving Funds have been deleted.

Treasury Board has set a limit on retained earnings which the Supply Revolving Fund can carry; amounts in excess of \$3,000,000 are required to be remitted to the Consolidated Revenue Fund within 30 days of March 31. In that connection, \$4,542,090 was transferred to the Consolidated Revenue Fund on August 3, 1977.

## 2. Significant accounting policies

## (a) Recording of revenue and expense

Revenue and expense are recorded on the accrual basis of accounting with the following variations:

- (i) The accrual policy for recording certain revenue in the Science and Engineering Procurement Service is based on detailed and validated statistical analysis of the procurement workload. This policy was implemented to avoid expensive record keeping while respecting the need for adherence to the generally accepted accounting principle of matching costs and revenue. Contracts ranging in value from \$200,000 to \$1,000,000 require 18 months on average to complete and revenue is recorded evenly over 18 months commencing the month the contract is awarded. Contracts with a value in excess of \$1,000,000 require 36 months on average to complete and revenue is recorded evenly over 36 months commencing the month the contract is awarded. Certain other large contracts are administered on a project management basis and the actual cost of the project is recorded as revenue in each accounting period over the entire life of the project.

Management recognizes that some revenue is earned prior to the contract award date but is of the opinion that the accounting principle of matching costs and revenue is not seriously violated since on average, revenue will be accruing on other contracts that have been completed.

In previous years the Fund did not recognize the deferred acquisition revenue on the Balance Sheet. In the current year, however, the deferred portion of the revenue, amounting to \$14.8 million, has been recorded.

- (ii) Vacation pay and employment termination benefits are expensed in the period in which the payments are made. The unaccrued liability at March 31, 1977 has not been determined by the Department, which is awaiting Treasury Board direction on this matter.

## (b) Basis of presentation

The Supply Revolving Fund includes the operations of several previously independent revolving funds, including General Supply, Printing and Publishing. Sales and cost of sales in the amount of \$27,766,066 (\$26,784,878 in 1976) between these funds have been eliminated in the Statement of Operations. In addition, some fund entities have recorded inventory purchased from other funds at March 31, 1977. The gross margin included in these inventories amounts to \$64,949 at March 31, 1977 which has also been eliminated.

## (c) Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful life of the fixed assets, generally 5 to 10 years.

## (d) Inventories

Inventory of supplies, publications and printing raw materials and supplies are valued at the lower of cost and replacement cost. Inventories of printing work in process are valued at the lower of cost and net realizable value.

## (e) EDP equipment contracts receivable

Treasury Board, on March 2, 1976, authorized the Supply Revolving Fund, for a one year trial period, to purchase through a Capital Loan Vote designated EDP equipment approved by Treasury Board for client departments. The capital, interest, and any other costs are recovered from departments over a one to five-year period.

## Appendix 3—Continued

## Supply Revolving Fund—Continued

## NOTES TO FINANCIAL STATEMENTS—Concluded

These transactions have been recorded as accounts receivable (title to the equipment remains with the Supply Revolving Fund) and the original cost of the equipment, less capital repayments due or paid by client departments to March 31, 1977, has been shown as current and long-term assets on the Balance Sheet.

## 3. Inventory located at Goose Bay

Responsibility for inventory located at Goose Bay, Labrador, was assumed by the Supply Revolving Fund in July 1976. A portion of this inventory was previously owned by the United States Air Force and was completely counted under the supervision of the Department of Supply and Services in May 1976, prior to the takeover. The remaining inventory, assumed from the Ministry of Transport, was test counted by the Department of Supply and Services at the time of the takeover.

As at March 31, 1977, the inventory located at Goose Bay amounted to approximately \$1.9 million. No further physical inventory has been taken at this location; however, it is management's intention to conduct a complete physical inventory at the close of the shipping season, approximately October 1977.

## 4. Long-term debt

	1977	1976
(a) Advances from Canada for working capital . . . . .	\$46,618,727	\$45,148,829
The Supply Revolving Fund is authorized to borrow from the Consolidated Revenue Fund amounts not exceeding \$75,000,000 for operations. Interest on the outstanding balance is calculated monthly at 8 7/8% per annum.		
(b) Funds for replacement of capital assets . . . . .	(170,946)	(432,856)
The Supply Revolving Fund repays capital loans and may purchase fixed assets through the Consolidated Revenue Fund, to the extent of depreciation on fixed assets charged to operations. These amounts represent the remaining funds at March 31 available for this purpose.		
Net Working Capital Advance	46,447,781	44,715,973

(c) Advances from Canada for fixed assets and EDP equipment . . . . .	10,295,212	2,538,350
---	------------	-----------

These amounts have been authorized by the Treasury Board for the purchase of fixed assets. Interest is calculated monthly on the outstanding balance at varying rates (7-10%). The advances are repayable as follows:

1978 . . . . .	\$ 3,882,632
1979 . . . . .	1,802,089
1980 . . . . .	1,738,761
1981 . . . . .	1,619,673
1982 . . . . .	1,252,057
	<u>\$10,295,212</u>

(d) Current portion . . . . .	(3,882,632)	(461,989)
-------------------------------	-------------	-----------

These amounts must be paid from April 1 to March 31, of the following year and are reflected as a current liability.

Net long-term debt . . . . .	<u>\$52,860,361</u>	<u>\$46,792,334</u>
------------------------------	---------------------	---------------------

## 5. Merging of the Supply Revolving Fund and the Publishing Revolving Fund

Supplementary Estimates (D) 1976-77 provided for the transfer of a Publishing Revolving Fund operating loss, not exceeding \$1,500,000 to the Supply Revolving Fund. The effect of this is to decrease reported retained earnings at March 31, 1975 by \$309,113 and to decrease reported retained earnings at March 31, 1976 by \$196,782 for comparative purposes. A separate Statement of Operations of the Publishing Operations for the year ending March 31, 1977 has been provided.

## 6. Restatement of prior year's figures

The 1976 figures have been restated to conform with the presentation followed in 1977. In addition, the 1976 comparative figures for the Statement of Changes in Financial Position have not been provided as the opening working capital position of the Fund for 1976 does not include the Publishing Revolving Fund.

**Appendix 3—Concluded****Supply Revolving Fund—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
July 14, 1977

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.,  
MINISTER OF SUPPLY AND SERVICES  
OTTAWA, ONTARIO

I have examined the balance sheet of the Supply Revolving Fund as at March 31, 1977 and the statements of operations, retained earnings, changes in financial position and contributed capital for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances except that I was unable to satisfy myself as to the amount of the inventory described in Note 3 to the financial statements.

As disclosed in Note 2(a)(i), revenue arising from the negotiation and administration of certain acquisition contracts on behalf of departments and agencies is recorded evenly over periods of up to 36 months after the date of contract award. The period in which revenues are recognized does not necessarily correspond to the period in which costs related to the same contracts are included in the accounts. Costs, including those arising prior to the awarding of contracts, are charged to expense in the year in which they are incurred. At March 31, 1977, deferred acquisition service revenue arising from the application of this recording method amounted to \$14.8 million and included amounts which should have been recognized as revenue during the year. The Fund has not determined the extent of overstatement of deferred acquisition service revenue and the corresponding understatement of retained earnings on the balance sheet.

In my opinion, except for the failure to recognize earned revenue as described in the preceding paragraph, and except for any adjustment that would have been required had I been able to verify the inventory located at Goose Bay, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the change in its financial position for the year then ended in accordance with generally accepted accounting principles applied, except for the change resulting from the recording on the balance sheet of deferred acquisition revenue as referred to in Note 2(a)(i), on a basis consistent with that of the preceding year.

J. J. MACDONELL  
*Auditor General of Canada*

Per Public Accounts	\$ (58,669)	\$ (195,241)

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

1. Purpose and authority
- The objective of the Fund is to acquire and provide, in the most economical manner, exhibit and display services required by departments and agencies taking into account the contribution of procurement to the realization of national objectives.
- The Expositions Revolving Fund was authorized by Supply and Services Vote L149b, Appropriation Act No. 1, 1970 with authority to draw funds up to \$1,750,000 as an advance for working capital.
2. Significant accounting policies
- (a) Recording of revenue and expense
- Revenue and expense are recorded on the accrual basis of accounting with the exception that vacation pay and employment termination benefits are expensed in the period in which the payments are made. The unaccrued liability at March 31, 1977 has not been determined by the Fund which is awaiting Treasury Board direction on this matter.
- (b) Depreciation
- Depreciation is calculated on a straight line basis over the estimated useful life of the fixed assets, generally 5 to 10 years. No depreciation is taken on fixed assets in the year of acquisition and full year's depreciation is taken in the year of disposal.
- (c) Inventories
- Inventories of production materials are valued at the lower of cost and replacement cost. Inventories of work in process are valued at the lower of cost and net realizable value.
3. Working capital
- Payments made and receipts received in the three months following March 31, 1976 were recorded as reductions of accounts payable and accounts receivable as at March 31, 1976. To be consistent with departmental policy, for the year ended March 31, 1977 no payments made or receipts received after the year-end have been reflected in the accounts as reductions of payables or receivables.

4. Long-term debt
- |  | 1977        | 1976         |
|--|-------------|--------------|
| (a) Advances from (Loans to) Canada for working capital  | \$1,008,670 | \$ ( 42,124) |
| The Expositions Revolving Fund is authorized to borrow from the Consolidated Revenue Fund amounts not exceeding \$1,750,000 for operations. Interest on the outstanding balance is calculated monthly at 8 7/8% per annum.   |             |              |
| (b) Funds for replacement of capital assets  | (174,865)   | (153,117)    |
| The Expositions Revolving Fund may pay capital loans and may purchase fixed assets through the Consolidated Revenue Fund, to the extent of depreciation on fixed assets charged to operations. These amounts represent the remaining funds at March 31 available for this purpose. |             |              |
| Net Working Capital Advance  | \$ 833,805  | \$ (195,241) |
5. Restatement of prior year's figures
- Except as stated in Note 3 above, the 1976 figures have been restated to conform with the presentation followed in 1977.
6. Cost of sales
- Included in cost of sales are the following amounts:
- |              | 1977      | 1976      |
|--------------|-----------|-----------|
| Depreciation | \$ 35,632 | \$ 40,509 |
| Interest     | 139,134   | 109,369   |

## Appendix 4—Concluded

## Expositions Revolving Fund—Concluded

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
August 14, 1977

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.,  
MINISTER OF SUPPLY AND SERVICES,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Expositions Revolving Fund as at March 31, 1977, and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, except for the departure from accrual accounting disclosed in Note 2(a), these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year except as described in Note 3 to the financial statements.

J. J. MACDONELL

# **TRANSPORT**

## **DEPARTMENT**

### **Objectives**

#### **HEADQUARTERS PROGRAM**

- To ensure that national transportation policy influences and responds to the objectives and programs of the private and public sectors; to provide central executive direction in the areas of policy, planning, finance and personnel management to all components of the Ministry; and to co-ordinate their operations and to provide them with efficient advisory and administrative support services.

#### **MARINE, AIR AND SURFACE TRANSPORTATION PROGRAMS**

- To foster the optimum development of these modes of transport and, where required, to provide facilities and services, consistent with safety and the protection of the environment, on a cost-recoverable basis to the maximum extent practicable.

#### **Atlantic Pilotage Authority**

#### **Great Lakes Pilotage Authority, Ltd.**

#### **Laurentian Pilotage Authority**

#### **Pacific Pilotage Authority**

### **Objective**

- To ensure the safe and orderly passage of Canadian and foreign vessels through the Canadian territorial waters assigned to the Authorities on a cost-recoverable basis to the maximum practicable extent.

## **Canadian Transport Commission**

### **Objective**

- To promote the co-ordination and harmonization of the operations of all carriers engaged in transport by railways, water, aircraft, extra-provincial motor vehicle transport and commodity pipelines through effective economic regulation, research and participation in policy development, and in the rail mode to foster optimum development of safety regulations consistent with the public interest.

## **National Harbours Board**

### **Objective**

- This program contributes to the objective of the Marine Transportation Program.

## **Northern Transportation Company Limited**

### **Objective**

- To provide a general transportation service throughout Northern Canada and The Arctic, together with related intermodal services.

## **St. Lawrence Seaway Authority**

### **Objective**

- This program contributes to the objectives of the Marine Transportation Program.

---

Note: In 1976-77 expenditures in respect of certain responsibilities for Goose Bay were transferred from this department to the Department of Public Works.

For comparative purposes the 1975-76 figures have been adjusted.

The accompanying notes are an integral part of the financial statements.

## NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1977

## 1. Authority

The Airports Revolving Fund was established in 1969 for the purpose of financing the operation and development of certain airports. The Fund comprises the accounts of the international airports at Dorval, Mirabel, Toronto and Vancouver and the land which was acquired at Pickering, Ontario, for the purpose of constructing an airport.

The Fund is authorized to borrow up to \$3,000,000 for working capital from Canada and is entitled to carry forward any earnings from operations for use in the acquisition of capital assets.

## 2. Significant Accounting Policies

**Accrued Revenue**—Accrued revenue represents the estimated amount of revenue earned for services rendered but not billed at the year end.

**Inventory**—Inventory of materials and supplies maintained for repair and maintenance purposes at the airports is carried at the lower of cost or replacement value.

**Fixed Assets**—Fixed assets are recorded at cost, except those transferred to the fund which were recorded at appraised values established by the Department of Transport in accordance with Treasury Board Circular 1970-7 of January 8, 1970. Development costs related to construction are generally capitalized during the entire construction period. Interest on loans is capitalized until the airport becomes operational.

**Depreciation**—Depreciation is charged, on a straight line method, based on the estimated useful life of the assets.

The depreciation rates used for the major classes of assets are as follows:

Runways and other paved surfaces	3.3% — 7.5%
Terminal and facilities	4.0% — 10.0%
Machinery	3.3% — 5.0%
Equipment—static	5.0% — 9.0%
—mobile	6.0% — 18.0%
Development cost (excluding interest)	10.0%
Capitalized interest	4.2%

**Contributed Capital**—Amounts representing working capital and the values assigned to assets transferred to the Fund, from Canada, are shown as contributed capital.

## 3. Fixed Assets

Not included in the land cost is additional compensation totalling \$13,698,635 paid by the Department of Transport, on an ex gratia basis, to former owners of expropriated properties at Mirabel Airport. This amount will not be charged to the Fund.

## 4. Construction in Progress

Construction in progress includes \$43,800,000 of capitalized development cost related to the Pickering Airport Project. Pursuant to a Cabinet decision to indefinitely defer building the Pickering Airport, recovery of these costs through revenue-producing activities, is dependent upon a future decision to revive the project. The components of the development cost are as follows:

Planning, site preparation and related cost	\$16,931,000
Interest cost:	
prior to deferral of project	17,749,000
subsequent to deferral of project	9,120,000
	<u>\$43,800,000</u>

Appendix 2—Concluded

Airports Revolving Fund—Concluded

5. Loans from Canada

Loans received are for capital and operating purposes in current and subsequent fiscal years. By their terms, loans must be repaid within twenty years and bear interest at rates set by the Minister of Finance. At present, annual principal payments are equal to the depreciation in the amounts of the Fund in the previous year. Interest rates vary from 7 1/2% to 9 3/8% per annum. During the year interest amounted to \$41,075,193 of which \$9,120,180 was capitalized.

The loan transactions for the period were as follows:

	1977	1976
Balance, beginning of year . . . . .	\$488,529,766	\$372,648,219
Loans received during the year . . . . .	82,352,409	124,180,388
	<u>570,882,175</u>	<u>496,828,607</u>
Repayment of principal . . . . .	17,699,508	8,298,841
Balance, end of year . . . . .	553,182,667	488,529,766
Loans due within one year . . . . .	28,912,044	17,699,508
Long term loans from Canada . . . . .	<u>\$524,270,623</u>	<u>\$470,830,258</u>

Estimated long term loan repayment requirements over the next five years amount to \$29,000,000 in 1977-78; \$32,000,000 in 1978-79; \$34,200,000 in 1979-80; \$36,900,000 in 1980-81; and \$38,900,000 in 1981-82.

6. Termination Benefits

Termination benefits accrue to employees of the Canadian Air Transportation Administration operating the airports financed through the Airports Revolving Fund. Payment of these benefits is made to the employees on separation or retirement and is expensed by the Fund when paid. No provision has been made in the accounts for benefits accruing to employees as at March 31, 1977. The amount of the liability has not been calculated.

7. Grants in Lieu of Taxes

Municipal taxes imposed on airports operating in the Revolving Fund are paid by the Department of Finance to the municipalities in the form of a grant and recovered from the Fund.

8. Expropriation Proceedings

The Fund has initiated expropriation proceedings to acquire certain properties. While final determinations have not been made, it has been estimated that further payments of \$21,000,000 may be required to complete these acquisitions. The accounts at March 31, 1977 do not include provisions for any such future payments.

9. Contractual Liability

The Airports Revolving Fund was committed to expenditures totalling approximately \$41,187,000 under fixed asset construction contracts as at March 31, 1977 for the following Airports:

Toronto (Malton) International Airport	\$37,330,000
Vancouver International Airport	2,343,000
Mirabel International Airport	<u>1,514,000</u>
	<u>\$41,187,000</u>

10. Prior Year's Adjustments

Retained Earnings—Expenditures for certain fixed assets in 1976 were inadvertently included in other operation and maintenance expenses. As a result, fixed assets and retained earnings were understated by \$263,909. The 1976 figures have been restated to reflect the correction of this error.

Contributed Capital—Due to an error in valuation of certain fixed assets financed from parliamentary appropriations, the contributed capital and fixed asset accounts were overstated by \$288,610. The 1976 figures have been restated to reflect the correction.

11. Certain figures for the prior year were reclassified to conform with the current year presentation.

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
August 7, 1977

THE HONOURABLE OTTO E. LANG, P.C., M.P.,  
MINISTER OF TRANSPORT,  
OTTAWA, ONTARIO

I have examined the balance sheet of Airports Revolving Fund as at March 31, 1977 and the statements of operations, retained earnings, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I consider necessary in the circumstances.

In my opinion, subject to the realization of capitalized development costs on the Pickering Airport Project, and except for the failure to record a provision for employee termination benefits, referred to in Notes 4 and 6 to the financial statements respectively, these financial statements present fairly the financial position of the Fund as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

J. J. MACDONELL  
Auditor General of Canada

## Appendix 3—Concluded

- (2) The above statements have been prepared on an accrual basis. A reconciliation of these figures with cash revenues and expenditures included in the details of Vote 15 and Vote L30 follows:

	(000's)	
	Revenues	Expenditures
	\$	\$
Accrued totals . . . . .	194,071	326,767
Adjustments:		
Non-cash items . . . . .	(2,343)	(206,404)
Revolving fund overhead, grants in lieu of taxes and employee fringe benefits . . . . .		56,801
Cash totals . . . . .	191,728	177,164

- (3) Depreciation is charged at 3 1/3% on hard-surfaces runways, 4% on terminal buildings, and on other assets ranges from 5% to 20%.
- (4) The other overheads included provision for interest on investment, administrative overhead, and employee fringe benefits.
- (5) Revenues and expenditures, which are applicable to the Airports Revolving Fund for Montreal and Toronto International Airports, have been included in this statement in order to show operating results on a basis comparable with the previous year.

## NOTES:

- (1) The above financial statements include the Department's investment in airports which it does not operate, so as to reflect its total investment.

## TREASURY BOARD

### Objectives

#### CENTRAL ADMINISTRATION OF THE PUBLIC SERVICE PROGRAM

- In accordance with the responsibility delegated by the Privy Council as set out in the Financial Administration Act:
- The selection of programs and projects that will achieve the objectives of the Government in the most effective manner and in accordance with its priorities.
- The efficient use of manpower and material resources by departments and agencies in the operation of their programs and projects.

#### GOVERNMENT CONTINGENCIES AND CENTRALLY FINANCED PROGRAMS

- To provide for unforeseen and urgent expenditures which arise after the Main Estimates have been tabled; to provide funds for centrally managed programs.

#### EMPLOYER CONTRIBUTIONS TO EMPLOYEE BENEFIT PLANS PROGRAM

- Provision of the Government's contribution, as the employer, to employee benefit plans.

#### TEMPORARY ASSIGNMENTS PROGRAM

- To provide in response to departmental and agency demands highly qualified analysts to assist, on a temporary basis, in policy reviews and similar activities.

## Appropriations and Expenditures

	Debit	Credit
Balance as at March 31, 1976 . . . \$		\$7,312,248,145 40
RECEIPTS		
Contributions—		
Employees—Government, Crown Corporations, etc. . . . .		245,415,732 03
Retired employees . . . . .		2,109,239 30
Matching contributions—		
Government . . . . .		185,986,264 80
Crown Corporations . . . . .		18,158,101 45
Transferred from other pension funds . . . . .		19,092,676 89
Interest . . . . .		297,217,070 14
Actuarial liability adjustment . . . . .		348,000,000 00
		<u>1,115,979,084 61</u>
DISBURSEMENTS		
Annuities . . . . .	218,007,828 27	
(a) Gratuities . . . . .	215,634 26	
(b) Residual amounts . . . . .	2,153,106 57	
Withdrawals of contributions	24,783,793 97	
Transfers to other pension funds . . . . .	35,248,976 21	
	<u>280,409,339 28</u>	
Balance as at March 31, 1977 . . .	8,147,817,890 73	
	<u>\$8,428,227,230 01</u>	<u>\$8,428,227,230 01</u>

(a) Amounts equal to one month's pay for each year of pensionable service, not exceeding ten.

(b) Amounts paid to contributors' estates or in certain cases to payees authorized by Treasury Board where there is no one to whom an allowance provided by the Act may be paid and where the amounts already paid are less than the amounts contributed.

NOTE: Amendments to the superannuation regulations provided for the calculation of interest at a revised rate (related to the Canada Pension Plan interest rate) commencing with the quarter ended September 30, 1969. The Act provides that the amount, by which the interest calculated at the revised rates exceeds the amount of interest calculated at the rate used in the latest actuarial report, may be used to reduce the amortization of actuarial deficiencies. During 1976-77, the additional interest amounted to \$227,111,385.34 and was charged to interest on the public debt and credited to the annual amortization charge of actuarial deficiencies.

Government matching contributions and net actuarial liability adjustment, previously charged to Treasury Board, were allocated to departmental programs.

## Appendix 2

## PUBLIC SERVICE DEATH BENEFIT ACCOUNT

	Debit	Credit
Balance as at March 31, 1976 . . . . . \$		\$44,179,282 69

## **URBAN AFFAIRS**

### **Ministry of State**

#### **Objective**

- To ensure that Federal policies and programs contribute to the optimum pattern and quality of urban development in Canada.

### **Canadian Habitat Secretariat**

#### **Objective**

- To prepare for, participate in and host the United Nations Conference on Human Settlements.

### **Central Mortgage and Housing Corporation**

#### **Objective**

- To promote the construction of new houses, the repair and modernization of existing houses, and the improvement of housing and living conditions in Canada. To promote the development of communities through the provision of infrastructure facilities.

### **National Capital Commission**

#### **Objective**

- To develop the National Capital Region as a symbol of identity for all Canadians.

<b>Central Mortgage and Housing Corporation</b>				
15 To reimburse Central Mortgage and Housing Corporation for the calendar year 1976:				
(a) for expenditures on housing research, community planning and on the support of experimental components related to housing;				
(b) for the amounts of grants and contributions made and loans forgiven for sewage treatment projects, and the amounts of loans forgiven for new communities and for rehabilitation and conversion of existing buildings;				
(c) for contributions made in respect of loans to facilitate home ownership, of loans to non-profit corporations; of loans for neighbourhood improve- ment programs;				
(d) for losses resulting from the operation of public housing projects;				
(e) for losses resulting from the sale of mortgages;				
(f) for costs and expenses incurred in respect of loans to facilitate home ownership, for rehabilitation and conversion of existing residential build- ings, for the neighbourhood improvement programs and for new communities;				
(g) for the loss incurred in the redevelopment, administration and operation of Granville Island;				
(h) for losses incurred in the operation of real estate holdings acquired by the corporation;				
(i) for losses incurred by the corporation when the interest rate to borrowers for loans under the National Housing Act is less than the rate required to provide for full recovery of costs to the corporation in respect of the loans;				
(j) for expenditures in respect of the Rural and Native Housing Program for financial assistance and training;				
(k) for contributions made and expenses incurred in respect of a private tender assisted rental program;				
(l) for net losses and costs and expenses incurred in the operation of the land-lease program;				
and to authorize the payment to the corporation of an administration fee for carrying out the home buyer grant program .....	\$ 340,200,000 00			
15b To extend the purposes of Urban Affairs Vote 15, Appropriation Act No. 3, 1976, to include reimbursement to Central Mortgage and Housing Corporation for the calendar year 1976 for:				
(a) contributions made to offset the cost of borrowing for eligible borrowers under the National Housing Act;				
(b) contributions made and costs and expenses incurred in respect of incentive payments to municipalities;				
(c) losses incurred in the disposition of acquired real estate;				
(d) contributions made, losses, costs and expenses incurred in respect of 1976 Federal Housing Action Programs; and to provide a further amount of .....	13,900,000 00

## VETERANS AFFAIRS

### Objectives

#### ADMINISTRATION PROGRAM

- To provide executive direction and certain common administrative and professional services to the Department as a whole.

#### WELFARE SERVICE PROGRAM

- To provide assistance to veterans and certain civilians who are unable to provide for their maintenance.
- To provide sheltered employment by production and sale of Vetcraft products.

#### PENSIONS PROGRAM

- To provide service-related death and disability pensions to ex-members of the armed forces or their dependants.

#### BUREAU OF PENSIONS ADVOCATES PROGRAM

- To provide an independent professional legal aid service to persons seeking to establish claims under the Pension Act and allied statutes and orders.

#### TREATMENT SERVICES PROGRAM

- To provide medical services for qualified veterans suffering from service-connected disabilities.

#### VETERAN'S LAND ADMINISTRATION PROGRAM

- To effect the settlement of qualified veterans as farmers, small holders, commercial fishermen and home-steaders, including Indian veterans on Reserves.

## Notes to Statement of Accounts Receivable

## NOTE A—CONSUMER &amp; CORPORATE AFFAIRS

By virtue of section 118 of the Bankruptcy Act, the Superintendent is entitled to a two per cent levy for the purpose of defraying administrative expenses. The dollar amount indicated represents shares and certificates (inactive) received by the Superintendent as levy payments at the close of the relevant bankruptcies. The listed value is not at the current market rates but rather the par value at time of acquisition. Also included are four promissory notes obtained under the same conditions.

## NOTE B—NATIONAL REVENUE—CUSTOMS AND EXCISE

The total receivables represent 22,755 accounts and consist of:

	Customs	Excise	Total
Active and Collectable .....	10,320,516	8,211,770	18,532,286
This amount represents current debts on which collection action is presently being taken, and represents 13,773 accounts.			
Disputed—Under Appeal .....	7,455,868	3,285,535	10,741,403
There are 7,956 accounts which have been disputed or are under appeal as provided for under governing acts and regulations.			
Bankruptcies .....	132,402	4,541,994	4,674,396
There are 589 accounts where an official assignment or receiving order has been filed under the Bankruptcy Act.			
Uncollectable .....	267,384	1,122,082	1,389,466
These are debts on which all avenues of collection have been exhausted, and which are awaiting authority for deletion, or are in the process of being submitted to the Departmental Uncollectable Committee for review. There are 437 such debts.			
	\$ 18,176,170	\$ 17,161,381	\$ 35,337,551

## Notes to Statement of Accounts Receivable—Concluded

### NOTE C—NATIONAL REVENUE—TAXATION

\*Contracts awarded through Public Works  
\*\*Amends reporting in 1975-76 Public Accounts.  
\*\*\*To amend last year's reporting: Montreal—amount of contract reported inaccurately in 1975-76. No expenditures in 1976-77 but a holdback is still owed to the contractor. Contract will be shown as final when the holdback has been paid. Ste Anne de Bellevue—contract was completed in 1975-76 but the notation (f) was omitted.

## MISCELLANEOUS PAYMENTS BY PROVINCES

### FINANCE

#### SUBSIDIES AND OTHER PAYMENTS TO PROVINCES

Payments to provincial governments under the British North America Act, the Federal-Provincial Fiscal Arrangements Act and other statutory authority.

*Subsidies to provinces (British North America Act 1867 to 1952 and other statutory authority)*

Subsidies ..... (10) 33,807,694

Payments of subsidies to provinces are shown in the first column of the statement following the last sub-vote of this category. Details will be found in appendix 2 to this section.

*Payments to provinces as provided under the Federal-Provincial Fiscal Arrangements Act 1967, c. 89, 1967 and the Federal-Provincial Fiscal Arrangements Act 1972, c. 8, 1972*

Payments ..... (10) 3,040,332,487

Under the provisions of the Federal-Provincial Arrangements Act, the Minister of Finance was authorized, where applicable, to pay to each province a tax equalization payment, a provincial tax revenue guarantee, and 20% of the federal tax under Part IX of the Income Tax Act.

For the fiscal period 1972-77, the federal government undertook to pay equalization to all provinces that have an overall fiscal capacity deficiency (i.e., the revenue base applicable to each province for each revenue source is less overall than their share of the population). The equalization payable to such provinces is the sum of the amounts derived by multiplying for each revenue source the revenue of all provinces for that source by the aforementioned fiscal capacity indices appropriate to each revenue source. The federal government undertook for the same period to stabilize net general revenues of each province at 100% of their yield for the previous year; to pay those provinces whose income tax law and rates were converted to conform to the new federal income tax structure adopted as of January 1, 1972 the amount of any revenue loss suffered by such conversion, and 20% of the federal Part IX tax on the post-tax reform distribution by corporations of income accumulated prior to tax reform.

A distribution by provinces appears in the second column of the statement following the last sub-vote of this category.

*Payments to Quebec as provided under the Established Programs (Interim Arrangements) Act, c. 54, 1964-65, and the Federal-Provincial Fiscal Revision Act, c. 26, 1964*

Hospital Insurance and Diagnostic Services Act ..... -16,066,958

Special welfare program comprising the Blind Persons Act, Disabled Persons Act, Unemployment Assistance Act and Canada Assistance Plan ..... 389,530,584

Youth Allowances ..... -130,315,289

Expenditures ..... 243,148,337

The Established Programs (Interim Arrangements) Act, 1964-65 stipulates that where a province that

is participating in a program enumerated in schedule 1 of the Act, as amended, desires to have that program become a program that is to be wholly administered and financed by the province the appropriate Minister and the Minister of Finance, with the approval of the Governor-in-Council and notwithstanding any provision of the authorizing instrument or any regulation made thereunder or in respect thereto, may together enter into a supplementary agreement on behalf of the Government of Canada with the province for the purpose of enabling the province to assume responsibility for that program. Where a province has entered into a supplementary agreement with respect to a standing program, the Minister of Finance may pay to that province an operating cost adjustment payment computed in accordance with section 7 in respect of a year for which an additional tax abatement has been provided under this Act in respect of that province. Quebec was the only province which entered into such an agreement for the current fiscal year.

The Federal-Provincial Fiscal Revision Act, 1964, c. 26, section 6, amended the Youth Allowances Act to provide that, where in any fiscal year commencing on or after April 1, 1964, the federal savings in respect of a province providing schooling allowances exceeds the federal revenue abatement in respect of that province for the taxation year ending in that fiscal year, the Minister of Finance may, out of the consolidated revenue fund, pay to that province in respect of that fiscal year an amount equal to the excess. It also provides that, where the federal savings in respect of a province providing schooling allowance is less than the federal revenue abatement, the Minister of Finance may deduct the amount by which the federal revenue abatement exceeds the federal savings from any payment to that province. Quebec being the only province providing schooling allowances in 1964, was the only province accorded a tax abatement in lieu of federal youth allowances being paid its 16 and 17 year olds. On the federal family allowances program being extended as of January 1, 1974 to embrace 16 and 17 years. Quebec discontinued its schooling allowance program and the full value of the tax abatement associated with the latter program is recovered from that province.

An amount of \$114,678,111 was recovered by an equivalent deduction from monies payable to Quebec in the current fiscal year under the Federal-Provincial Fiscal Arrangements Act and the Established Programs (Interim Arrangements) Act, as provided under the Federal-Provincial Fiscal Revision Act 1964 as amended by section 7 of the Statutes of Canada 1973-74, c. 45.

Total Statutory ..... 3,317,288,518

## LABOUR

## GOVERNMENT EMPLOYEES COMPENSATION

Payments of compensation respecting government employees (Chap. 134, R.S., as amended), merchant seamen (Chap. 45, statutes of 1964-65) and employees of mines now operated by Cape Breton Development Corporation who incurred silicosis prior to acquisition by the Corporation.

		Compensation payments	Federal Government's share of administration expenses	Total payments
		\$	\$	\$
Payments of employment injury claims for public service employees .....	(1)	\$ 8,125,528		
Federal government's share of administration expenses of provincial boards .....	(4)	1,995,224		
Merchant Seamen Compensation .....	(10)	11,445		
		\$10,132,197		

The claims of employees eligible for compensation are dealt with and paid by the Provincial Workmen's Compensation Boards from funds advanced by the Federal Government. Claims of employees resident in the Northwest Territories and the Yukon Territory are adjusted through the Workmen's Compensation Board of Alberta.

Details of transactions resulting in the above mentioned expenditures follow:

## REGIONAL ECONOMIC EXPANSION

## Payments by Provinces

Grants to assist various organizations associated with the promotion and development of regional economic expansion; contributions related to economic expansion and social adjustment by payments to provinces, provincial agencies and to persons for: programs and projects under the Agricultural and Rural Development Act; the use of land; research in connection with the development and adjustment of manpower resources in selected areas; programs related to industrial research and development of services to industry including industrial infrastructure; incentives to industry for the development of employment opportunities in designated regions and special areas; general development agreements; and other federal-provincial programs.

Grants—	
Industrial Developers Assoc. of Canada .....	\$ 1,000
Atlantic Provinces Economic Council .....	12,400
Newfoundland-Labrador Evaluation of Hydro-Electric Sites .....	500,000
	513,400

## Contributions—

Agricultural and Rural Development Act cost-shared program:	
Newfoundland .....	1,544,481
Nova Scotia .....	1,050,805
Québec .....	1,856,316
Ontario .....	7,009,324
Manitoba .....	2,752,235
Saskatchewan .....	5,901,470
Alberta .....	3,353,130
British Columbia .....	3,549,816
	27,017,577

## Agricultural and Rural Development Act:

Development Projects on Indian Reserves—	
New Brunswick .....	2,555
Québec .....	31,065
Ontario .....	597,950
	631,570

## Agricultural and Rural Development Act:

Federal-Provincial Research program—	
Special ARDA .....	
Manitoba .....	1,815,980
Saskatchewan .....	1,418,604
British Columbia .....	795,310
	4,029,894

## Land surveying and mapping program:

Newfoundland .....	1,807,107
Council of Maritime Premiers .....	5,622,373
	7,429,480

Programs and projects contributing to the growth and development of the economy of the Atlantic region for which satisfactory financing arrangements are not otherwise available:

Newfoundland .....	10,310
Prince Edward Island .....	2,203
Nova Scotia .....	130,272
New Brunswick .....	40,965
	183,750

Incentives for the development of industrial employment opportunities in designated areas and regions of Canada deemed to require special measures to facilitate economic expansion and social adjustment:

Industrial Incentives:	
Newfoundland .....	1,440,084

## URBAN AFFAIRS

## CENTRAL MORTGAGE AND HOUSING CORPORATION

Contributions to municipalities to assist in the clearance, replanning, rehabilitation and modernization of blighted or substandard areas, National Housing Act, 1954, C. 23, 1953-54, as amended (12) 8,371,597

Section 23 of the Act authorizes the Corporations, with the approval of the Governor in Council, to enter into agreements with municipalities providing for the payment to a municipality of contributions in respect of one half of the cost to the municipality of acquiring and clearing, whether by condemnation proceedings or otherwise, an area of land in the municipality. The same section authorizes the Corporation to be paid the money required to carry out such agreements. A payment made under this section shall not be greater than the amount by which the aggregate of \$300,000,000 and any additional amounts authorized by Parliament exceeds the total amount of payments made.

Payments to date were \$194,717,485.

Total payments under the Act during the fiscal year to reimburse the Corporation for contributions made to municipalities were \$7,260,750. In addition an expenditure made in 1975-76 under the Act for the period January to March 1976 in the amount of \$1,110,847 was also charged to the Statutory Vote and credited to non-tax revenue—refunds of previous years expenditure.

Details of payments by city, by province follow:

Year ended March 31 1977

Year ended March 31 1976

From inception (including 1977)

## Note:

- (1) Information from Inception (including 1977) not available.  
 (2) Includes \$6,825 from predecessor Experimental Crop Insurance Program.  
 (3) Programs under \$100,000 (1975-76).  
 (4) Amends reporting in the previous year's Public Accounts.  
 (5) In 1976-77 specific projects in the following provinces met the criteria for increased federal support because of regional or national significance.

	<u>Atlantic Portion</u>	<u>National Significance</u>
Newfoundland	336	635
New Brunswick	768	
Quebec		262
Ontario		82
Total	1,104	979

- (6) In respect to the fiscal years 1965-66 to 1971-72 inclusive, the Province of Quebec was reimbursed under the provision of the Established Programs (Interim Arrangements) Act.  
 (7) No contribution is shown to Quebec since the compensation to that province is made in the form of a special individual income tax abatement and a cash adjustment payment as provided for under the Established Programs (Interim Arrangements) Act. Under an agreement authorized by this Act,

the total value to Quebec of the special abatement and cash adjustment is equal to what the federal contribution would otherwise have been under the operative federal statute. Refer to Department of Finance (Vol. II) for details. See also Miscellaneous Payments by Provinces.

- (8) The contribution shown to Quebec is the amount paid for work activity under Part III of the Canada Assistance Plan which is not covered by the Established Programs (Interim Arrangement) Act.  
 (9) Maintenance Cost of Hawkesbury/Perley Bridge. Agreement that Federal Government pay 75% and Ontario Government pay 25%. Maintenance Cost of MacDonald/Cartier Bridge. Agreement that Federal Government pay 33½%, Ontario Government pay 33½%, and Quebec Government pay 33½%.  
 (10) Project Churchill—Cost sharing agreement with Province of Manitoba for construction administration services at Churchill, Manitoba.  
 (11) Includes programs in respect to Fund for Rural Economic Development (FRED), Agricultural and Rural Development Act (ARDA), Special areas infrastructure and Highways, General Development Agreements and federal-provincial research programs.  
 (12) Does not include an amount of \$6,548 for 1977, \$3,940 for 1976 and \$16,891 since inception not allocated by province.  
 (13) The information reported refers to payments by the National Research Council of Canada to the research councils of certain provinces for

- technical information and support services. In view of the fact that these payments have been included in reports on federal-provincial shared-cost programs, they have been included in this report. However, in the absence of a precise definition of a federal-provincial shared-cost program there is some doubt as to whether or not these payments should be classified as such or only as contracts for services.

(14) Contribution to the Corner Brook Harbour Development Study. Provincial/Municipal funds to cover balance of \$210,000.

(15) Contributions, in accordance with terms and conditions prescribed by the Governor-in-council to the provinces of British Columbia, Alberta, Saskatchewan and Manitoba to assist in extending the network of highways and road facilities in the northern areas of the province.
- Contributions, in accordance with terms and conditions prescribed by the Governor-in-council to the provinces of Canada, Alberta, Saskatchewan and Manitoba, to assist in upgrading the primary highway network.

Lieutenant-Colonel .....	25,600	37,300	
Major .....	20,600	29,000	
Captain .....	13,100	25,500	

Rates for Allowances are effective October 1, 1976

#### SEPARATION EXPENSE

Separation Expense is paid to a member of the Regular Force and of the Reserve Force on Class "C" Reserve Service who is posted to a unit where single quarters, rations, or single quarters and rations are not available and his wife or dependent child has not been moved to his new place of duty at public expense, or having been moved to his new place of duty at public expense, is subsequently moved in advance of the member on authority of the Chief of the Defence Staff, or are evacuated on authority of the Minister when emergency exists, or when rations and quarters are provided, in amounts up to \$350.00 for an officer, or up to \$305.00 for a man where he cannot be provided with rations and quarters, or when either quarters or rations are provided the amount of Separation Expense shall be reduced to such amounts as the Minister may determine, or when rations and quarters are provided the amounts are (a) \$37.50 when the officer or man is in receipt of Foreign Duty Allowance; or (b) \$64.50 in all other circumstances.

#### CLOTHING UPKEEP ALLOWANCE

An officer or man of the Regular Force or of the Reserve Force on Class "C" Reserve Service shall be paid clothing upkeep allowance, except under specific conditions, to enable him to maintain his basic kit clothing. The rates authorized are \$10.85 a month for female members and \$7.25 a month for male members.

# Salaries, Wages and Other Personnel Costs (1)—Continued

## NATIONAL DEFENCE—Continued

### DEFENCE SERVICES PROGRAM—Continued

#### GENERAL EXPENDITURES INCLUDED:—Continued

#### EXCEPTIONAL HAZARD ALLOWANCE

An allowance of \$100.00 per incident is paid to an officer or man who, having been ordered to do so, carries out normal disposal procedures on a known or suspected improvised explosive device, or carries out normal disposal procedures on any other extremely hazardous explosives.

#### AIRCREW ALLOWANCE

(a) For the purposes of this article, "pilot" means an officer below the rank of colonel of the Regular Force or of the Reserve Force on Class "B" or Class "C" Reserve Service who is qualified in the flying of aircraft to the standard prescribed in orders issued by the Chief of the Defence Staff. (b) Subject to any limitations prescribed by the Minister, an officer or man of the Regular Force or of the Reserve Force on Class "B" or Class "C" Reserve Service is, unless he is receiving Paratroop Allowance, Rescue Specialist Allowance, Casual Aircrew Allowance, Air Duty Allowance or Casual Air Duty Allowance entitled to Aircrew Allowance at the rate of \$100.00 a month if he is a pilot or qualified in the operation of aircraft or airborne equipment to the standard prescribed in orders issued by the Chief of the Defence Staff and is employed in a flying position designated by the Minister for the purposes of this article.

#### CASUAL AIRCREW ALLOWANCE

(a) For the purposes of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed by the Minister, an officer or man who is not entitled to Rescue Specialist Allowance, Aircrew Allowance, Air Duty Allowance or Casual Air Duty Allowance is, for each day during any part of which he performs duty in an airborne aircraft other than as a Paratrooper or Rescue Specialist or as a passenger, entitled to Casual Aircrew Allowance in the amount of \$9.00 if: (i) he is undergoing flying training to become a pilot; or (ii) the duty performed is of a kind designated by the Minister for the purposes of this article. (c) Unless the Minister otherwise directs, the total amount of Casual Aircrew Allowance payable in a calendar month to an officer or man shall not exceed \$100.00.

#### AIR DUTY ALLOWANCE

Subject to any limitations prescribed by the Minister, an officer or man of the Regular Force or of the Reserve Force on Class "B" or Class "C" Reserve Service is, unless he is receiving Paratroop Allowance, Rescue Specialist Allowance, Aircrew Allowance, Casual Aircrew Allowance or Casual Air Duty Allowance entitled to Air Duty Allowance at the rate of \$65.00 a month if he is qualified in the operation of airborne equipment and is employed in a flying position designated by the Minister for the purposes of this article.

#### CASUAL AIR DUTY ALLOWANCE

(a) For the purposes of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed by the Minister, an officer or man who is not entitled to Rescue Specialist Allowance, Aircrew Allowance, Casual Aircrew Allowance or Air Duty Allowance is, for each

day during any part of which he performs duty in an airborne aircraft other than as a paratrooper or Rescue Specialist or as a passenger, entitled to Casual Air Duty Allowance in the amount of \$6.00 if: (i) he is undergoing flying training to become qualified, other than as a pilot, in the operation of aircraft or airborne equipment; or (ii) the duty performed is of a kind other than one designated by the Minister. (c) Unless the Minister otherwise directs, the total amount of Casual Air Duty Allowance payable in a calendar month to an officer or man shall not exceed \$65.00.

#### FIELD OPERATIONS ALLOWANCES

(a) For the purposes of this article, "Field Operation" has the meaning prescribed in orders issued by the Chief of the Defence Staff. (b) Subject to any limitations prescribed by the Minister, an officer or man who is not receiving Foreign Duty Allowance is entitled, when he is on duty for a period of not less than twenty-four consecutive hours on a field operation away from the permanent facilities normally occupied by his base or other unit or element, to: (i) \$4.00 for each complete twenty-four hour period of that duty; and (ii) \$4.00 for any remaining period of that duty that is of six or more hours duration.

#### DIVING ALLOWANCE

(a) Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man is entitled to Diving Allowance: (i) at the rate of \$200.00 a month if he is a clearance diving officer, clearance diver or diving instructor and is filling a designated position requiring diving duties; or (ii) at the rate of \$40.00 a month if he is filling a designated position requiring the specialty of ship's diver or shallow water diver. (b) A clearance diving officer, clearance diver or diving instructor who is filling a designated position requiring diving duties is, in addition to his entitlement under (a)(i) of this article entitled to an allowance of \$12.00 for each day during any part of which he dives below 200 feet in a submersible, except that the total amount of such daily allowance payable to an officer or man in a calendar month shall not exceed \$60.00. An officer or man who is qualified to the standards prescribed for a clearance diving officer, clearance diver, ship's diver or shallow water diver in orders issued by the Chief of the Defence Staff and is, entitled to an increment of \$15.00 for each complete 24 hour period and for any remaining period of more than 6 hours during which he is, pursuant to orders, participating in an experimental saturation dive or simulated experimental saturation dive and subsequent decompression.

#### CASUAL DIVING ALLOWANCE

(a) For the purpose of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man who is not entitled to Diving Allowance is, for each day during any part of which he is undergoing diving training or performs diving duties, entitled to Casual Diving Allowance in the amount of: (i) \$6.00 if the training undertaken or duty performed involves clearance diving; or (ii) \$4.00 if the training undertaken or duty performed involves ship's diving or shallow water diving. (c) The total amount of Casual Diving Allowance payable in a calendar month to an officer or man shall not exceed: (a) \$200.00 under (b)(i) of this article; or (b) \$40.00 under (b) (ii) of this article.

**Salaries, Wages and Other Personnel Costs (1)—Continued****NATIONAL DEFENCE—Continued****DEFENCE SERVICES PROGRAM—Continued****GENERAL EXPENDITURES INCLUDED:—Continued****FOREIGN DUTY ALLOWANCE**

This allowance is payable to members of the Canadian Forces serving outside Canada who are not entitled to Foreign Service Allowances. The monthly rate of Foreign Duty Allowance is \$50.00 plus an amount ranging between \$50.00 and \$150.00 dependent upon the Post Rating Level allocated by the Minister of National Defence.

**ALLOWANCES UNDER FOREIGN SERVICE ALLOWANCE REGULATIONS**

TB 711190 May 4, 1972, effective May 4, 1972, as amended by TB 731445 November 1, 1974, authorized payment of the following allowances to members of the Armed Forces posted for duty to a country outside Canada; foreign service allowance—based on the cost of living at the place of duty, the rank and marital status of serving member; rent allowance—reimbursement of rent paid in excess of the member's basic share to a maximum determined by his rank; education allowance—reimbursement of actual expenses for the primary or secondary school education of dependent children not over 21 years of age, to the maxima prescribed in the regulations, where adequate free educational facilities are not available; educational travelling allowance—to permit the child, if attending school at a location other than the member's place of duty, to visit his parents or vice versa once each year; dislocation allowance—payable to a member on posting to a place of duty outside Canada and the USA at the rate of \$325.00 if accompanied and \$175.00 if unaccompanied, and on return \$75.00 and \$25.00; post differential allowance—payable to a member serving at a place for which the Treasury Board has prescribed a post differential number at a rate ranging from \$33.33 to \$83.33 per month; clothing allowance based on salary, number of dependants, and length of time served at tropical post, payable to a member on posting to a non-tropical post.

**SUBMARINE ALLOWANCES**

Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man is entitled to Submarine Allowance at the rate prescribed for his rank and classification in: (a) Column "A" of the table to this article if he is qualified for duty in and (i) is posted to a submarine, (ii) is not posted to but is serving in a submarine; or (b) Column "B" of the table to this article when he is undergoing submarine training at sea; or (c) Column "C" of the table to this article when he is (i) undergoing a training course ashore of more than six months duration designated by, and under such conditions as may be prescribed by the Chief of the Defence Staff, if immediately prior to commencing that training course

he was receiving the allowance under (i) of paragraph (a) of this article, or (ii) filling an annotated position as designated in orders issued by the Chief of the Defence Staff.

**CASUAL SUBMARINE ALLOWANCE**

(a) For the purposes of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man who is not entitled to Submarine Allowance is, for each day during any part of which he performs duty in a submarine at sea, entitled to Casual Submarine Allowance in the amount of \$7.50. (c) The total amount of Casual Submarine Allowance payable in a calendar month of an officer or man shall not exceed (a) \$165.00; or (b) \$215.00, if he has 80 or more months of service in submarines or 10 or more years of service at sea, including service in submarines, as a member of the Canadian Forces.

**ISOLATION ALLOWANCE**

Isolation Allowance is paid to members of the Canadian Forces posted for duty at a place designated as an isolated post. The allowance varies according to conditions at various posts and, subject to a scaled classification assigned to the isolated post from time to time by the Treasury Board, could range monthly from \$42.00 to \$566.00 for accompanied personnel and from \$24.00 to \$333.00 a month for unaccompanied personnel.

**SEA DUTY ALLOWANCE**

Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man posted to a ship other than a submarine, or posted to any comparable vessel of a force other than the Canadian Forces, is entitled to a Sea Duty Allowance in the amount of: (a) \$120.00 a month; or (b) \$170.00 a month if he has served 10 or more years on ships, submarines, or any comparable vessel of a force other than the Canadian Forces.

**CASUAL SEA DUTY ALLOWANCE**

Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man who is not entitled to Submarine Allowance or Sea Duty Allowance is, for each day during any part of which he performs duty in a ship at sea, entitled to Casual Sea Duty Allowance in the amount of (a) \$6.00 for each complete 24 hour period of that duty; and (b) \$6.00 for any remaining period of that duty that is of six or more hours duration.

The total amount of Casual Sea Duty Allowance payable in a calendar month to an officer or man shall not exceed \$120.00, except that if he has served, as a member of the Canadian Forces, for 10 or more years on ships, submarines or in a seagoing position designated by the Minister; the total amount shall not exceed \$170.00.

**PARATROOP ALLOWANCE**

(a) Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man is, while undergoing parachutist training or filling a position requiring parachute jumping, entitled to Paratroop Allowance at the rate of \$75.00 a month unless he is receiving Rescue Specialist Allowance, Aircrew Allowance or Air Duty Allowance. (b) An officer or man who is receiving Paratroop Allowance under (1)

**SOLICITOR GENERAL****Royal Canadian Mounted Police**

Rates of pay are authorized by Treasury Board under the provisions of the Royal Canadian Mounted Police Act, c.54, 1959. The following was the strength in the various commissioned and non-commissioned ranks as at March 31, 1977: 1 commissioner, 4 deputy commissioners, 15 assistant commissioners, 40 chief superintendents, 122 superintendents, 322 inspectors, 1 corps sergeant-major, 13 staff sergeants-major, 5 sergeants-major, 852 staff-sergeants, 1,471 sergeants, 2,750 corporals, 6,707 constables, 1,237 special constables and 1,424 civilian members.

The annual rates of pay for commissioned officers, under the rank of chief superintendent, as at March 31, 1977, under authority of TB / CT 742941 and 743935 were as follows: superintendent \$27,700 to \$29,700, inspector \$24,300 to \$26,400.

The annual rates of pay for other ranks as at March 31, 1977 were as follows: staff sergeant-major and sergeant-major \$22,620, staff-sergeant \$21,900 to \$22,500, sergeant \$20,200 to \$20,800, corporal \$18,500 to \$19,200, constable \$12,750 to \$17,625.

The Commissioner is authorized to engage special constables and civilian members under authority of the Royal Canadian Mounted Police Act.

TB 728152 authorized payment to each non-commissioned officer and constable a service pay of \$5 per month for each 5 year period of service.

Expenditures for allowances consisted of: plain clothes allowance at the rate of \$425 per annum \$1,467,278, kit upkeep allowance at the rate of \$6 per month \$595,534, foreign service allowance \$334,716, language allowance \$96,696 and isolated posts allowance \$1,452,822.

TRADE INDUSTRIAL PROGRAM

To develop and sustain the technological capability of Canadian Defence Industry for the purpose of defence export sales arising from that capability;

- a) by supporting selected development programs;
- b) by paying one-half of the cost of the acquisition for new equipment required for plant modernization and
- c) by supporting the establishment of production capacity and qualified sources for production of component parts and materials on terms and conditions approved by the Treasury Board.

#### Indian Claims Commission

### EXPENSES OF THE INDIAN CLAIMS COMMISSION

	Estimates	Allotments	Expenditures
Expenses .....(12)	\$ 472,000	\$ 329,000	\$ 292,160

P C 1969-2405, December 19, 1969, authorized the appointment of Dr Lloyd Barber as a commissioner, under Part I of the Inquiries Act to inquire into, study and report on how the second and third classes of Indian claims may best be adjudicated, to consult with authorized representatives of the Indians and,

- (a) to receive and study the grievances arising in respect of:
  - (i) the performance of the terms of treaties and agreements formally entered into by representatives of the Indians and the Crown; and
  - (ii) the administration of moneys and lands pursuant to schemes established by legislation for the benefit of the Indians;
- (b) to recommend measures to be taken by the Government of Canada to provide for the adjudication of the claims received that he considers can be demonstrated to require special action in relation to any group or groups of Indians; and
- (c) to advise as to categories of claims that, in his judgement, ought to be referred to the courts or to any special quasijudicial or administrative bodies that he recommends as being desirable for adjudication of special awards.

P C 1975-1, dated January 6 1975.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that, pursuant to Part I of the Inquiries Act, Maxwell Weir Mackenzie, Lydia Patry-Cullen and Hu Harries be appointed Commissioners under Part I of the Inquiries Act to hold a public inquiry covering all beef and veal marketed within Canada and

- (a) to examine the organization and methods of operation of the marketing system for all grades of beef and veal including all live cattle, calves and carcass beef and veal sold within Canada whether imported or domestically produced taking into account:
  - (i) each step in the distribution and processing system; and
  - (ii) any geographical differences in the marketing system;
- (b) to examine the price setting mechanisms for all beef and veal sold in Canada, including the nature and extent of the price spreads which exist among the various elements of the marketing system;
- (c) to examine the number of intermediaries in the system and the nature of the services they render;
- (d) to report on the overall effectiveness of the marketing system including both the reasonableness of the costs incurred and of

the price spreads which occur at each level and over the entire system;

- (e) to submit to the government as soon as possible such recommendations as it may deem fit for improving the marketing of beef and veal in Canada.

THE COMMITTEE further advise that

- (a) Maxwell Weir Mackenzie be designated Chairman of the Commission;
- (b) the Commissioners may engage the services of such staff and technical advisers as they deem necessary or advisable and also the services of counsel to aid and assist them in their inquiry at such rates of remuneration and reimbursement as may be approved by the Treasury Board;
- (c) the Commissioners may adopt such procedures and methods as they may from time to time deem expedient for the proper conduct of the Inquiry; may sit at such time and at such places as they may decide from time to time.

Royal Commission on Corporate Concentration

EXPENSES OF ROYAL COMMISSION ON CORPORATE CONCENTRATION

	Estimates	Allotments	Expenditures
Expenses.....(12)	\$ 1,250,000	\$ 1,200,000	\$ 1,163,210

P C 1975-879, dated April 22, 1975.

WHEREAS the Committee of the Privy Council have had before them a report from the Prime Minister representing that it is desirable to cause an inquiry to be made into and concerning the concentration of corporate power in Canada.

The Committee, therefore, on the recommendation of the Prime Minister, advise that Robert Broughton Bryce, Esquire, of the City of Ottawa in the Province of Ontario, be appointed a Commissioner under Part I of the Inquiries Act to inquire into, report upon, and make recommendations concerning:

- (a) the nature and role of major concentrations of corporate power in Canada;
- (b) the economic and social implications for the public interest of such concentrations; and
- (c) whether safeguards exist or may be required to protect the public interest in the presence of such concentrations.

The Committee further advise that the Commissioner:

- 1. may exercise all the powers conferred upon him by section 11 of the Inquiries Act and be assisted to the fullest extent by government departments and agencies;
- 2. may adopt such procedure and methods as he may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as he may decide from time to time;
- 3. may engage the services of such counsel, staff, clerks and technical advisers as he may require at rates of remuneration and reimbursement to be approved by the Treasury Board; and

#### Royal Commission on Financial Management and Accountability

#### EXPENSES OF ROYAL COMMISSION ON FINANCIAL MANAGEMENT AND ACCOUNTABILITY

	Estimates	Allotments	Expenditures
Expenses .....(12)	\$ 100,000	110,000	109,820

P C 1976-2884, dated November 22, 1976.

WHEREAS the Committee of the Privy Council have had before them a report of the Right Honourable Pierre Elliot Trudeau submitting:

That the growth of government responsibilities and programmes to meet the needs of Canada in recent years has placed unprecedented demands upon the structure, organization and process of administrative management and control in the Government of Canada;

That the Public Service of the Government of Canada has long enjoyed an enviable reputation for efficiency and probity and the government wishes to ensure the maintenance, in the new circumstances, of the high standards of public service the Canadian people have received in the past and rightly expect:

That reports of the Auditor General have caused the government serious concern that the current state of financial administration in the Government of Canada is not now adequate to ensure full and certain control over and accountability for public funds required for the expanded responsibilities and programmes that now exist; and

That it is essential that the government have the capacity to ensure in the Public Service that authority and accountability together ensure the most efficient use of resources, and that all opportunities to make savings, avoid waste and increase productivity are vigorously pursued.

It is therefore in the national interest that a comprehensive inquiry be made into the best means of providing for financial management in the federal administration of Canada, including departments and Crown agencies, and for the accountability of deputy ministers and heads of Crown agencies for their administration, including evaluation of their performance in this regard; taking into account the constitutional roles and responsibilities of Parliament, Ministers and the Public Service, and more especially the principle of the collective and individual responsibilities of Ministers to Parliament.

The Committee, therefore, on the recommendation of the Prime Minister, advise that: H Marcel Caron, John Edwin Hodgetts, Allen Thomas Lambert and Oliver Gerald Stoner be appointed Commissioners under Part I of the Inquiries Act to examine and report on the management system required in the inter-related areas of:

- (i) financial management and control,
  - (ii) accountability of deputy ministers and heads of Crown agencies relative to the administration of their operations, and
  - (iii) the evaluation of the administrative performance of deputy ministers and heads of Crown agencies,
- and the interdepartmental structure, organization and process applicable thereto, including in particular:
- (a) the development, promulgation and application of financial management policy, regulations and guidelines by central agencies
  - (b) procedures to ensure that,
    - (1) necessary changes in policy, regulations and guidelines are identified, and
    - (2) policy regulations and guidelines are adhered to,
  - (c) systems and procedures to ensure effective accountability to government and, where appropriate to Parliament, of the administration of government departments and agencies, and
  - (d) the organization necessary in central agencies, government departments and Crown agencies to achieve the foregoing.

The Committee further advise that the Commissioners:

1. ensure that their recommendations form a mutually compatible management system appropriate to the requirements of government;
2. be authorized to exercise all the powers conferred upon them by Section 11 of the Inquiries Act and be assisted to the fullest extent by government departments and agencies;
3. adopt such procedures and methods as they may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as they may decide from time to time;
4. be authorized to engage the services of such counsel, staff and technical advisers as they may require at rates of remuneration and reimbursement to be approved by the Treasury Board;
5. report to the Governor in Council with all reasonable despatch, and file with the Dominion Archivist the papers and records of the Commission as soon as possible after the conclusion of the inquiry;
6. review the reports of the Auditor General for the fiscal years ending March 31, 1975 and March 31, 1976 and the supporting material thereof; and other relevant Parliamentary reports;
7. submit progress reports if possible, as they complete stages of their study, with an initial report not later than December 31, 1977; and
8. that Allen Thomas Lambert be designated Chairman of the Commission.

PC 1976-3322, December 24, 1976, appointed Mr Robert Després as Commissioner and accepted Mr H Marcel Caron's resignation.

PC 1977-45, January 13, 1977, advises that the Commissioners appointed under Order in Council PC 1976-2884, of November 22, 1976, as amended by Order in Council PC 1976-3322 of December 24, 1976, to inquire into the best means of providing for financial management in the federal administration, be known as the Royal Commission on Financial Management and Accountability.

Miscellaneous Statements—Continued

INDUSTRY, TRADE AND COMMERCE  
GRAINS

Payments in connection with the Prairie Grain Advance  
Payments Act

Payment..... (10) \$ 2,550,461

Section 15 of the Prairie Grain Advance Payments Act provides for payment to the Canadian Wheat Board of (a) interest charges paid or payable to the Board with respect to money borrowed by it or advanced on its behalf for the purposes of the Act, and (b) amounts of advance payments outstanding at the time of default, to the extent that the Board has not been reimbursed therefore after default.

The amount consisted of interest charges of \$2,408,447 for the period April 1, 1976 to March 31, 1977 paid under Section 15(a) of the Act, plus payment in respect of defaulted accounts \$142,014 paid under Section 15(b) of the Act, less refunds in respect of defaulted accounts \$561,151. Cumulative payments to March 31, 1977 in respect of interest charges were \$45,612,501,\* of defaulted accounts were \$1,995,398\* and refunds in respect of defaulted accounts were \$651,024.\*

\* These cumulative totals had an error in fiscal years 1973-74 and 1974-75 and thus the corrections have been made and are now reflected in the cumulative totals reported above.

Payments in connection with the Prairie Grain Provisional  
Payments Act

Payment..... (10)

Section 3(1) of the Prairie Grain Provisional Payments Act authorized the Canadian Wheat Board to make provisional payments for the 1969-70 crop year in respect of future deliveries of unthreshed grain and Section 8(1) provides that, for the purpose of making such payments, the Board may borrow money, and the Minister of Finance may, on behalf of Her Majesty, guarantee, on such terms and conditions as the Governor in Council may approve, repayment of money so borrowed and interest thereon.

Section 13 of the Provisional Act Provides for payment to the Canadian Wheat Board of (a) interest charges paid or payable to the Board with respect to money borrowed by it or advanced on its behalf for the purposes of the Act, and (b) amounts of provisional payments outstanding at the time of default, to the extent that the Board has not been reimbursed therefore after default.

No payments were made under this Act during the period April 1, 1976 to March 31, 1977, however, refunds in the amount of \$1,411 were received with respect to defaulted accounts

Total Statutory Items..... \$ 2,550,461

## NOTES TO FINANCIAL STATEMENTS

## 1. Summary of Significant Accounting Policies

## (a) Property and equipment

Depreciation and amortization is provided by the straight line method and is based on the following estimated useful lives:

Boeing 747 .....	16 years
Lockheed 1011 .....	15 and 16 years
Boeing 727 .....	14 years
DC-8 .....	14 years
DC-9 .....	12 years

Ground equipment and facilities .....

5 to 30 years

For accounting purposes, leased flight equipment is treated as though it is owned.

Expenditures for maintenance and repairs are charged to operating expenses as incurred. Significant expenditures for modifications and betterments are capitalized.

## (b) Spare parts

Provision for the obsolescence of aircraft spare parts, less their estimated residual value, is made by charges to operating expenses over the service lives of the related aircraft types.

## (c) Deferred charges

Costs incurred in introducing new types of aircraft are deferred and amortized on a straight line basis over five years, commencing with the time each type is placed into revenue service.

Financing and other deferred costs are amortized on a straight line basis over the period to which they relate.

## (d) Passenger and freight revenues

Passenger and freight sales are recognized as earned revenue when the transportation service is provided. Unearned amounts are treated as current liabilities.

## (e) Capitalized interest

Interest is capitalized on payments for major property and equipment additions made prior to their entry into regular service and is included in their cost.

## (f) Translation of foreign currencies

Assets and liabilities are translated into Canadian dollars at year-end exchange rates except non-current assets which are translated at exchange rates prevailing when the asset was acquired.

Gains and losses resulting from foreign exchange translation are reflected in income for the year.

## (g) Income taxes

The corporation records income taxes on the tax allocation basis which recognizes the income tax effect on transactions when they are recorded in accounting income, regardless of when such items are recognized for tax purposes. These timing differences can result in deferred income taxes either being provided for or recoverable depending on when the items are recognized for accounting and tax purposes.

## (h) Pensions

Unfunded liabilities as determined by actuarial valuation are funded by annual payments which are charged to operations over periods recommended by the actuaries and as required by the Pension Benefits Standards Act. The cost of funding current service pension benefits is charged to operations as incurred.

## AIR CANADA—Continued

## NOTES TO FINANCIAL STATEMENTS—Continued

## 2. Change in Accounting Policy

During the year the corporation changed its accounting policy with respect to translation of long-term liabilities owing in foreign currency. The new policy is to use exchange rates in effect on the balance sheet date whereas in the past these liabilities were recorded at exchange rates prevailing on the date the debt was incurred.

This change has been applied retroactively and the effect on reported losses is as follows:

	1976	1975
	(\$000)	(\$000)
Unrealized gain (loss).....	2,958	(1,072)
Less: Income tax thereon .....	808	(463)
Decrease (increase) in loss for the year .....	<u>2,150</u>	<u>(609)</u>

In addition the retained earnings at December 31, 1974 previously reported as \$39,097,000 has been increased by \$3,756,000 (after applicable income taxes) to reflect the retroactive adjustment of the cumulative translation gains up to that date.

## 3. Spare Parts, Materials and Supplies

	1976	1975
	(\$000)	(\$000)
Spare parts—cost.....	58,602	56,725

	914,270	1,059,638
Current Portion	<u>861,421</u>	<u>52,195</u>
		1,007,443

Long term debt repayment requirements over the next five years amount to \$52,849,000 in 1977, \$43,303,000 in 1978, \$90,672,000 in 1979, \$121,195,000 in 1980, and \$82,033,000 in 1981.

Long term debt includes \$142,661,000 payable in U.S. funds and \$14,921,000 payable in pounds sterling which are converted at current exchange rates.

## 7. Deferred Income Taxes

As explained in the note on accounting policies, the corporation follows the principle of tax allocation accounting. At December 31, 1976 a net deferred tax asset of \$7,536,000 was created as a result of drawing down \$11,785,000 of deferred taxes against the 1976 loss. The corporation believes sufficient earnings will be achieved in future years to make the recovery of the net deferred tax asset virtually certain, particularly because of the potential reduction in interest cost arising from the proposed restructuring of the corporation's debt position as explained in note 8.

## 8. New Air Canada Act

"An Act respecting the reorganization of Air Canada" (Bill C-17) has been introduced before the House of Commons of Canada. In addition to broadening the powers and activities of the corporation the Bill provides for the restructuring of the long-term debt and share capital of the corporation.

The Government has indicated its intention, under the provisions of the proposed Act, to convert certain of the existing debt into share capital. This action would result in a significant reduction in annual interest costs and changes to the schedule of long term debt retirement.

## AIR CANADA—Concluded

## NOTES TO FINANCIAL STATEMENTS—Concluded

## 9. Commitments

Commitments for facilities and equipment amounted to \$18,300,000 at December 31, 1976. Rental payments due in 1977 under term leases in effect for facilities at December 31, 1976 amount to \$11,738,000 (excluding leased aircraft which are included in long term debt).

There were no commitments for the acquisition of aircraft at December 31, 1976.

## 10. Pension Plans

The present value of the actuarially determined unfunded liability of the Corporation's pension plans at December 31, 1976 is approximately \$92,226,000 (1975—\$28,800,000). This liability is being retired by annual payments of \$9,304,000 (1975—\$2,861,000) to 1992 and \$574,000 to 2027.

Effective January 1, 1977, the Corporation approved adjustments to actuarial assumptions which will increase the unfunded liability by a further \$36,449,000 to be retired by additional annual payments of \$3,877,000 to 1992.

## 11. Anti-inflation Act

The corporation is subject to restraint of profit margins, prices, dividends and employee compensation under the terms of the Anti-Inflation Act and Regulations which became effective October 14, 1975. Based on available information, the corporation is satisfied that it has complied with the legislation in all material respects for the year ended December 31, 1976.

## 12. Comparative Figures

Certain of the 1975 comparative figures have been reclassified to conform to the presentation adopted in 1976.

## AUDITORS' REPORT

TO THE HONORABLE  
THE MINISTER OF TRANSPORT  
OTTAWA

We have examined the balance sheet of Air Canada as at December 31, 1976, and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, these financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the corporation at December 31, 1976, and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of currency translation as referred to in Note 2, with which we concur, on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of accounts have been kept by the corporation and the transactions that have come under our notice have been within the powers of the corporation.

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 1976

## 1. Significant Accounting Policies

## (a) Parliamentary appropriations

The Atlantic Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. It is the practice that, until the revenue for pilotage charges is sufficient to permit the Authority to operate on a self-sustaining basis, any deficit, including capital expenditure, is to be recovered from parliamentary appropriations provided for that purpose. Amounts received from appropriations in excess of the deficit are shown under current liabilities.

## (b) Fixed assets

Depreciation and amortization of fixed assets are calculated on a straight-line basis and are based on the estimated useful life of the assets as follows:

Buildings	20 years
Wooden boats	10 years
Steel boats	20 years
Aluminum boats	25 years
Wharves and structures	10 years
Furniture and equipment	10 years
Leasehold improvements	10 years

Although charged in the Statement of Operations, depreciation is not recovered from parliamentary appropriations.

## (c) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, plus the cost of capital assets financed from parliamentary appropriations, are shown as contributed capital.

## (d) Capitalized leases

The Authority leases boats from Canada under long-term financing leases. Under the terms of the lease agreements, the Authority assumes the rights and obligations of ownership of the boats. As a result, the leases are treated as purchases and the principal portion of lease payments is capitalized and depreciated over the estimated useful lives of the boats. The corresponding liability is reduced by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

## 2. Fixed assets

As at December 31, 1976 the fixed assets and related accumulated depreciation were as follows:

	1976		1975	
	Cost	Accumulated Depreciation	Net	Net
Land .....	\$ 750	\$	\$ 750	\$ 750
Building .....	13,585	1,629	11,956	12,585
Pilot Boats .....	1,288,436	185,384	1,103,052	701,848
Wharves and Structures .....	6,182	1,212	4,970	2,694
Furniture and Equipment .....	68,101	28,244	39,857	45,518
Leasehold Improvements .....	19,729	7,989	11,740	9,765
	<u>\$ 1,396,783</u>	<u>\$ 224,458</u>	<u>\$ 1,172,325</u>	<u>\$ 773,160</u>

## 3. Due to Canada

Although the Authority is on a calendar year basis, parliamentary appropriations are granted for a fiscal year. The amount refundable represents the balance payable to Canada on amounts received from appropriations in excess of the deficit to March 31, 1976.

## 4. Prior years' adjustments

## (a) Contributed capital

In previous years an account was maintained within Equity of Canada entitled residual value of capital assets financed from parliamentary appropriations. This account was credited with values assigned to assets transferred by Canada to the Authority in 1972 plus the cost of capital assets financed from parliamentary appropriations since that date. The account was reduced by depreciation and the net book value of assets disposed of and the deficit was reduced by a corresponding amount. Under the new policy, gains or losses on disposal of fixed assets are recorded in the Statement of Operations and contributed capital represents the original value assigned to assets transferred in 1972 plus the cost of fixed assets financed from parliamentary appropriations since that date.

As a result of the retroactive application of this change in accounting policy, the balance of the deficit at December 31, 1975 has been restated to show a charge of \$122,157 representing the cumulative amount of depreciation taken on fixed assets and the cumulative net book value of capital assets sold to December 31, 1975. Of that amount, \$31,688 is applicable to 1975 and the deficit has been charged for that year. The remaining \$90,469 is applicable to years prior to January 1, 1975 and has been charged to the deficit at that date. A further amount of \$12,585 has been credited to contributed capital of years prior to 1975 in respect to assets contributed by Canada which were previously unrecorded in the Authority's accounts.

## ATLANTIC PILOTAGE AUTHORITY—*Concluded*

### (b) Capitalization of leases

The Authority leases three boats from Canada under long-term bare boat charter agreements. These leases, maturing between 1989 and 1991, require maintenance and insurance in addition to total payments for the three boats of \$116,939 per annum up to and including 1989 when they are reduced to \$54,785 until 1991. Upon maturity of each of the boat charters, the Authority has the option to purchase the boat for \$1. By their nature, these charters qualify as financing leases and lease payments pertaining to principal have been capitalized.

As a result of capitalization during 1976 of two of the leases which were in effect prior to January 1, 1976, the balance of the December 31, 1974 deficit has been restated to show a retroactive charge of \$28,373. The amount of \$9,217 has been credited to 1975 income in respect of the capitalization of leases.

### (c) Public Service superannuation plan

During 1976 the Authority was required to record in its accounts the employer contribution in respect of the purchase of past service pension benefits by pilots who became employees (Note 5(a)). Previously the Authority was of the opinion that it would not be required to match these contributions. As a result of the retroactive application of this change, the deficit at January 1, 1975 increased by \$91,471; for 1975, the loss on operations has been increased by \$37,000 over the amount previously reported.

### (d) Amounts due to Canada

Previously, an amount of \$294,762 collected prior to December 11, 1973 under the regulations then in force, was considered to be payable to Canada. During the year it was determined that the amount is not payable and the deficit at January 1, 1975 has been reduced accordingly.

## 5. Commitments and contingent liabilities

### (a) Past service pension contributions

Under provisions of the Pilotage Act contract pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Plan. Certain pilots have exercised their option to become employees and have elected to purchase pension benefits in respect of past service. These elections have created an obligation to make employer contributions in respect of past service, and in 1976 the Authority recorded these contributions in the accounts. (Note 4(a)). Pilots who have elected to become employees may purchase past service pension benefits either by monthly installments which are to be paid over their remaining service periods or by the payment of a lump sum. Virtually all of these pilots have elected to pay on the installment basis, therefore the Authority will be required to match past service pension contributions over the remaining service lives of the pilots.

With respect to pilots who have elected to purchase past service by monthly installments, employer contributions amounting to approximately \$408,000 will be required over future years until their retirement.

### (b) Litigation

The Authority is acting in the defence of one employee pilot who has been sued in connection with the grounding of the MV "Golden Robin" on September 30, 1974. Various claims concerning this incident aggregate in excess of two million dollars. However, the Authority is of the opinion that it can successfully invoke the \$1,000 limitation of liability under the Pilotage Act.

### 6. Remuneration of members and officers

Expenses includes remuneration of members as members, \$11,600 (1975-\$14,175), and remuneration of officers as officers, \$114,104 (1975-\$106,700). The Authority has seven members and five officers. One officer is also a member.

### 7. Comparative figures

The presentation of the 1975 comparative figures has been amended to conform to the 1976 format.

### 8. Anti-inflation legislation

Under P.C. 1976-3079 of December 10, 1976 with retroactive effect from May 27, 1976, the Authority is subject to the Anti-inflation Act and the regulations promulgated thereunder, which provide for restraints on prices, profit margins and compensation of employees.

Ottawa, Ontario

March 14, 1977

THE HONOURABLE OTTO E. LANG, P.C., M.P.

MINISTER OF TRANSPORT

OTTAWA, ONTARIO.

I have examined the balance sheet of the Atlantic Pilotage Authority as at December 31, 1976 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the accounting changes described in Note 4 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL

The accompanying notes and schedules are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Significant Accounting Policies

(a) Long-term contracts: A significant portion of the Company's commercial activities involve long-term contracts which are accounted for as follows:

(i) Construction of nuclear power plants — Revenues and costs on contracts to construct nuclear power projects, part of the Company's commercial operations, are recorded on the completed-contract method. Under this method, sales and cost of sales are recorded on substantial completion of the work. When project estimates indicate a probable ultimate loss, full provision is recorded against current operations.

Construction contracts in progress are reported on the balance sheet at accumulated costs (including interdivisional charges of nuclear consulting services) less billings and provisions for losses, if any. In accordance with industry practice, such amounts have been included in current assets or liabilities although a portion thereof may not be realized or paid within one year. Construction costs include direct materials, direct labour, construction overhead and sub-contract costs.

(ii) Nuclear consulting services — Contracts with provincial utilities for consulting engineering services are recorded under the Company's research and utilization program. Revenues from such contracts are recorded using the percentage-of-completion method. When estimates indicate a probable ultimate loss on a contract, the full amount thereof is recorded as a provision against current operations.

(iii) Interdivisional sales—Nuclear consulting services, part of the Company's research and utilization program, records revenue on the basis of services rendered to Nuclear Power Projects, part of the Company's commercial operations. Such transactions are in respect of consulting personnel and laboratory services provided on construction projects. Charges for services are designed to recover direct personnel costs and other direct costs as well as an allowance for overhead expenses.

(iv) Heavy water—Revenue on the sale of heavy water is recorded at the time of delivery. Estimated losses on fulfilling sales commitments are recorded as provisions against current operations when estimated production costs exceed respective sales prices.

(b) Research and development: Expenditures for research and development, including related plant and property, are charged to operations in the year incurred. Parliamentary appropriations received to finance these activities are credited to operations.

(c) Foreign currencies: Monetary assets and liabilities in foreign currencies are recorded in Canadian dollars at current exchange rates. Accumulated costs and billings related to long-term contracts in foreign currencies are recorded at historical month-end rates. Gains and losses resulting from foreign currency transactions and balances, which relate to long-term contracts, are included in contract costs. Other foreign exchange gains and losses are recorded in operations as incurred.

(d) Inventory valuation: Heavy water and radiation equipment and materials are carried in the inventory at the lower of cost or estimated realizable value. Maintenance and general supplies are carried at cost.

(e) Investments and long-term notes: Interest on amounts borrowed for investments and long-term notes is accrued and added to the carrying value of the respective assets. The carrying values are reduced by all payments received.

(f) Plant and property:

(i) Expenditures for research facilities are recorded as program costs in the year of acquisition.

(ii) The costs of prototype nuclear power stations are carried on the balance sheet without depreciation.

(iii) Other assets are carried on the balance sheet at cost and are depreciated on a straight-line basis over the estimated useful lives of the assets as follows:

Houses	—50 years
Buildings	—20 to 40 years
Machinery and equipment	—5 to 20 years
Heavy water plant	—25 years

Interest on amounts borrowed for capital construction is capitalized to the in-service date of the respective assets. Prior to in-service dates, expenditures in excess of amounts attributable to actual production are deferred as start-up expenditures.

(g) Comparative figures: Presentation of 1976 figures has been amended to conform to the 1977 format.

## ATOMIC ENERGY OF CANADA LIMITED—Continued

## 2. Inventories

Inventories comprise the following:

	(\$000s)	
	1977	1976
Heavy water .....	48,160	19,111
Radiation equipment and materials		
—Raw materials .....	7,420	9,500
—Work in process .....	4,733	4,245
—Finished goods .....	1,036	1,056
	<u>13,189</u>	<u>14,801</u>
Maintenance and general supplies .....	5,258	5,305
	<u>66,607</u>	<u>39,217</u>

## 3. Uncompleted Contracts

## (a) Export nuclear stations:

Under the terms of a contract effective April 11, 1974, as amended on February 18, 1977, the Company contracted together with its partner, Italmimpianti—Scotia Italiana Impianti, Italy, to supply a 600 megawatt (electric) nuclear generating station to Comision Nacional de Energia Atomica, Argentina. The Contract stipulates a firm price subject to adjustment for escalation up to certain ceilings. On the basis of a current forecast of the cost to complete this project, and notwithstanding a material improvement in the terms of the contract as amended in February, 1977, the Company now estimates that it will incur a loss of approximately \$130 million (including \$22 million on related heavy water) on completion of the Argentine contract. Full provision for this estimated loss has been made in the 1977 Statement of Operations.

Effective January 26, 1976, the Company contracted to supply a 600 megawatt (electric) nuclear power plant to the Korea Electric Company. This contract stipulates firm prices for the Canadian content of the nuclear steam supply system with provision for adjustment for escalation; the balance of the project, relating to the non-nuclear portions of the station, is on a cost reimbursable basis.

## (b) Heavy water:

Losses on fulfilling contractual sales commitments, other than heavy water to be supplied to nuclear plants presently under construction by the Company, are estimated to be \$30 million. Full provision has been made for this estimated loss in the 1977 Statement of Operations.

## (c) Nuclear consulting services:

Cost estimates to complete outstanding contractual commitments exceed recoverable amounts by \$10 million. Full provision has been made for this estimated loss in the 1977 Statement of Operations.

Summary of uncompleted long-term contracts:

	(\$000s)	
	1977	1976
Billings in accordance with contract terms .....	164,565	84,673
Deduct: Construction costs incurred to March 31 .....	128,634	63,949
Billings in excess of costs .....	<u>35,931</u>	<u>20,724</u>
Provision for estimated losses		
—Nuclear plants .....	130,000	
—Heavy water .....	30,000	
—Consulting services .....	10,000	
	<u>170,000</u>	<u>      </u>

## 4. Long-Term Notes and Other Receivables

The portion of notes and other receivables not due within one year represents the following:

	(\$000s)	
	1977	1976
(a) Notes receivable from Ontario Hydro for the sale of the Bruce heavy water plant. Interest at 7.795% is included in the monthly payments of \$2,102,987 to December 28, 1992. ....	222,469	230,308
(b) Notes receivable, bearing interest rates of 7 15/16% to 10%, from Hydro-Quebec for advances made by the Company to assist in financing the construction of Gentilly II nuclear generating station. Interest is received semi-annually and repayments on principal will commence after the plant in-service date and will be based on an amortization period of 25 years at a weighted average interest rate. Maximum loan authorization is approved at \$151.0 million. ....	110,000	51,000
(c) Notes receivable, bearing interest of 9 5/8% to 10 1/8%, from the New Brunswick Electric Power Commission for advances made by the Company to assist in financing construction of the Lepreau nuclear generating station. Repayment of advances plus accrued interest will commence after the plant in-service date and will be based on an amortization period of 25 years at a weighted average interest rate. Maximum loan authorization (including accrued interest) is approved at \$350.0 million. ....	79,981	30,420
(d) Mortgages receivable on houses sold, at interest rates ranging from 5% to 10% per annum and amortized over periods up to 30 years. ....	6,842	7,380
(e) Lease-purchase options due from foreign governments and companies. Interest rates range from 6% to 10% with terms of up to 12 years. ....	18,617	8,142
	<u>437,909</u>	<u>327,250</u>

## 5. Investments

Investments totalling \$604.1 million comprise the following:

## (a) Nelson River transmission line

Under a lease agreement dated February 15, 1966, between Canada and Manitoba, certain transmission facilities were built by the Company. Manitoba Hydro assumed responsibility for the operation and maintenance of the facilities on January 1, 1974, and commenced lease payments in 1975. The annual payments are designed to repay the cost of the facilities, together with interest thereon at 5 5/8% per annum, over a 50 year period. The interest accruing is expected to exceed lease payments in the early years and the difference will increase the Company's investment. Management estimates that future payments will fully recover the Company's investment.

## (b) Pickering nuclear generating station

Ontario Hydro, the Province of Ontario and the Company are parties to a joint undertaking for the construction and operation of Units 1 and 2 of Pickering nuclear generating station, with ownership of these units being vested in Ontario Hydro. Ontario Hydro is committed to make payments over a period terminating in 2001 to each of the parties in proportion to their capital contributions. These payments represent the difference between operating and maintenance costs of the two Pickering units and the total cost, including a capital amortization charge, that would be involved if the energy generated by Pickering Units 1 and 2 had been produced by the first two coal-fired units at Lambton. Management estimates that future payments will fully recover the Company's investment.

ATOMIC ENERGY OF CANADA LIMITED—Continued

- (c) Glace Bay heavy water plant

Under a project authorization of \$289.3 million, the Company has undertaken a program of rehabilitation of the plant which is owned by Deuterium of Canada Limited. Rehabilitation expenditures incurred during the year, including accrued interest and start-up costs total \$25.3 million; these expenditures have been deferred. The Company is now commissioning the plant as an operating unit and contractual arrangements with Deuterium of Canada Limited are under discussion.
6. Prototype Nuclear Power Stations

The Douglas Point and Gentilly I prototype stations were built primarily to provide information and demonstrate the suitability of the CANDU system. Included in the carrying costs of the prototype stations are expenditures relating to the company's Research, Development and Demonstration program.

The Douglas Point prototype station is operated under an agreement with Ontario Hydro and the Gentilly I station is operated under an agreement with Hydro-Quebec. Ontario Hydro and Hydro-Quebec are committed, under contract, to offer to purchase the respective stations at a price which is economically viable to the Utilities when the stations have been demonstrated to be a safe and dependable source of power. It is not known when the sales might take place or if the sales prices will provide full recovery of the costs.

During the year, the Company obtained a parliamentary appropriation of \$85.5 million to cover accrued interest to March 31, 1977, on loans used to finance the prototype reactors. The Company is also requesting a revision to the terms of these loans to make them non-interest bearing as of April 1, 1977. The amount of the appropriation has been credited to the deficit account. Interest during construction totalling \$15.8 million, which was previously capitalized, was written off in 1977 and charged to the deficit account. Interest of \$69.7 million accruing after the in-service dates had not been recorded in the accounts and has been charged to the deficit account in 1977.
7. Employees' Termination Benefits

During 1976-77, the Company adopted the policy of recording in its accounts a provision for termination benefits accruing to employees. This accounting policy has been applied retroactively and resulted in increasing the loss on operations for 1976 by \$464,200 over the amount previously reported. For years prior to 1976 operating losses increased by \$9.9 million and the retained earnings at March 31, 1975, were decreased by that amount. Previously, the Company had expensed actual payments in the year of termination or retirement.
8. Major Commitments

(a) In July 1969, the Company entered into a contract with Ontario Hydro whereby the Company is committed to purchase all of the Cobalt-60 produced at the Pickering generating station for a period of 30 years from the in-service date (1971) of the installation. At March 31, 1977, the inventory value of Cobalt-60 has been reduced by \$3 million to a level considered appropriate for the business cycle. This write-down of \$3 million has been recorded under cost of sales, Commercial Products. At March 31, 1977, no additional provision had been reflected in the accounts relative to any potential imbalance from future purchases arising under the contract.

(b) The Company is constructing a 725 metric-ton-per-year heavy water plant known as La Prade, near Gentilly, Quebec. Capital expenditures including interest during construction up to March 31, 1977 total \$166.7 million. Restraint in 1976 and 1977 with respect to government expenditure approvals has necessitated revisions to the construction schedule. The estimated cost of the plant will be significantly higher than the 1974 total project authorization of \$453 million. The cost of the project is currently under review.
9. Supplementary Information

(a) During the year, the Company's Board of 13 directors received aggregate remuneration as directors of \$14,000 (1976—\$14,000). The Company has 11 officers, 2 of whom are also directors. The aggregate remuneration received by these officers and by a past officer amounted to \$485,000 (1976—\$397,000).

(b) The Company has for many years employed agents and representatives to market its products, such as medical and industrial applications of nuclear technology, and nuclear power plants on a world wide basis. During the year remuneration and expenses paid to 43 sales agents and representatives, as follows, aggregated \$17,353,732: C.G.R. do Brazil, Brazil; General Electric Co., U.S.A.; C.G.R. MeV, France; C.G.R. Genaray, Italy; Marubeni Corporation, Japan; Equipo Para Hospitales S.A., Mexico; G.E.C. Electrical Products (Pty) Limited, South Africa; General Electric Espanola, Spain; G.E.C. Medical Equipment Limited, England; Kamol Sukosol Company Limited, Thailand; C.G.R. Benelux, Belgium; International General Electric Company (India) Private Limited, India; Equipamentos Cientificos Do Brasil Limited, Brazil; Labkar Company Limited, Iran; General Electric De Colombia S.A., Colombia; Spring Port Taiwan Limited, Taiwan; A.B. Atomenergi, Sweden; E. Comm Australia Pty. Limited, Australia; Geveke Elektronica, Germany; Gammas-ter, Netherlands; Hamco Commercial S.C.R.L., Peru; Tamathe S.R.L., Argentina; Koch & Sterzel C.G.R., Germany; The China Engineers Limited, Hong Kong; C.H.F. Mueller A.G., Germany; Dr. Serafettin Ve Ortaklari Ticaret Limited, Turkey; High Energy and Nuclear Equipment S.A., Switzerland; Societa Lombarda Di Televisione S.P.A., Italy; China National Chemicals Import & Export Corporation, Peoples Republic of China; Roberto L. Lannes, Uruguay; Kostas Karayannis, Greece; General Machinery Company Ltd., Chile; Amtraco Corporation, Indonesia; The General Electric Company of Singapore Private Limited, Singapore; Arab Trading & Engineering Office, Syria; Costa Rica Dental & Medical Supply Co., Costa Rica; Electrische Nijuecheids-Instalaties, Belgium; International Machinery Co. (Bolivia) Sa. Bolivia; Atomed Equipmento Nuclear Ltda. Brazil; Distributora Nacional C.A., Venezuela; Servicios Electronicos Int. Puerto Rico; United Development Incorporated, Israel and Gebhart Y Asociados, Mexico.

(c) The Company is subject to restraint under the Anti-Inflation Act with respect to certain of its prices and profit margins and the compensation of its employees. In the opinion of management all steps necessary for compliance have been taken.

Long-term obligations not subject to regular amortization and no definite maturity dates-\$631,449.

**ATOMIC ENERGY OF CANADA—Concluded**

Ottawa, Ontario  
June 22, 1977.

THE HONOURABLE A. W. GILLESPIE, P.C., M.P.,  
MINISTER OF ENERGY, MINES AND RESOURCES,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Atomic Energy of Canada Limited as at March 31, 1977 and the statements of operations, retained earnings (deficit) and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As described in note 6 to the financial statements, the Company is carrying the full costs of prototype nuclear power stations as plant and property on the balance sheet. It is not known when the stations might be sold or if the sales prices will provide full recovery of the costs.

In my opinion, subject to the effect of any adjustments to the financial statements which may result from the ultimate resolution of the matter referred to above, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change, with which I concur, to the accrual method for recording employees' termination benefits as described in note 7, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

I refer to paragraph 18.1 of my 1976 Report to the House of Commons concerning inadequate documentation in support of certain payments by the Company to sales agents. This matter is being considered by the Public Accounts Committee. However, in order to discharge my legal obligation under Section 77(1) of the Financial Administration Act, I now call it to your attention.

J. J. MACDONELL  
*Auditor General of Canada*

G. K. BOUEY  
Governor,

A. ROUSSEAU  
Chief Accountant,

Auditors' Report: We have examined the statement of assets and liabilities of the Bank of Canada as at December 31, 1976 and the statement of income and expense for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Bank as at December 31, 1976 and the results of its operations for the year then ended in accordance with the attached summary of significant accounting policies, applied on a basis consistent with that of the preceding year.

PIERRE CHOUINARD, C.A.  
de la firme Samson, Bélair & Associés  
Ottawa, Canada, January 21, 1977

M. A. MACKENZIE, F.C.A.  
of the firm Clarkson, Gordon & Co.

<sup>1</sup> The number of staff averaged 1,458 in 1976 and 1,403 in 1975; the approximate number of employee-years worked was 1,450 in 1976 and 1,408 in 1975.

<sup>2</sup> Includes cafeteria expenses, retirement allowances, overtime pay, educational training costs and medical services.

FINANCIAL STATEMENTS DECEMBER 31, 1976  
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## a. Form of Presentation

The form of the statement of assets and liabilities meets the requirements of the Bank of Canada Act.

## b. Revenues and Expenses

Revenues and expenses have been accounted for on the accrual basis.

## c. Investments and Bills

In accordance with the requirements of the Bank of Canada Act, these assets have been recorded at their cost adjusted for amortization of purchase discounts and premiums. The amortization as well as gains and losses on disposition have been included in income.

## d. Translation of Foreign Currencies

Assets and liabilities in foreign currencies have been translated to Canadian dollars at the rates of exchange prevailing at the year-end. Gains and losses resulting from these translations have been included in income.

## e. Depreciation

Depreciation has been recorded at the following annual rates applied on the declining balance method:

Buildings	5%
Equipment	20%

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 1976

## 1. Objective of the Corporation and Accounting Policies

The Canada Deposit Insurance Corporation was incorporated as a Crown corporation on April 17, 1967 under the provisions of the Canada Deposit Insurance Corporation Act.

The Corporation's principal objective is to provide insurance on deposits with federal institutions (banks and trust and loan companies) and with approved provincial institutions (trust and loan companies). Premiums are assessed against member institutions based on deposits held by those institutions on April 30 of each year.

The significant accounting policies follow:

## Premium income

Premium income is credited directly to the Deposit Insurance Fund in accordance with section 18 of the Canada Deposit Insurance Corporation Act.

## Investment income

Investment income (return on investments) is reported inclusive of net gains and losses on sales of investments and of the annual amortization of premiums and discounts on fixed term securities.

## Recognition of losses

Provision for losses arising from actions taken to secure the subrogation of depositors' rights and interests is established in the year these actions are taken or as soon as possible thereafter when the eventual losses can be reasonably estimated.

## 2. Claim re Insured Deposit Payments

In 1970 under the provisions of section 13 of the Canada Deposit Insurance Corporation Act, the Corporation by paying \$5,432,971 acquired all the rights and interests of the depositors against a member institution which was in receivership. Recoveries to December 31, 1976 totalled \$4,815,959 which includes an amount of \$499,141 received during the year leaving a balance of \$617,012 outstanding. As the amount of any further recoveries is not ascertainable, the Corporation is carrying the balance of the claim at the nominal \$1. As a result the provision for loss has been reduced from \$1 million to \$617,011 and \$382,989 has been credited to Accumulated Net Earnings against which the provision had been originally charged.

## 3. Premium Income

As provided in section 19(8) of the Act and as approved by the Board of Directors on February 2, 1972, member institutions were assessed reduced premiums during the year and in every year since 1972. Under pending amendments to the Act, it is proposed that where in the opinion of the Corporation the Deposit Insurance Fund at the end of a financial year is adequate, having regard to all the circumstances, the Corporation may pay a premium rebate to member institutions subject to stated limitations.

## 4. Income Taxes

In 1976 and 1975 the Corporation reduced its taxable income and deferred a portion of income taxes otherwise payable by claiming a reserve on its investments as provided for by the Income Tax Act. During 1976 the Corporation changed its basis of accounting for income taxes to reflect the amount of these deferred taxes in its accounts. The effect of this change has been to reduce net income for 1976 by \$194,000 (1975—\$174,000). Comparative amounts for 1975 have been restated to give retroactive effect to this change.

CANADA DEPOSIT INSURANCE CORPORATION—*Concluded*NOTES TO FINANCIAL STATEMENTS—*Concluded*

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario.  
February 18, 1977

## 5. Dividend

The dividend declared and paid during the year was based on the rate of interest applicable to loans to Crown corporations as provided for in section 36 of the Act.

## 6. Capital Stock

Under a proposed amendment to the Act, the Corporation would be authorized to redeem all of its share capital.

## 7. Insured Deposits

Deposits insured by the Corporation, based on returns received from member institutions during 1976, totaled \$55,989 million, comprising deposits of \$49,768 million in federal institutions and \$6,221 million in provincial institutions. Of the deposits insured in provincial institutions, \$569 million was covered by a temporary indemnity agreement with one province.

## 8. Remuneration of Directors and Officers

The Corporation has five directors and two officers, one of whom is also a director. The directors receive no remuneration. Remuneration of officers as officers was \$51,000 (1975—\$51,000).

THE HONOURABLE DONALD S. MACDONALD P.C., M.P.,  
MINISTER OF FINANCE,  
OTTAWA.

Dear Mr. Macdonald,

I have examined the balance sheet of Canada Deposit Insurance Corporation as at December 31, 1976 and the statements of income and expense and accumulated net earnings and financial activities for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1976, and the results of its operations and financial activities for the year then ended, in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the accounting for income taxes referred to in Note 4 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Corporation.

Yours sincerely,

J. J. MACDONELL  
*Auditor General of Canada.*

## CANADIAN ARSENALS LIMITED—Continued

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 1977

## 1. Operations

Canadian Arsenals Limited was incorporated on September 20, 1945 under the Companies Act of 1934 on the recommendation of the Minister of Reconstruction pursuant to authority granted by Order in Council P.C. 5929 of September 14, 1945. The Company is a Schedule C Crown corporation, wholly owned by the Government of Canada, reporting through the Minister of Supply and Services and is engaged in the manufacture of munitions.

## 2. Significant Accounting Policies

## Inventory valuation

The work-in-process and finished products are valued at the lower of cost and net realizable value.

## Provision for employee termination benefits

The Company expenses termination benefits in the year in which they are earned by the employees. Payments are applied to reduce the recorded liability.

## Deficit

The deficit is funded by a Department of Supply and Services appropriation to the extent of annual working capital requirements.

## Income tax

The Company is not subject to income taxes.

## 3. Fixed Assets

The fixed assets are owned by the Crown, are administered by the Company and are not reflected in the financial statements. The costs at March 31 were as follows:

	1977	1976
Land and improvements .....	\$ 2,283,401	\$ 2,327,727
Buildings .....	11,356,034	13,005,844
Equipment .....	9,003,578	16,083,468
	<u>\$22,643,013</u>	<u>\$31,417,039</u>

The Company in conjunction with the Treasury Board is in the course of moving toward a more commercial orientation and is presently examining the most effective means of transferring title and determining the proper asset value, at which time an appropriate charge will be recorded in the accounts.

## 4. Inventories

It is Company practice to omit from the physical count any part of the work in process that is expected to be shipped by March 31. The quantity on hand as of March 31 of items which were not counted represented approximately one-fifth of the inventory owned by the Company.

In addition, inventories of Government Supplied Material (G.S.M.) (estimated at \$17.0 million) supplied to the Company at no cost were not counted. The established role of the Company in the past has been restricted to the final assembly of munitions. Components, representing up to 80% of the end value of the round, are purchased and delivered to the Company by the Department of Supply and Services as free issue; these components are not recorded on the books of the Company. A proposed reorganization will provide for the Company to assume the responsibility for the procurement and counting of all items previously provided as free issue.

The nature of the business requires exceptional physical security measures. The potential for loss on the uncounted portion of the inventory is reduced by such measures.

## 5. Customer holdbacks

Customer holdbacks represent 20% of the estimated selling price of shipments for which firm prices have not yet been established as at March 31, 1977.

## 6. Loans due to Government of Canada

These loans bear no interest and have no fixed repayment dates.

## 7. Cost of sales

The cost of sales includes salary and other overhead expenses incurred to sustain the capability to produce small arms and munitions on a larger scale than is currently required. Because of existing low levels of production, the above costs were not recoverable from sales revenue which is based primarily on rates negotiated with the Department of Supply and Services. These amounts for the year ending March 31, 1977 were as follows:

	Filling Division	Small Arms Division	Total
Sales .....	\$ 6,433,250	\$ 430,076	\$ 6,863,326
Cost of sales based on negotiated rates .....	5,722,465	451,987	6,174,452
	710,785	(21,911)	688,874
Overhead costs attribut- able to excess capaci- ty .....	1,629,089	170,780	1,799,869
Loss on sales .....	<u>\$ 918,304</u>	<u>\$ 192,691</u>	<u>\$ 1,110,995</u>

## 8. Extraordinary items

## Fire loss

Additional losses relating to a 1976 fire, not provided for in the prior year, were realized during the current year in the amount of: \$102,342

## Division closing

The Small Arms Division at Mississauga, Ontario, was closed in 1976-77. This resulted in the termination of approximately 100 employees and \$9.3 million of fixed assets owned by the Crown no longer being required. Losses consisting of salaries and overhead expenses incurred when production levels were very low and employees were preparing the plant for the closing were: \$326,774  
\$429,116

## 9. Directors and officers

The Company has five directors and three officers, one of whom is also a director. The aggregate remuneration paid the officers during the year was \$97,448 (\$81,750 in 1976). No remuneration was paid to the directors. The increase in cost is due to termination benefits paid during the year.

## 10. Comparative figures

Comparative figures have been restated to conform to the current year presentation. Customer holdbacks of \$15,035, included in accounts receivable in 1976, are reported separately in 1977. Deferred termination benefits of \$109,151 shown separately in the 1976 income statement have been reclassified to cost of sales and administrative expense.

12. Anticipated moving of Head Office function

It is anticipated that the Head Office function in Ottawa will be moving to the Filling Division at St. Paul l'Ermite, Quebec, during the 1977-78 fiscal year.

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.,  
MINISTER OF SUPPLY AND SERVICES,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Arsenals Limited as at March 31, 1977 and the statements of income and expense, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained in the following paragraph.

As referred to in Note 4 to the financial statements, approximately one-fifth of the inventory owned by the Company, and all of that supplied and owned by Government departments have not been counted. In addition, adequate records have not been maintained for the latter inventory. I was therefore unable to satisfy myself as to the amount of inventory on the balance sheet and to express an opinion on the possible effect on the financial statements arising from any shortages of inventories owned or held on behalf of Government departments.

As described in Notes 3 and 11 to the financial statements, the fixed assets used by the Company, including those purchased with funds provided from its annual parliamentary appropriation, are considered to be owned by Canada and therefore are not recorded as assets in the Company's accounts. The Company does not pay for the use of such assets and has not determined a fair value for their use. In my opinion, fixed assets purchased with funds provided by appropriations should be included as assets on the balance sheet and a corresponding amount should be included in parliamentary appropriations in the Statement of Deficit. The resulting depreciation charges and any related interest charges would have the effect of increasing the net loss for the year.

In addition, certain of the fixed assets, mainly land and buildings, were paid for by Canada, prior to the establishment of the Company and are still owned by Canada. The failure to include a charge in the Statement of Income and Expense for the use of such assets, further understates the net loss for the year and the deficit.

In my opinion, except for the matters referred to in the three preceding paragraphs, these financial statements present a true and fair view of the financial position of the Company as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, except for the failure to maintain adequate accounting records for certain inventories referred to above, proper books of accounts have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

## CANADIAN BROADCASTING CORPORATION—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Accounting policies

## (a) Subsidiaries

The consolidated financial statements include the accounts of the Canadian Broadcasting Corporation and its wholly-owned subsidiaries, St. Clair River Broadcasting Limited and Les Entreprises Roléo Ltée.

## (b) Investments

Investments are carried at cost. Income arising from the investments is recognized when received.

## (c) Prepaid film rights

The Corporation enters into commitments for film broadcasting rights. These commitments are reflected in the accounts as pre-paid film rights as payments are made under the terms of each contract. The rights are amortized on a "per play" basis or are written off if found to be unusable.

## (d) Capital assets

Capital assets are carried at cost of material, engineering, labour and related overhead and are depreciated from the in-service year on the straight line method using rates based on the estimated useful lives of the assets on the following basis:

Buildings, transmitters and towers .....	20 years
Technical equipment .....	10 years
Studio and office furnishings and equipment.....	10 years
Vehicles .....	5 years

## (e) Accruals

Accruals for normal operating costs are provided in the accounts with the exception of interest on capital loans (note 3) and severance pay (note 6). The annual parliamentary appropriations make no provision for accruing these items.

## (f) 1976 Summer Olympics

Operating expenditures and revenues in connection with the 1976 Summer Olympics are included in the Corporation's net cost of operations. The net amount, excluding depreciation, is charged, together with capital expenditures, to the appropriation provided for that purpose. The capital assets acquired are included in the Corporation's capital assets and credited to the Proprietor's Equity Account.

## (g) Comparative figures

The presentation of the prior year's comparative figures has been amended to conform to the current year's format.

## 2. Investments

Master FM Limited—common shares .....	\$ 1,999
Télévision St. François Inc.—preferred shares .....	350,000
CJBR Radio Limitée and CJBR—TV Limitée—refundable deposit with respect to an option to purchase total outstanding shares of both companies .....	200,000
	<u>\$551,999</u>

## 3. Loans to finance the acquisition of capital assets

Payment of principal and interest on loans from Canada due after March 31, 1974 has been deferred until March 31, 1979, in accordance with Orders in Council P.C. 1974-633, P.C. 1974-704 and P.C. 1974-856. The cumulative interest since March 31, 1974, not recorded in the accounts, is \$42,159,582, of which \$14,053,194 is the interest for the year. Had this interest been recorded, liabilities as at March 31, 1977 and expenses for the year would have been increased by \$42,159,582 and \$14,053,194 respectively.

## 4. Proceeds from parliamentary appropriations

The proceeds from parliamentary appropriations for operating and capital expenditures during the year are comprised of funds voted by Parliament and are exclusive of payments for the 1976 Summer Olympics.

	Operating	Capital	Total
Parliamentary appropriations .....	\$343,400,000	\$ 61,300,000	\$404,700,000
Repayments to Canada .....		36,676	36,676
Proceeds from Parliamentary appropriations .....	<u>\$343,400,000</u>	<u>\$ 61,263,324</u>	<u>\$404,663,324</u>

At March 31, 1977, the unexpended balance of operating appropriations amounted to \$4,114,000, which in accordance with an agreement with Treasury Board has been retained by the Corporation and included in the Proprietor's Equity Account.

The expenditures for the 1976 Summer Olympics amounting to \$8,409,395, exclusive of depreciation, were financed from a \$5,416,378 carry-over of prior years appropriations provided for that purpose and \$11,200,000 received in the current year. Of the unexpended appropriation, \$950,000 has been retained to cover final costs and the balance of \$7,256,983 is refundable to Canada.

## 5. Pension plan

The latest actuarial review made at December 31, 1974 indicated the unfunded liability under the Corporation's pension plan to be estimated at \$47,690,000. The Corporation is liquidating this by annual payments of \$4,840,000, payable to 1992 and by annual payments of \$800,100 thereafter until 2027 representing both principal and interest as required by the Pension Benefits Standards Act 1966-67, c. 92. A further actuarial review is to be made as at December 31, 1977.

## 6. Severance pay

Severance pay accumulates for employees for service in excess of ten years. Such payments are made and charged to the accounts in the year the employee separates or retires. The accrued obligations for all employees payable over future years are estimated at \$37 million at March 31, 1977, including an increase of \$8 million during the year, and are not recorded in the accounts. Had these obligations been recorded, liabilities as at March 31, 1977 and expenses for the year would have been increased by \$37 million and \$8 million respectively.

## 7. Contractual obligations

The Corporation has entered into commitments for future film rights amounting to approximately \$15 million, which, consistent with policy, are not reflected in the accounts.

The Corporation is also committed in the course of normal business under unexpired lease contracts to future expenditures of approximately \$80 million of which \$45 million will become payable over the next three fiscal years with the balance becoming payable over the subsequent fifteen years.

## 8. Contingent liabilities

In the ordinary course of the business of the Corporation, there are matters in suit and in dispute and contingencies outstanding against it. In the opinion of management, the losses, if any, which may result from the settlement of these matters will not be material.

## 9. Anti-inflation Act

The Anti-Inflation Act provides for the restraint of prices and compensation. The Corporation is subject to this legislation and has no unrecorded or contingent liability in that respect.

**CANADIAN BROADCASTING CORPORATION—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
June 13, 1977

THE CANADIAN BROADCASTING CORPORATION AND  
THE HONOURABLE JOHN ROBERTS, P.C., M.P.,  
SECRETARY OF STATE,  
OTTAWA, ONTARIO.

I have examined the consolidated balance sheet of Canadian Broadcasting Corporation as at March 31, 1977 and the consolidated statements of operations, proprietor's equity account and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, except for the effect of failing to record accrued interest and severance pay, described in notes 3 and 6 to the financial statements respectively, these consolidated financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

## CANADIAN COMMERCIAL CORPORATION—Continued

## NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1977

## 1. Operations

The Canadian Commercial Corporation ("the Corporation") was established in 1946 by the Canadian Commercial Corporation Act as a Crown Corporation for the following purposes:

- (a) to assist in the development of trade between Canada and other nations;
- (b) to assist persons in Canada
  - (i) to obtain goods and commodities from outside Canada, and
  - (ii) to dispose of goods and commodities that are available for export from Canada;
- (c) to exercise on behalf and under the direction of the Minister any powers or functions vested in the Minister by any other Act that authorizes the Minister to employ the Corporation to exercise them; and
- (d) to exercise any other powers or functions conferred upon it by any other Act or for the exercise of which it may be employed under any other Act.

Under this broad charter, the Corporation acts primarily as the contracting agency when other countries and international agencies wish to purchase supplies and services from Canada on a government-to-government basis. An additional important function of the Corporation is the procurement in Canada of equipment, supplies and services which the Government of Canada contributes to other nations under Canadian International Development Agency programs.

Contracts are made with the purchaser (the Corporation's customer) and equivalent contracts are entered into by the Corporation with appropriate suppliers as sourced by the contracting arm of the Department of Supply and Services of the Government of Canada.

## 2. Significant Accounting Policies

## Contract billings

Contract billings are recorded on the basis of the Corporation's shipments to customers for fixed price contracts. Sales on cost reimbursement contracts are recorded when progress payments are processed.

At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss on both fixed price and cost reimbursement contracts is set up.

## Cost of contracting service

The Corporation has no capital assets or employees, and is charged for contracting services rendered by the Department of Supply and Services according to Treasury Board approved, pre-determined rates, applied to the amounts of contracts procured. A portion of these costs is recovered from the Canadian International Development Agency based upon the contracts procured by the Corporation on behalf of that Agency.

## Foreign currency

A major part of the Corporation's day-to-day activities is conducted in U.S. Dollars. The accounts of the Corporation are maintained in Canadian currency and amounts designated in U.S. currency at year-end have been translated into Canadian currency at year-end rates. Gains or losses resulting from this translation are included in the statement of operations.

## Funding of costs by vote

Certain of the operating costs of the Corporation are funded on an annual basis by the Government of Canada.

## Income taxes

The Corporation is not liable for the payment of income taxes.

## Surplus/deficit

Surpluses are periodically transferred to the Receiver General as revenue. Reimbursement of realized deficits is contingent upon parliamentary appropriations.

## Settlement of receivables

The Corporation's sales are on a government-to-government basis and the settlement of some accounts is protracted. However, the collection experience supports the likelihood of payments. Therefore, the setting up of a provision for doubtful accounts is not deemed necessary by the Corporation. As of March 31, 1977, \$2,254,633 (1976 \$1,558,929) of foreign government receivables had been outstanding in excess of one year.

## 3. Contracts in progress

In accordance with contracts, the Corporation makes progress payments to its suppliers and receives payments from its customers. Advances from customers which are not specifically payable to suppliers are reported as a separate liability.

As of March 31, 1977 the Corporation was committed to fulfill contracts with customers requiring future deliveries of goods and services of approximately \$300,000,000 over the next two to three years.

## 4. Short-term bank deposits

Certain short-term bank deposits amounting to \$1,866,059 (1976 \$6,839,407) are non-interest bearing for the Corporation.

## 5. Loan to supplier

During 1971 the Corporation entered into a loan agreement with a supplier. The original agreement has been subsequently amended to provide that the Corporation controls the supplier's ability to obtain financing and to change ownership. The loan is non-interest bearing, unsecured and repayable in annual installments of \$5,000 plus an additional amount calculated in accordance with certain operating results of the supplier. The Corporation is in process of renegotiating more favourable repayment terms.

## 6. Investment in supplier

During 1976 in order to fulfill contractual obligations to a major customer and in an effort to minimize possible loss of \$5,800,000 the Corporation renegotiated certain supplier contracts and acquired 527,855 common shares and one special preference share of the supplier for a nominal value of \$1. The contract renegotiation resulted in eventual losses to the Corporation of \$3,000,000 (see Note 10).

The common shares acquired by the Corporation are subject to a voting trust. The special preference share gives the Corporation certain powers over the supplier's ability to borrow, provide for debts, dispose of all or part of its undertaking, to pay dividends, to enter into contracts and to pay management fees.

## 7. Loans payable to Canada

Section 8(2) of the Canadian Commercial Corporation Act states that the Corporation may borrow up to \$10,000,000 from the Consolidated Revenue Fund on such terms and conditions as determined by the Governor in Council. As of March 31, 1977, \$5,800,000 was outstanding as follows:

Due Date	Amount	Interest Rate
August 16, 1977	\$2,500,000	9.0%
	1,800,000	6.3%
	1,500,000	6.3%

Repayment is dependent upon working capital needs.

CANADIAN COMMERCIAL CORPORATION—*Concluded*

## 8. Contingent liability

The Corporation has been named as a defendant in a legal action instituted in 1975 claiming damages for alleged losses resulting from the termination of a portion of a contract. Total damages claimed are in excess of \$6,800,000. The action is being contested, and while the ultimate outcome is uncertain at this time, management is of the opinion that no provision for settlement is required in the accounts.

## 9. Equity of Canada

The Corporation has no capital stock; however, grants and advances made by the Government of Canada under Section 8(1) of the Canadian Commercial Corporation Act and paid to the Corporation comprise \$10,000,000 of paid in capital.

The deficit since inception consists of certain costs of services rendered net of funds contributed by the Government of Canada.

## 10. Recoverable contract costs

The Corporation incurred additional costs of \$3,000,000 on renegotiation of certain contracts (Note 6) and funds for the reimbursement of these costs were included in Vote 25 of the Department of Supply and Services 1977-78 Main Estimates.

## 11. Change in accounting policies and restatement of comparative figures

The statement of operations for the year ended March 31, 1976 has been restated to include unrealized exchange gains or losses resulting from the year-end translation into Canadian currency of amounts designated in U.S. currency.

Accounts receivable from foreign governments as of March 31, 1976 have been restated to reflect invoices to customers previously included in error under progress payments.

## 12. Representative agreement

The services of Dismatica Industrial C.A. were utilized as a representative under an agreement with the Corporation. No payments were made during the fiscal year, but estimated fees payable of \$27,000 had been earned as of year-end.

AUDITOR GENERAL OF CANADA

Ottawa, Ontario  
June 30, 1977THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.  
MINISTER OF SUPPLY AND SERVICES  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Commercial Corporation as at March 31, 1977, and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As discussed further in Note 8 to the financial statements, a legal suit has been filed against the Corporation, claiming damages arising from the termination of a portion of a contract. The Corporation is contesting this suit; however, the ultimate outcome is uncertain at this time.

In my opinion, subject to the outcome of the litigation mentioned in the preceding paragraph, the accompanying financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of accounting for unrealized exchange gains or losses resulting from the year-end translation into Canadian currency of amounts designated in U.S. currency as referred to in Note 11 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

## CANADIAN DAIRY COMMISSION—Continued

NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Summary of significant accounting policies

## Accounting basis

## a) Statement of Dairy Support Operations Expense

This statement reflects the expenses of the Commission which are recoverable from funds provided through parliamentary appropriations. Such expenses include subsidies to producers on milk and cream for manufactured products, expense related to export equalization account and administrative expense. Other expenses which are recoverable from producers are reflected in the statement of export equalization account.

## b) Statement of Export Equalization Account

The export equalization account reflects the operations of the Commission in the sale of surplus dairy products and assistance payments made directly to exporters to permit them to compete with surplus products on the world markets. Prior to April 4, 1977, the Commission in managing the account established a producer levy intended to balance the account over a five-year period. However, as announced on that date (see Note 5), the government will be taking over the current total debt of the export equalization account.

There are certain expenses related to the export equalization account which are recoverable from funds provided through parliamentary appropriation. These are, therefore, charged in the statement of dairy support operations expense.

## 2. Parliamentary appropriations

The parliamentary appropriation shown as Agricultural Stabilization Board consists of the following:

	1977	1976
Funds received from Agricultural Stabilization Board through Agriculture Vote 20.....	\$233,117,732	\$275,000,000
Account receivable from Agricultural Stabilization Board, representing funds receivable for the dairy support operations.....	35,481,960	
	<u>\$268,599,692</u>	<u>\$275,000,000</u>

## 3. Inventories

The inventories are valued at the lower of cost and net realizable value and consist of:

	1977	1976
Skim milk powder .....	\$24,416,217	\$38,490,830
Butter .....	11,388,112	28,447,584
Other related dairy products .....	5,544,833	1,558,699
	<u>\$41,349,162</u>	<u>\$68,497,113</u>

## Skim milk powder

The Commission purchases skim milk powder surplus to Canadian requirements from processors at Canadian support prices, for sale outside Canada. Prices on the world market are depressed, resulting in the estimated net realizable value of the inventory as at March 31, 1977, being approximately \$103,000,000 (\$147,000,000—1976) less than the Canadian support price. The amount of this decrease has been reflected in the carrying value of the inventory and charged to the export equalization account.

## Butter

To maintain an orderly market in Canada, the Commission purchases butter, generally from domestic processors at the Canadian support price, for sale at a later date to meet Canadian consumer demands or for export. The inventory of 10.8 million pounds at March 31, 1977, amounting to \$11,388,112 valued at Canadian support price, is considered normal to meet Canadian requirements and will be sold at Canadian support prices.

## Other related dairy products

This inventory includes evaporated milk, butter oil and various forms of milk powder other than skim milk powder. The products are either purchased from processors or converted from skim milk powder or butter. The estimated net realizable value of the inventory as at March 31, 1977, is approximately \$7,800,000 (\$3,200,000—1976) less than acquisition cost plus conversion cost. The amount of this decrease has been reflected in the carrying value of the inventory and charged to the export equalization account.

## 4. Loans from Canada

The loans from Canada obtained to finance purchase of dairy products bear interest rates varying from 8.125% to 9.0% per annum. Repayment terms are not specified in loan agreements. Interest, calculated on a simple basis, is paid at the year-end and at the time of any principal repayment. At March 31, 1977, no accrued interest was payable whereas at March 31, 1976, accrued interest amounted to \$5,863,168.

## 5. Extraordinary item—Provision for loss on export equalization account

On April 4, 1977, the Minister of Agriculture announced the main features of the 1977-78 dairy program. One of the features of the program was that the government would be taking over the current total debt of the export equalization account, which previously was intended to be recovered from producers. As a result of this announcement, a provision for loss in the amount of \$146,682,410 has been charged to dairy support operations expense for the year.

## 6. Outstanding commitments

As at March 31, 1977, the Commission is committed to purchase skim milk powder and other related products produced prior to March 31, 1977, at the 1976 Canadian support prices in an amount of approximately \$3,700,000. The loss which may result from these purchases at higher than export prices has been estimated to be approximately \$2,500,000. The amount of this estimated loss has been charged to the export equalization account.

## 7. Agent's commission

On November 1, 1976, the Commission appointed Coopérative Fédérée de Québec as a sales agent in connection with marketing evaporated milk in Algeria. As at March 31, 1977, no payments have been made to the agent under this agreement; however, \$85,000, as commissions, has been accrued against orders received and shipped. This amount is included in accounts payable and accrued liabilities.

## 8. Comparative figures

Certain figures for the previous year have been restated to conform to the current year's presentation.

CANADIAN DAIRY COMMISSION—*Concluded*

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
July 8, 1977

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.,  
MINISTER OF AGRICULTURE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Dairy Commission as at March 31, 1977 and the statements of deficit, dairy support operations expense, export equalization account, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada.*

CANADIAN FILM DEVELOPMENT CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

Ottawa, Ontario  
June 30, 1977

1. Nature of activities

The Corporation was established in 1967 under the Canadian Film Development Corporation Act with the objective of fostering and promoting the development of a feature film industry in Canada. To achieve its objective, the corporation advises and assists the Canadian producers and invests in Canadian feature film productions in return for a share in the proceeds from any such productions.

2. Significant accounting policies

(a) Films costs

The corporation reflects as an asset on the balance sheet its share of the cost of feature films in production.

When films are placed in distribution, all costs related to the films are charged to expense in the statement of operations.

(b) Fixed assets

Furniture and equipment are stated at acquisition cost. Depreciation of these assets is provided under the diminishing balance method at 20% per annum.

(c) Revenue

Revenue is recorded on a cash basis.

(d) Equity of Canada

The amount withdrawn from the statutory appropriation account is credited to the statement of equity of Canada and the net cost of operation is charged thereto.

3. Commitments

The Corporation is committed under contractual agreements to invest an amount of \$160,270 in Canadian feature film production. The corporation has also agreed in principle to invest an additional amount of \$360,500 in other Canadian feature film productions subject to certain conditions being met by the applicants.

4. Statutory appropriation

By the provisions of the Canadian Film Development Corporation Act \$10,000,000 was appropriated from the Consolidated Revenue Fund to be withdrawn by the Corporation from time to time for the furtherance of its object. This sum was increased to \$20,000,000 in 1971-1972 and to \$25,000,000 in 1975-1976. The status of the appropriation at March 31 is summarized as follows:

	1977	1976
Amount appropriated .....	\$25,000,000	\$25,000,000
Amount withdrawn in prior years .....	20,458,504	16,937,189
	4,541,496	8,062,811
Amount withdrawn during the year .....	3,537,046	3,521,315
Balance of appropriation at end of year ....	\$ 1,004,450	\$ 4,541,496

5. Remuneration of members and officers

	1977	1976
Number of members .....	6	6
Members' remuneration .....	\$ 5,250	\$ 7,625
Number of officers .....	2	2
Officers' remuneration .....	\$62,474	\$62,537
Number of officers who are also members .....	1	1

6. Comparative figures

The presentation of the 1976 comparative figures has been amended to conform to the 1977 format.

THE HONOURABLE JOHN ROBERTS, P.C., M.P.  
SECRETARY OF STATE  
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Film Development Corporation as at March 31, 1977 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

MARCH 31, 1977

**1. Nature of activities**

The objects of the Board are to ensure the availability of feed grain to meet the need of livestock feeders, the availability of adequate storage space in Eastern Canada for feed grain, and the maintenance of reasonable stability in, and fair equalization of, feed grain prices in Eastern Canada and British Columbia.

**2. Significant accounting policies****(a) Basis of presentation**

The accounts of the Board are maintained on the accrual basis. Claims for freight assistance are recorded as expense in the period in which the shipment takes place. Payments made in April chargeable to the previous year's appropriations are recorded as due from Canada in respect of parliamentary appropriations.

**(b) Furniture and equipment**

Purchases of furniture and equipment are recorded as administrative expense in the year of acquisition.

**(c) Accounting and cheque issue services**

The Board includes as an expense in the statement of operations services provided without charge by a government department and a corresponding amount is credited in the statement of deficit.

**3. Prior years' adjustments**

During the year the Board changed certain of its accounting policies and applied the changes on a retroactive basis. The effects are as follows:

**(a) Modified cash to accrual basis**

In previous years, the Board recorded expenditures on the modified cash basis whereby payments in April pertaining to the previous year were charged to expenditure of that year. During the current year, the Board recorded its expenses on the accrual basis and as a result amounts paid after April out of the subsequent year's appropriations are recorded as a payable at March 31, and a corresponding amount is reflected in the deficit account as not currently recoverable from parliamentary appropriations.

Accordingly, payables at March 31, 1976 and March 31, 1975 have been increased by \$276,192 and \$269,888 respectively and the deficit increased by a corresponding amount. This change has resulted in increasing the expense in the statement of operations in 1976 by \$6,304.

**(b) Employee termination benefits**

Previously the Board had expensed actual payments in the year of termination of retirement. During 1977 the Board adopted the policy of recording in its accounts a provision for termination benefits accruing to employees. This change in accounting policy was applied retroactively and resulted in increasing the expense in the statement of operations for 1976 by \$3,769 over the amount previously reported. For years prior to 1976 the provision amounted to \$67,658 and the deficit at April 1, 1975 has been adjusted accordingly.

A corresponding liability is now shown on the balance sheet as a long term liability and is included in the deficit not currently recoverable from parliamentary appropriations.

**4. Remuneration of directors and officers**

Included in salaries for 1977 is remuneration of three members as members—\$16,488 (1976—\$19,538) and five officers as officers—\$152,250 (1976—\$145,445). One officer is also a member.

**5. Comparative figures**

The presentation of the 1976 comparative figures has been amended to conform to the 1977 format.

Ottawa, Ontario

August 10, 1977

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.  
MINISTER OF AGRICULTURE  
OTTAWA, ONTARIO

I have examined the balanced sheet of Canadian Livestock Feed Board as at March 31, 1977 and the statements of operations and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at March 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes in accounting policies as described in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

CANADIAN NATIONAL RAILWAYS—*Continued*

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## Note 1: Summary of Significant Accounting Policies

## Introduction

All references in these Notes to the "Company" include the Canadian National Railway Company and its consolidated subsidiaries, and all references to the "System" mean Canadian National Railway Company and its consolidated subsidiaries together with the lines of railway and marine, telecommunications and other property owned by the Government of Canada and entrusted to the Company for management and operation.

## Principles of Consolidation

Consistent with the legislation governing the System, the consolidated financial statements include the accounts of the Canadian Government Railways, entrusted to the Company by the Government of Canada. They also include the accounts of all subsidiaries except Air Canada, the investment in which is carried at cost. The Company does not have effective control over the operations of Air Canada which reports separately to the Minister of Transport. See also Note 2 regarding pending legislation affecting CN's investment in Air Canada.

Investments in jointly operated companies in which the Company has less than a majority interest are accounted for by the equity method where appropriate.

## Material and Supplies

The inventory has been priced at laid down cost based on weighted average cost for ties, rails and fuel, latest invoice price for new materials in stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

## Insurance Fund

The System is self-insured for various risks, maintaining a separately invested fund. The provision for insurance represents the estimated amount of self-insured losses to be adjusted.

## Property

Property is carried at cost, which, in the case of properties brought into the System at January 1, 1923, is the aggregate of the values then appearing in the books of the railways now comprised in the System, less a contribution from the Government of Canada at the time of capital revision in 1937.

Accounting for railway and telecommunications property is carried out in accordance with rules issued by the Canadian Transport Commission and the Canadian Radio-television and Telecommunications Commission respectively (Canadian property), and the Interstate Commerce Commission (United States property), except, in the case of United States property, for the application of depreciation accounting to ties, rails, other track material and ballast as referred to below under Depreciation. Major additions and replacements generally are capitalized with the exception of labour costs relating to track material replacement which are charged to expense.

The cost of depreciable assets retired or disposed of, less salvage, is charged to accumulated depreciation, in accordance with the group plan of depreciation.

## Depreciation

Depreciation is calculated at rates sufficient to write off properties over their estimated useful lives, generally on a straight-line basis in

accordance with the group method. For railway and telecommunications properties, certain rates are authorized by the Canadian Transport Commission, the Canadian Radio-television and Telecommunications Commission and the Interstate Commerce Commission. The rates for significant classes of assets are as follows:

Ties	3.25%
Rails	1.15%
Other track material	1.90%
Ballast	4.00%
Road locomotives	4.60%
Freight cars	2.97%
Commercial communication systems	3.73%

During 1976, depreciation accounting, as described above, was adopted for certain United States properties, namely, ties, rails, other track material and ballast, which previously were accounted for on a replacement accounting basis in accordance with the rules of the Interstate Commerce Commission.

This change was made in order to account for all such System assets on the same basis. The effect of this change on the System's earnings for 1976 is insignificant. The cumulative effect to December 31, 1975, amounts to approximately \$10.9 million and has been included in the adjustment for unrecorded depreciation which has been correspondingly increased. See Note 3.

## Leases

Rentals under lease arrangements are charged to expense on an accrual basis.

## Pensions

Expenses are charged with payments to the various pension trust funds as required by regulatory authorities to cover both current service cost and the amortization, including interest, of unfunded liabilities over various periods to 2027.

## Foreign Exchange

Assets and liabilities in foreign currencies have been translated into Canadian dollars at current rates except for investments, property investment and long-term debt for which historical rates have been used. Gains or losses on exchange are included in income. This policy represents a change from previous years when assets and liabilities in United States funds were translated into Canadian funds on the basis that one Canadian dollar equalled one United States dollar. The effect of this change is insignificant.

## CANADIAN NATIONAL RAILWAYS—Continued

## Note 2: Investments

The composition of investments is as follows:

	December 31	
	1976	1975
	(in thousands)	
Air Canada ( <i>wholly-owned subsidiary</i> ), at cost		
Capital Stock .....	\$ 5,000	\$ 5,000

Advances .....	249,391	282,733
	<u>349,477</u>	<u>382,819</u>
On October 28, 1976, legislation was introduced in Parliament which, if enacted, would cancel the Air Canada shares held by the Company and authorize cancellation of Company debt to the Government equal to the Company's investment in the capital stock of Air Canada. Such legislation would also authorize the Government to cancel Air Canada debt to the Company and matching Company debt to the Government.		
Jointly-operated companies, on equity method where appropriate		
Chicago & Western Indiana Railroad Company .....	9,033	8,881
The Detroit & Toledo Shore Line Railroad Company .....	5,543	5,347
Northern Alberta Railways Company .....	26,563	26,580
The Toronto Terminals Railway Company .....	9,182	9,182
Other .....	4,957	4,935
	<u>55,278</u>	<u>54,925</u>
Other Companies, at cost		
Eurocanadian Shipholdings Limited .....	11,900	11,900
Intercast, S.A. ....	100	100
	<u>12,000</u>	<u>12,000</u>
Total .....	<u>\$416,755</u>	<u>\$449,744</u>

## Note 3: Property Investment

	December 31, 1976			December 31, 1975		
	Cost	Accumulated Depreciation	Net	Cost	Accumulated Depreciation	Net
	(in thousands)					
Canadian Lines <sup>(1)</sup>	\$ 4,835,383	\$ 2,198,797	\$ 2,636,586	\$ 4,570,040	\$ 1,376,829	\$ 3,193,211
Grand Trunk Corporation	330,297	116,141	214,156	290,356	75,344	215,012
Telecommunications	443,594	153,205	290,389	425,435	125,709	299,726
Hotels	115,866	48,435	67,431	111,059	26,693	84,366
Separately-operated trucking companies	50,752	25,014	25,738	50,241	22,760	27,481
Other	85,066	7,004	78,062	71,073	3,343	67,730
	<u>\$ 5,860,958</u>	<u>\$ 2,548,596</u>	<u>\$ 3,312,362</u>	<u>\$ 5,518,204</u>	<u>\$ 1,630,678</u>	<u>\$ 3,887,526</u>

<sup>(1)</sup> Includes CN Rail, CN Express, CN Passenger and CN Marine properties.

For Canadian properties, depreciation accounting was introduced for equipment in 1940, for hotel properties in 1954, and for track and road structures and all other physical properties except land in 1956. For United States properties, depreciation accounting was introduced for ties, rails, other track material and ballast in 1976. Other United States properties have been effectively depreciated since acquisition.

In 1976 the System recorded by a charge of \$807.8 million to Shareholder's Equity and a corresponding credit to accumulated depreciation on property investment, the depreciation not previously recorded by Canadian and United States lines with respect to the years prior to adoption of depreciation accounting.

Other				
Amounts owing under equipment purchase agreements (f)		U.S.	179,446	50,541
Amounts included in current liabilities			(5,286)	(2,400)
Total Other			174,160	48,141
Total Long-Term Debt			\$ 2,238,381	\$ 2,071,124

(a) Guaranteed by the Government of Canada.

(b) Amounts up to ½% of original principal amount may be purchased quarterly through purchase funds operated under the conditions of each issue.

(c) Weighted average interest rate on Government of Canada loans outstanding at December 31, 1976 was 7.73% per annum.

(d) Government of Canada loans in the amount of \$624.5 million and Canadian National 18 year Bonds, in the amount of \$68.8 million at December 31, 1976, falling due within twelve months are included in long-term debt rather than in current liabilities at that date, since they are expected to be refinanced with the Government, as described in Note 4(g) below. The Government of Canada loans comprise \$452.2 million in the form of six-month or demand notes and \$172.3 million of other loans.

(e) Payable by semi-annual instalments of \$7.16 million covering principal and interest to August 21, 1995.

(f) Secured by rolling stock. Represents an amount of U.S. \$180.142 million payable by principal instalments as follows:

Principal outstanding Dec. 31, 1976	Semi- annual Instalment	Commencing	Period To	Annual Interest Rate
(in thousands)				
\$10,800	\$ 1,200	January 1977	January 1981	9.00%
38,000	1,900	July 1981	January 1991	9.75%
50,000	2,500	July 1981	January 1991	9.75%
13,160	{ 940 1,880	January 1977 January 1982	July 1981 July 1982	8.50%
9,259	{ 662 1,323	July 1977 July 1982	January 1982 January 1983	8.00%
33,840	1,880	January 1983	July 1991	9.00%
23,808	1,323	July 1983	January 1992	8.50%
	Quarterly Instalment			
1,275	67	January 1977	July 1981	8.35%
\$180,142				

(g) Principal amounts due in the years indicated, and expected Government refinancing, on debt outstanding at December 31, 1976 are as follows:

Year ending December 31:	Principal amount maturing	Expected Government refinancing
	(in thousands)	
1977	\$253,642	\$241,074
1978	69,626	55,800
1979	333,313	317,000
1980	98,021	81,000
1981	485,121	467,250
1982-1986	254,780	79,667

Amounts of maturing principal for each period, shown as "Expected Government refinancing" in the above table, represent the portion of principal amounts maturing of a type which has been customarily refinanced with the Government in the past. On January 1, 1977, a loan of \$100 million under the Refunding Act matured and was refinanced. The most recent refinancings with the Government were made subject to amortization of the principal amount over a period of 20 years. It is to be expected that at least some portion of future refinancings will be subject to amortization. Principal amounts maturing in excess of expected Government refinancing represent the principal amount of the 8¾% bonds, due 1986, including amortization of a portion of the principal amount thereof prior to maturity and amounts required for amortization of debt with respect to which amortization schedules have been fixed.

Excluded from principal amounts maturing in the above table is the principal amount of Government loans under various Canadian National Railways Financing and Guarantee Acts and the Canadian National Railways Refunding Act, 1955, which are in the form of six-month or demand notes and have been consistently refinanced with the Government at maturity. The outstanding principal amount of these loans was \$452.2 million at December 31, 1976.

## CANADIAN NATIONAL RAILWAYS—Continued

## Note 5: Capital Stock

- (a) The capital stock of the Canadian National Railway Company (other than the 4% preferred stock) and the capital investment of Her Majesty in the Canadian Government Railways are included in the net debt of Canada and disclosed in the historical record of government assistance to railways as shown in the Public Accounts of Canada.
- (b) As authorized by annual Government appropriation the Government of Canada has purchased 4% preferred stock during the two years ended December 31, 1976, at the price of \$1 per share, in amounts equal to approximately 3% of gross revenues for the period, as follows:

	Year ended December 31	
	1976	1975
	(in thousands of shares)	
Balance—beginning of year .....	1,436,246	1,374,190
Purchased during year .....	68,232	62,056
Balance—end of year .....	1,504,478	1,436,246

## Note 6: Major Commitments

- (a) The Company has commitments as at December 31, 1976, for rentals under leases, of which the significant portion is in respect of railway rolling stock as shown below:

	Years ending December 31
	(in thousands)
1977 .....	\$ 64,670
1978 .....	63,740
1979 .....	64,875
1980 .....	65,984
1981 .....	65,360
1982-1986 .....	310,760
1987-1991 .....	165,730
1992-1996 .....	4,843
1997 .....	383

- (b) Payments under rolling stock lease arrangements in 1976 totalled approximately \$54 million.
- (c) In 1976 the Company entered into a sale, at book value, and lease-back over 15 years of railway rolling stock having a book value of \$5.001 million.
- (d) Canaven Limited, a wholly-owned subsidiary of the Company, was incorporated in 1976 to bid for the construction, equipping and commissioning of a new railway line in Venezuela. Although Canaven submitted the low bid of \$959 million, its bid was non-compliant in some respects with the detailed instructions given bidders. No decision regarding the bids has yet been communicated to Canaven by the Government of Venezuela.

## Note 7: Subsidies

Revenues include the following subsidies:

	1976	1975
	(in thousands)	
(a) Payments under the Railway Act paid by the Government of Canada under authority of that Act and Appropriation Act No. 4, 1975 in respect of certain uneconomic operations, services and prescribed rates which railways are required by the Railway Act to maintain .....	\$255,218	\$159,706
(b) Vessel subsidies .....	85,863	95,099
(c) Maritime Freight Rates Act and Atlantic Region Freight Assistance Act subsidies .....	15,332	14,654

## Note 8: Pensions

The unfunded liabilities of the Company's various pension plans and the cost for such plans were as follows:

	At December 31	
	1976	1975
	(in thousands)	
Unfunded liability to be funded by annual payments to:		
1992 .....	\$ 718,306	\$ 452,641
1996 .....	43,414	44,347
2014 .....	14,342	14,490
2027 .....	297,000	297,542
Total .....	\$1,073,062	\$ 809,020
	Year ended December 31	
	1976	1975
	(in thousands)	
Cost for pension plans .....	\$143,207	\$110,891

Effective January 1, 1976, the unfunded liability was increased by \$289 million, as a result of increases in pensions of existing pensioners and an actuarial valuation as at December 31, 1975, the previous actuarial valuation having been made as at December 31, 1972. This increase is being funded by annual payments of \$29,791,000, principal and interest, to 1992. The total unfunded liability is being funded and charged to operations in annual amounts including principal and interest of \$103,477,800 to 1992, \$27,046,300 from 1993 to 1996, \$22,936,300 from 1997 to 2014 and \$22,040,000 from 2015 to 2027.

## Note 9: Income Taxes

Provision for income taxes of \$6 million has been reduced by \$5.6 million by claiming capital cost allowances for income tax purposes higher than depreciation charged for book purposes. Undepreciated capital cost for income tax purposes exceeds the net book value of depreciable assets by about \$1,500 million which is available to reduce taxable income of future years.

## Note 10: Anti-Inflation Act

The Anti-Inflation Act, effective October 14, 1975, provides for the restraint of profit margins, prices, dividends and compensation. The System is subject to this legislation and has no unrecorded or contingent liability in that respect.

## CANADIAN NATIONAL RAILWAYS—Continued

## Note 11: Restatement of Comparative Figures

During 1976, changes were made to improve the classification of certain items and for comparative purposes the related figures for 1975 have been restated.

## Note 12: Subsequent Events

- (a) During March 1977, CN issued and sold 8½% Bonds payable in Canadian funds due March 1, 1987, in the amount of \$60 million.
- (b) On January 12, 1977, VIA Rail Canada Inc. was incorporated. It is intended to be a wholly-owned subsidiary of CN and the vehicle for providing unified management and control for rail passenger services in Canada.

## CONSOLIDATED STATEMENT OF INCOME AND SURPLUS

	Year ended December 31	
	1976	1975
	(in thousands)	
Revenues .....	\$ 2,454,501	\$ 2,081,100
Expenses .....	2,322,459	2,138,401

**CANADIAN NATIONAL RAILWAYS—Concluded**

TO THE HONOURABLE THE MINISTER OF TRANSPORT,  
OTTAWA, CANADA.

We have examined the consolidated balance sheet of the Canadian National Railway System as at December 31, 1976 and the consolidated statements of income and surplus and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the System as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles which, except for the change to depreciation accounting in respect of certain assets and the change in accounting for foreign exchange referred to in Note 1, have been applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the System.

Our audit report on the consolidated financial statements for the year ended December 31, 1975 referred to the fact that depreciation had not been recorded in earlier years. This deficiency was made good in 1976 as referred to in Note 3.

COOPERS & LYBRAND,  
*Chartered Accountants.*

Montreal, Canada,  
February 25, 1977.

## **NOTES TO FINANCIAL STATEMENT** **DECEMBER 31, 1976**

AUDITOR GENERAL OF CANADA  
 Ottawa, Ontario  
 April 28, 1977

### **1. History and current status of the Company**

The active operations of the Company ceased during 1957 on the sale of its fleet of eight vessels to Cuban interests. The final instalment was due to be paid August 19, 1963 by an irrevocable letter of credit issued through the Bank of America. However on July 3, 1963, the United States Cuban Assets Control Regulations became effective which prohibited the Bank of America from honouring payment of the draft. Since that time, legal negotiations to obtain a preferred status, in order to collect the receivable, have not been successful and current legal opinion is that the monies will only be collected when the regulations are repealed. A waiver of the application of the statute of limitations has been obtained until January 1, 1979, and further extensions will be obtained as required. At the present time, legal counsel is examining the possibility of winding-up the affairs of the Company.

### **2. The matured bonds have been outstanding since March 1, 1955 and as a result there is no legal obligation to redeem these bonds. Notwithstanding this the Company intends to honour any of the outstanding bonds should they be presented.**

### **3. The Company has four directors of whom three are also officers. All are public servants and receive no remuneration from the Company.**

THE HONOURABLE OTTO LANG, P.C., M.P.,  
 MINISTER OF TRANSPORT,  
 OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian National (West Indies) Steamships, Limited as at December 31, 1976. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion this financial statement presents fairly the financial position of the Company as at December 31, 1976, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statement is in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

## CANADIAN PATENTS AND DEVELOPMENT LIMITED—Continued

## NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1977

## 1. Accounting policies

- (a) Industrial and intellectual property rights  
Expenditures relating to the acquisition, protection, licensing and maintenance of industrial and intellectual property rights are charged to expense as incurred.

- (b) Development expenditures  
Expenditures for development assistance and equipment under development contracts are charged to expense as incurred and any recoveries are recorded as income in the year received.

- (c) Furniture, equipment and depreciation  
Expenditures for furniture and equipment are charged to expense as incurred; accordingly, no depreciation charge is recorded.

(d) Royalties

During the year the Company adopted the policy of estimating the amount of royalties receivable as at March 31, 1977 based on the operations of their licensees to that date. Previously such income was recorded only when reported by the licensee concerned. The portion of the royalties that is applicable to third parties is credited to them in accordance with the agreement under which the rights were acquired. This change in policy was applied retroactively with the result that the income for the year ended March 31, 1976 has been increased by \$20,785 over the amount previously reported and \$40,190 has been credited to operating results of years prior to 1975-76. The effect of this change for the 1976-77 year is a reduction of income amounting to \$7,825.

(e) Vacation and termination benefits

During the year the Company adopted the policy of recording in its accounts a provision for vacation and termination benefits accruing to its employees. Previously the Company had expensed actual payments when such were made. This change in accounting policy was applied retroactively with the result that the excess of expense over income for the year ended March 31, 1976 has been increased by \$14,500 over the amount previously reported and \$45,500 has been charged to operating results of years prior to 1975-76.

(f) Investments in bonds

The policy of the Company is to carry investments in bonds at cost since it is Management's intention to hold the bonds to their dates of maturity as follows:

<u>Par Value</u>	<u>Rate of Interest</u>	<u>Maturity Date</u>
\$ 25,000	7¾%	October 1, 1978
100,000	5½%	August 1, 1980
50,000	4 %	February 1, 1981
250,000	6¾%	February 15, 1989

Under certain market conditions sale of these investments prior to maturity would result in a loss.

2. Unexpired patent rights

To date, from 1948, approximately \$1,621,500 has been expended on unexpired patent rights for inventions.

3. Equipment purchased under development contracts

The cost of equipment purchased under active development contracts and held by a licensee amounts to \$123,500.

4. Employee benefits not charged to the Company

The National Research Council performs certain personnel functions for the Company including the payment of salaries. The Company reimburses the Council for the amount of gross salaries paid on its behalf but not with respect to the employer's share of the cost of the related employee benefits. The cost of the latter is estimated to be equivalent to 10% of gross salaries.

5. Royalties in dispute

Not reflected in the financial statements are royalties of \$166,150 in respect of prior years which were due under an agreement with a foreign licensee and had been in dispute because of differences between that licensee and certain others using the invention. The Company has concluded an agreement with a new licensee who has undertaken to pay a like amount on the basis of future sales with any remaining unpaid balance to be due on March 31, 1978.

6. Contingent liability

A contingent liability of approximately \$36,000 exists with respect to taxes not deducted at the source from royalties remitted in prior years by a foreign licensee. However, the Company does not acknowledge any liability on its part for such taxes.

7. Executive remuneration

Salaries for 1976-77 include remuneration of directors as directors, \$1,875 (1975-76—\$1,500), and remuneration of officers as officers \$83,588 (1975-76—\$70,467). The Corporation has twelve directors and five officers. Two officers are also directors.

**CANADIAN PATENTS AND DEVELOPMENT LIMITED—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
June 14, 1977

THE HONOURABLE J. HUGH FAULKNER, P.C., M.P.,  
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Patents and Development Limited as at March 31, 1977 and the statements of surplus, income and expense, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements give a true and fair view of the financial position of the Company as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes described in Notes 1(d) and 1(e) to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of accounts have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in March 1970, to improve the earnings of the primary producer of cured saltfish. The Corporation is an agency Crown Corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$15 million.

The Corporation has the exclusive right to trade in and market cured fish and its by-products in the Province of Newfoundland and the North Shore of Quebec and is required to buy all cured fish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through agents of the Corporation and is subsequently marketed by the Corporation.

## 2. Significant accounting policies

## Fixed assets

Fixed assets are stated at cost. Depreciation is provided in the accounts on the straight line method using rates of 5%, 10% and 20% for building, equipment and furniture and fixtures, respectively. Leasehold improvements are amortized over the remaining term of the lease.

## Payments to fishermen and producers

The Corporation purchases fish at initial prices established by the Board of Directors and obtains processing services at negotiated rates. Final payments, if any, to fishermen and producers are determined by the Board after the end of the year, based on the results of operations for the year. The final payments are made in respect of products purchased during the year and are therefore charged to expense in the current year's Statement of Operations.

## CANADIAN SALTFISH CORPORATION—Continued

## Foreign currency translation

Accounts receivable and payable in foreign currency are translated to Canadian dollars at the year-end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transaction.

## Deficiency payments

Deficiency payments from the Fisheries Prices Support Board of the Government of Canada are made to support the price paid by the Corporation for small codfish. Such payments are considered as recoveries of amounts paid to fishermen and are deducted from the Cost of Sales in the Statement of Operations in the year in which the processed fish is sold by the Corporation.

## 3. Changes in accounting policy

## (a) Final payments to fishermen and producers

During the year, the Corporation adopted the policy of charging final payments to fishermen and producers to operations in the year to which they relate. Previously, final payments were considered a distribution of profit in the following year and were charged directly to retained earnings. The change in policy has been applied retroactively and previous years' financial statements have been restated. As a result, the loss for the year ended March 31, 1976, increased by \$93,729 and retained earnings at that date decreased by a corresponding amount. For the year ended March 31, 1975, net income decreased by \$314,642 and retained earnings at that date decreased by a corresponding amount. The change in policy had no effect on current year's operations.

## (b) Employees' vacation pay and termination benefits

During the year, the Corporation adopted the policy of recording the liability for vacation pay and termination benefits accruing to its employees. Previously, amounts paid in respect of employees' vacations and termination benefits were expensed in the year of payment. The change in policy had the effect of increasing the loss for the year by \$21,691. The balance of retained earnings at March 31, 1976, has been restated to show a retroactive charge of \$91,681, representing the employees' vacation pay and termination benefit liability at that date. Of the \$91,681, \$29,346 is applicable to the year ended March 31, 1976, and has been charged to operations for that year. The remaining \$62,335 is applicable to years prior to April 1, 1975, and has been charged to retained earnings at that date. As a result of the retroactive application of these changes in accounting policy, the Board of Directors approved a retroactive reduction of the Reserve for General Contingencies at March 31, 1976, from the previously stated \$375,000 to a revised amount of \$288,446.

## 4. Fixed assets

The Corporation received \$42,340 from the Government of Canada towards the purchase cost of ice-making machinery under the cost-sharing programs available for the producers of fish products. The amount has been applied to reduce the carrying value of production equipment.

## 5. Fixed asset—Building

In March 1976, the Corporation entered into an agreement to purchase a building and equipment as at March 31, 1976, for \$300,000. The final legal documentation of the purchase was completed subsequent to March 31, 1977. The Corporation has treated this transaction as a purchase and has recorded in its accounts the asset and the related liability and ownership expenditures for the year ended March 31, 1977.

## 6. Loans from Canada

Loans from Canada which are used to finance current assets are interest bearing, and repayable within one year. Loans obtained to finance capital expenditures also bear interest and are subject to repayment in ten equal installments. Annual payments of \$162,500 are required in each of the next five years. Amounts due within one year are included in current liabilities. Interest rates range from 7 3/8% to 9%.

## 7. Deficiency payments

Deficiency payments from the Fisheries Prices Support Board of the Federal Government, in support of the price paid by the Corporation for small codfish, have been applied to reduce the cost of sales in the following amounts:

- \$152,880, received with respect to inventory on hand as at March 31, 1976, and sold during the year ended March 31, 1977; and
- \$557,700, approved by Order in Council on October 20, 1977 relating to goods produced and sold during the year ended March 31, 1977.

A further amount of \$300,600 approved by Order in Council on October 20, 1977 relating to inventories on hand as at March 31, 1977, is receivable at the time of sale and will be applied to reduce the cost of sales during the year ending March 31, 1978.

## 8. Comparative figures for 1975/76

Certain figures for 1976, presented for comparative purposes, have been restated to conform to the 1977 presentation.

## 9. Remuneration to Directors and Officers

Expenses included remuneration of Directors as Directors, \$11,145 and remuneration of Officers as Officers, \$145,300. The Corporation has seven Directors and six Officers; two Officers are also Directors.

## 10. Anti-Inflation Legislation

The Corporation is subject to, and has complied with, controls on compensation under the Anti-Inflation Program of the Government of Canada.

## 11. Remuneration to foreign agents

During the year, the Corporation paid \$16,966 to Representacoes Teixeira Ltda., Recife, its sales agent in Brazil, and \$4,007 to Mr. F. Silva, its sales agent in Portugal.

CANADIAN SALTFISH CORPORATION—*Concluded*

Ottawa, Ontario

August 4, 1977, except for Note 7  
as to which the date is October 20, 1977THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.  
MINISTER OF FISHERIES AND THE ENVIRONMENT  
OTTAWA, ONTARIO

I have examined the balance sheet of Canadian Saltfish Corporation as at March 31, 1977 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes described in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The Corporation has engaged during the current year, and in prior years, in questionable trade practices that have included inflation of sales invoices and payment of rebates in accordance with customers' instructions. Our audit examination revealed that the Corporation artificially increased sales invoices relating to approximately \$8.0 million of the Corporation's net sales of \$15.4 million for the year ended March 31, 1977, and related rebates amounted to approximately \$400,000. In March 1977, management and the Board of Directors were informed that, in my opinion, these practices were inconsistent with the Government's policy and guidelines regarding the commercial practices of Crown Corporations announced in the House of Commons on December 16, 1976. Management has informed those customers affected that such practices are discontinued. The Board has adopted, and management has introduced, policies and practices that are intended to comply with the Government's policy and guidelines. I shall continue to monitor this matter.

J. J. MACDONELL  
*Auditor General of Canada*

## TO THE CANADIAN WHEAT BOARD:

We have examined the financial statements and explanatory comments thereon of The Canadian Wheat Board, which comprise Part VI of The Annual Report of The Board for the crop year ended July 31, 1976. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements together with the explanatory comments thereon present fairly the financial position of The Board as at July 31, 1976 and the results of its operations for the periods shown, in accordance with generally accepted accounting principles consistently applied.

## CAPE BRETON DEVELOPMENT CORPORATION—Continued

## COAL DIVISION

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Significant Accounting Policies

## (a) Financing

During the year the Coal Division was financed by way of votes of The Parliament of Canada. Vote 31 is for operating purposes and Vote 25 for capital expenditures.

Repayable advances from Canada are as follows:

Current	1977	1976
Working capital advance .....	\$10,000,000	\$17,000,000
Long Term		
Note Payable (including accrued interest) .....	\$14,642,674	\$ 7,177,100
Less current portion .....	1,464,267	
	<u>\$13,178,407</u>	<u>\$ 7,177,100</u>

In 1975 the Corporation negotiated a term loan of \$13,600,000 from the Government of Canada to finance the development of the Prince Mine. During the current year, the Corporation drew down the remaining \$6,600,000 of this financing. This loan bears interest at the Government of Canada lending rates to Crown corporations and others established quarterly by the Department of Finance and for the period involved the rate varied between 8% and 9%. The loan, plus interest accrued to March 31, 1977, is repayable in ten equal annual installments commencing March 31, 1978. Interest accruing after March 31, 1977 will be payable annually.

## (b) Depreciation

The Corporation has provided depreciation on its fixed assets. The Treasury Board of Canada has indicated that depreciation should not be provided in determining mining losses for Parliamentary appropriation. Accordingly, the depreciation provision has been eliminated in arriving at this amount. The provision for the year ended March 31, 1976 included an amount of \$1,108,091, representing the write down of fixed assets lost in the fire in No. 26 Colliery.

During the year the Corporation wrote off against accumulated depreciation an amount of \$3,182,689 representing original costs of machinery and other plant in respect of the Princess Mine. These assets had been fully depreciated.

## (c) Deferred Development Costs

These costs totalling \$1,912,458 consist of development costs incurred in No. 26 Colliery during the period when production was interrupted because of fire. They were amortized over a fourteen month period which ended March 31, 1977. The unamortized balance as at March 31, 1976 was \$1,632,000.

## 2. Accounts Receivable

	1977	1976
Government of Canada supplementary voted for mining losses and capital expenditures .....	\$ 4,340,000	\$ 9,017,000
Trade .....	6,553,643	5,537,661
Employees (current) .....	48,255	32,308
	<u>\$10,941,898</u>	<u>\$14,586,969</u>

## 3. Commitments

(a) Commitments on capital projects as at March 31, 1977 amount to approximately \$2,500,000.

(b) The Corporation has sold 224,000 tons of coal which has been banked pending delivery. Management is satisfied that sufficient coal has been set aside to cover these deliveries.

## 4. Contingent Liabilities and Claims

There are pending against the Corporation a number of possible claims. The two largest claims are (a) a claim of approximately \$2,600,000 under the provisions for a charter for shipping coal in respect of reduction in cargoes shipped in the years 1969 to 1972 inclusive. On November 13, 1975, an action against the Corporation by Upper Lakes Shipping Limited was commenced in the Supreme Court of Nova Scotia which the Corporation is defending in grounds of both liability and quantum of damage; and (b) a claim of approximately \$1,000,000 jointly against the Corporation and two other parties for damages and other costs related to an explosion aboard a vessel carrying a shipment of coal supplied by the Cape Breton Development Corporation. As at March 31, 1977 no trial date had been set to hear this action. The Corporation admits no liability in respect to this claim.

The total of provisions as at March 31, 1977, for all outstanding claims made in current and prior years amounts to \$1,700,000 which management estimates to be fully adequate.

## 5. Pensions

An actuarial valuation of the Cape Breton Development Corporation Non-Contributory Pension Plan as at December 31, 1976 indicated an unfunded actuarial liability of \$41,565,167 and in addition an experience deficiency of \$14,255,633. No provision for these liabilities has been included in the accounts as of March 31, 1977. The former amount is required to be liquidated by 1992 and the latter amount by 1981. The minimum annual amount required, including pension payments, will be \$7,946,000 from 1977 to 1981 and thereafter would decrease to \$4,500,000 annually. Current pension payments approximate \$4,000,000 and the balance will be funded by the Corporation prior to December 31 in each year.

In addition, for the contributory pension plan instituted April 1, 1974, the recommended funding payment for the year has been deposited with the trustee.

## 6. Remuneration of Directors and Senior Officers

The Corporation had seven directors, whose aggregate remuneration for the year was \$20,967 (1976—\$22,933). The Corporation had seven officers whose aggregate remuneration for the year as officers was \$299,425 (1976—\$273,533). The president is the only officer who is also a director.

7. The Corporation is subject to the Parliament of Canada's Anti-Inflation Legislation, which became effective October 14, 1975. This legislation limits increases in prices, profits, compensation payments and dividends. Management is of the opinion that the Corporation is complying with the requirements of the legislation.

Director

## CAPE BRETON DEVELOPMENT CORPORATION—Continued

## INDUSTRIAL DEVELOPMENT DIVISION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. Significant Accounting Policies

## (a) Financing

The Industrial Development Division is financed by way of Vote of the Parliament of Canada. Parliament voted \$4,785,000 for this purpose during the fiscal year ended March 31, 1977.

## (b) Basis of Consolidation

The financial statements of the Industrial Development Division include the results of the Division and all its subsidiaries except Mountain View Milling Limited as explained below. The subsidiaries consolidated are as follows:

	Corporation Interest	Company Year End
Darr (Cape Breton) Limited (Real Estate).....	100%	December 31
Cape Breton Marine Farming Limited (Formerly Cape Breton Primary Production Limited).....	100%	March 31
Cape Breton Lamb Limited (Livestock Breeding).....	96.2%	March 31
Whale Cove Summer Village Limited (Tourist Accommodations).....	62.5%	March 31
Cabotcraft Industries Limited (Boat Fabrication).....	60%	October 31

Two of the subsidiaries have fiscal periods ending prior to March 31. These companies have been included in the consolidated statements for their respective fiscal years ending October 31, 1976, and December 31, 1976.

In addition to its ownership of 62.5% of the common shares of Whale Cove Summer Village Limited, the Corporation owns all of the 2,400 non-voting redeemable preference shares (\$100 par each).

As the financial statements of Cabotcraft Industries Limited and Cape Breton Lamb Limited showed deficit equity positions as at October 31, 1976 and March 31, 1977 respectively, and the minority interests in losses to date had been absorbed against the total of the minority invested capital, the losses of these companies for the respective years are included in the consolidated net loss. As a consequence, no minority interest is shown in the balance sheet for these subsidiaries.

The corporation holds a 53.3% interest in Mountain View Milling Limited. Advances and equity investment in this subsidiary totalling \$34,000 are included under loans and investments in the Balance Sheet. This company has not yet begun operations or established a fiscal year end and in the circumstances could not be consolidated.

## (c) Fixed Assets

Fixed assets are recorded at cost. The cost and related depreciation of items retired or disposed of are removed from the books and any gains or losses are included in the consolidated operating statement. Depreciation is provided on the straight line method using rates based on the estimated useful lives of the assets generally as follows:

Buildings	Up to 20 years
Equipment	4 to 10 years
Vehicles	3 to 4 years
Livestock	5 to 7 years

## 2. Cabotcraft Industries Limited and Cape Breton Lamb Limited

In their report on the financial statements of the above companies, the auditors included a qualification stating that the financial statements were prepared on the assumption that the companies can continue to operate as going concerns, which assumption depends on the continued financial support of Cape Breton Development Corporation.

## 3. Commitments

As at March 31, 1977, the Industrial Development Division of the Corporation was committed to expenditures and loans totalling approximately \$2,100,000 over and above the amounts included in the financial statements at that date.

## 4. Guarantees

(a) During the 1976 fiscal year the Corporation guaranteed the repayment by Sydney Steel Corporation of that company's \$70,000,000—11½% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to \$68,950,000.

The Corporation made the guarantee for and on behalf of Her Majesty the Queen in right of Canada and has obtained opinions from its solicitors and from the solicitors for the lenders that any amounts required to be paid by terms of the Guarantees are payable pursuant to Appropriation Act No. 4, 1974 and Section 22 of the Financial Administration Act which provides that such amounts required to be paid shall be paid out of the Consolidated Revenue Fund of Canada and not out of the funds of Cape Breton Development Corporation.

(b) The Corporation in 1971 guaranteed the repayment of bank advances to Stora Kopparbergs Bergslags Aktiebolag. This guarantee originally amounted to \$30,000,000. The balance of advances has since been reduced to \$22,500,000.

## 5. Remuneration of Directors and Senior Officers

The Corporation had seven directors, whose aggregate remuneration for the year as directors was \$20,967 (1976—\$22,933). The Corporation had seven officers whose aggregate remuneration for the year as officers was \$299,425 (1976—\$273,533). The president is the only officer who is also a director.

## 6. The Corporation and its subsidiaries are subject to the Parliament of Canada's Anti-Inflation Legislation, which became effective October 14, 1975. This legislation limits increases in prices, profits, compensation payments and dividends. Management is of the opinion that the Corporation is complying with the requirements of the legislation.

CONSOLIDATED STATEMENT OF EQUITY

**CAPE BRETON DEVELOPMENT CORPORATION—Concluded****AUDITORS' REPORT**

TO THE HONORABLE  
THE MINISTER OF REGIONAL ECONOMIC EXPANSION  
OTTAWA, ONTARIO

We have examined the balance sheet and statement of equity of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1977, and the related operating statements and the statements of changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

The financial statements of the Industrial Development Division and of its subsidiaries have been presented on a consolidated basis. With respect to those subsidiaries of which we are not the auditors, we have carried out such inquiries and examinations as we considered necessary in order to accept for purposes of consolidation the reports of other auditors. As required by the provisions of the Cape Breton Development Corporation Act, the financial statements of the Coal Division and the Industrial Development Division are being presented separately.

In our opinion, these financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1977, and the results of their operations and the changes in financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the Corporation.

## CENTRAL MORTGAGE AND HOUSING CORPORATION—Continued

NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 1976

## 1. Significant Accounting Policies

Central Mortgage and Housing Corporation was constituted as a Crown Corporation by an act of Parliament on January 1, 1946. Its activities are regulated by the National Housing Act, and the Central Mortgage and Housing Corporation Act.

The Corporation's principal objective is that all Canadians have access to adequate housing at a price they can afford within a suitable community environment. In meeting this objective the Corporation's activities and programs fall into two general categories:

- (a) Financing housing directly through the making of mortgage loans under specified conditions at interest rates set by statute normally below market rates (which are generally higher than the rates it pays on funds borrowed from the Government of Canada), and indirectly by guaranteeing loans made by others.
- (b) As agent for the Minister of State for Urban Affairs, making payments needed to implement government housing policy. These include grants, debt forgiveness, losses on real estate, losses under Federal-Provincial agreements, research and development and specified administrative expenses. These payments are charged to the Minister as incurred.

The principal accounting policies followed are:

## (a) Revenue Recognition

Interest income is accounted for on the accrual basis. Recoveries from the Minister are recorded when expenditures are made on his behalf.

## (b) Loans

Loans are capitalized as the cash is advanced. Costs incurred in connection with making loans are included in administrative expenses. No provisions are made for possible losses on loans since losses on insured loans are recoverable from the Mortgage Insurance Fund, while property acquired upon default on uninsured loans is transferred to Real Estate for subsequent disposal.

## (c) Real Estate

Real Estate is recorded at cost. Property acquired upon default of loans is recorded at the unpaid loan balance plus interest accrued to the date of default, together with any acquisition expenditures incurred and modernization and improvement costs. Both the net operating costs prior to disposal and net losses resulting from the disposal of properties acquired upon default of loans are recoverable from the Minister.

Profits on the sale of Corporation funded real estate or real estate acquired without cost, to the extent that financing is provided for the transaction, are deferred and income recognized as repayments are received.

## (d) Depreciation

Depreciation on Real Estate is recorded on a straight line basis. Rates are set in terms of the loan repayment originally negotiated, usually 40 or 50 years.

Depreciation on business premises, office furniture and equipment is recorded on a diminishing balance basis at the following fixed annual rates:

Masonry buildings	5%
Frame buildings	10%
Furniture, fixtures and equipment	20%
Automotive equipment	30%

## (e) Federal-Provincial Agreements

The investments recorded under Federal-Provincial Agreements include only costs to the Corporation and do not reflect amounts contributed by other parties. The Corporation's share of losses under these agreements is charged to the Minister.

## (f) Income Taxes and Reserve Balance

The Corporation is required to pay taxes on its income. These taxes are recorded on a taxes payable basis which is not significantly different from the result on the tax allocation basis. Income or loss after taxes is transferred to the Reserve Fund which is limited by statute to \$5 million. Any excess over this amount is paid to the Receiver General.

## (g) Insurance and Guarantee Funds

Real estate acquired on claims against the Mortgage Insurance Fund is carried in the accounts at the amount of the claim or the estimated realizable value whichever is lower. Real Estate acquired by the Rental Guarantee Fund is carried at cost. No depreciation is recorded on Real Estate owned by either fund.

## 2. Real Estate

The estimated amount of possible losses from the future disposal of real estate acquired as a result of default on loans is \$9 million.

This amount represents the difference between the book value of all properties held and their market value at December 31, 1976 as estimated by the Corporation.

## 3. Borrowings from the Government of Canada

The Corporation borrows from the Government of Canada to finance investments in loans, Federal-Provincial Agreements, real estate and agreements for sale and mortgages arising from sale of real estate. These loans bear interest of varying rates and are repayable over periods not in excess of 50 years.

Total borrowings approved by Parliament as at December 31, 1976 amounted to \$9,114 million (1975—\$8,184 million).

## 4. Employees' Termination Benefits

Employees with more than 10 years service with the Corporation are entitled, upon retirement or separation, to certain termination benefits. The Corporation changed its policy of accounting for these benefits, effective January 1, 1976, so that such benefits are recorded on an accrual basis rather than a cash basis. The cumulative amount of such benefits applicable to the years prior to 1976 is \$6.7 million and has been charged to the Reserve Fund. This change had the effect of increasing net income for the year by \$156,000.

## 5. Loan and Investment Commitments Outstanding

At year end the Corporation had outstanding commitments to make loans and investments under Federal-Provincial Agreements approximating \$2,107 million.

## 6. Anti-Inflation Legislation

The Corporation is subject to and has complied with the provisions of the Anti-Inflation Act as it applies to the restraint on compensation.

## 7. Comparative Figures

Certain of the 1975 comparative figures have been reclassified to conform with the presentation adopted in 1976.

## 8. Other Information

CENTRAL MORTGAGE AND HOUSING CORPORATION—*Concluded*

## AUDITORS' REPORT

TO THE HONOURABLE THE MINISTER  
OF STATE FOR URBAN AFFAIRS

We have examined the balance sheet of Central Mortgage and Housing Corporation as at December 31, 1976 and the statements of operations, reserve fund, financial activities and insurance and guarantee funds for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, the accompanying statements are in agreement with the books of account of the Corporation and present a true and fair view of the state of affairs of the Corporation as at December 31, 1976 and the results of its operations for the year then ended in accordance with generally accepted accounting principles which, except for the change in accounting for employees' termination benefits as referred to in Note 4 to the financial statements, have been applied on a basis consistent with that of the preceding year.

In our opinion, proper books of account have been kept and the transactions of the Corporation that have come under our notice have been within the powers of the Corporation.

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 1977

## 1. Purpose and authority of the Corporation

The Surplus Crown Assets Act, administered by the Minister of Supply and Services, established the Crown Assets Disposal Corporation to act as an agent of the Crown in the sale of surplus assets. The Act requires that each department (and other bodies) report to the Minister any property in its custody or under its control or administration that is determined as surplus to its requirements. The Corporation has the authority to sell or otherwise deal with such surplus property and to transfer net proceeds received from sales to the Consolidated Revenue Fund. Lands and buildings and certain commodities are exempted from sale by the Corporation, and certain agencies are excluded from the provisions of the Act.

Order in Council 1970-534, 24 March, 1970 requires that all of the Corporation's surplus in excess of \$300,000 be paid to the Government of Canada at intervals of not longer than six months.

The primary objective of the Corporation is to obtain on behalf of the Crown the highest return from the sale of surplus assets.

## 2. Accountability

Accounting for the Corporation's activities is segregated between a General Account which is used for recording the financial position and the results of internal operations pertaining to the administration of the Corporation and an Agency Account which reflects the assets, liabilities, revenues and expenses generated or incurred on behalf of the Crown.

## 3. Significant accounting policies

## Revenue recognition

In 1977 the Corporation changed its method for recognizing revenues from a cash and accrual basis to an accrual only basis. The effect of this change on the Agency Account during fiscal year 1976-77 was to increase sales by approximately \$180,000 and the effect on the General Account was to increase commission income by approximately \$29,000. The change in accounting policy has not been applied retroactively.

## Fixed assets

As in previous years, the Corporation has continued the practice of charging all items of a capital nature entirely to expense in the period of acquisition. The Corporation estimates that capital assets costing approximately \$86,000 purchased for its own use have been expensed since April 1, 1967 including \$7,500 during fiscal year 1976-77. A capital budget for fiscal year 1977-78 has been prepared and it is the intention of management to record fixed assets and depreciation expense during the new fiscal year.

## Provision for employee termination benefits

The Corporation expenses employee termination benefits in the year in which they are earned by the employee.

## Deferred charges

Deferred charges represent the costs of maintaining and safeguarding certain surplus assets that have yet to be sold.

**CROWN ASSETS DISPOSAL CORPORATION—Concluded****4. Statutory financial limitations**Ottawa, Ontario  
June 30, 1977

The Surplus Crown Assets Act, section 11(2) requires that:

All moneys deposited in the Corporation's bank accounts except

- (a) moneys paid or advanced to the Corporation by Her Majesty on account of working capital, and
- (b) such percentage of the net proceeds of sales and of all other moneys received by the Corporation during any period as the Governor in Council may from time to time fix to be retained to meet administrative costs or other expenses of the Corporation,

shall be transferred or deposited to the credit of the Receiver General on requisition by the Minister of Finance but, if no such requisition is made, on a day not later than the 15th day of the month following receipt thereof by the Corporation.

The moneys relating to the Agency Account have not always been remitted on time due partly to the time required to prepare the statement of operations for the Agency Account from which the moneys to be remitted are calculated.

**5. Due to Government of Canada—Agency Account**

The details of the amount owed by the Agency Account are shown on the statement of operations. The debt of \$9,818,874 does not become payable until moneys are received from customers. Accordingly, the long term portion of \$6,398,215, is tied to the long term portion of receivables.

**6. Income tax**

The Corporation is not subject to the provisions of any income tax act and consequently, has no taxable income.

**7. Comparative figures**

The comparative figures for the Agency Account accounts receivable and accrued interest receivable have been restated to conform to the current year's presentation.

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.,  
MINISTER OF SUPPLY AND SERVICES,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Crown Assets Disposal Corporation as at March 31, 1977 and the statements of income and expense, retained earnings and changes in financial position for the General Account and the statement of operations in the Agency Account for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied, except for the change in the basis of revenue recognition referred to in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and, except for the failure to remit funds to the Government of Canada within the time periods prescribed by the Surplus Crown Assets Act as referred to in Note 4 to the financial statements, the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

The accompanying notes are an integral part of the financial statements.

## **NOTES TO FINANCIAL STATEMENTS MARCH 31, 1977**

Defence Construction (1951) Limited was incorporated in 1951 under the Canada Corporations Act, pursuant to the authority of the Defence Production Act, to contract for major military construction and maintenance projects required by the Department of National Defence. The control and supervision of the Company was transferred from the Minister of Industry to the Minister of National Defence in April 1965.

The Company's principal functions in the field of construction management are to obtain tenders, make recommendations regarding proposed awards and to award and administer contracts. As an integral part of its responsibility for contract administration, the Company inspects the work to ensure completion in accordance with the contract and certifies contractors' progress claims for payment from funds of the Department of National Defence. It also engages architectural and engineering firms to prepare plans and specifications in accordance with the requirements of the Department of National Defence and may provide technical and administrative assistance on construction matters to other government departments when requested.

### **1. Significant Accounting Policies**

#### **Net Expense**

The accounts of the Company reflect only the expenses incurred in procuring the construction and maintenance of defence projects on behalf of the Department of National Defence and in procuring the construction of such other projects as are approved by the Treasury Board. The accounts do not reflect payments pursuant to contracts entered into by the Company on behalf of government departments and agencies and charged directly to parliamentary appropriations.

DEFENCE CONSTRUCTION (1951) LIMITED—*Concluded*

## Capital Expenditures

Capital expenditures are charged to expense in the year of acquisition. As at March 31, 1977, the aggregate original cost of furniture, machines and other equipment on hand amounts to \$268,588 (\$258,858—1976).

## Provision for Employee Benefits

The Company expenses employee benefits in the year in which they are earned by the employee. Cash payments are applied to reduce the recorded liability.

## Life Insurance—Retired Personnel

The Company provides life insurance at no cost to retired personnel. The life insurance—retired personnel represents the liability for premiums on a paid-up basis for policies in force at March 31.

## Deficit

The deficit is funded from a Department of National Defence appropriation only to the extent of annual working capital requirements.

## Income Tax

There are no corporation income tax liabilities.

## 2. Change in Accounting Policy

In prior years, the Company has recorded in its statements security deposits which were deposited with the Receiver General for Canada. This year only deposits being held by the Company have been recorded. The financial statements for 1976 have been restated to give retroactive effect to this change in accounting policy. The security deposits deposited with the Receiver General for Canada and not reported are \$968,469 (\$504,619—1976).

## 3. Contractors' Security Deposits

Contractors' security deposits are represented by bid deposits—\$189,999 (\$66,634—1976) and deposits on plans and specifications—\$44,725 (\$18,700—1976).

## 4. Comparative Figures

The comparative figures for accounts receivable, travel advances and contractors' security deposits (see Note 2) have been restated to conform to the current year's presentation.

## 5. Recovery of Expense

The Company provides on request of government departments and agencies certain technical and administrative assistance relative to construction matters. Such services are provided on a cost-recovery basis.

## 6. Remuneration of Officers

The Company has six directors and five officers, one of whom is also a director. The aggregate remuneration paid the officers during the year was \$191,581 (\$133,906 in 1976). No directors' fees were paid. The increase in cost is due to termination benefits paid and to the difference in the length of employment of these officers during these two years.

## 7. Supplementary Information

The contracting activity by the Company on behalf of government departments and agencies is summarized as follows:

	1977	1976
	(\$000)	(\$000)
Contracts in progress at beginning of year .....	132,010	132,572
Add: Contracts awarded .....	96,814	78,147
	228,824	210,719
Deduct: Contracts completed .....	71,493	78,709
Contracts in progress at end of year .....	157,331	132,010
Deduct: Payments on contracts in progress at end of year .....	100,750	89,003
Work outstanding on contracts in progress at end of year .....	56,581	43,007

Ottawa, Ontario  
June 30, 1977

THE HONOURABLE BARNEY DANSON, P.C., M.P.,  
MINISTER OF NATIONAL DEFENCE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Defence Construction (1951) Limited as at March 31, 1977 and the statement of expense for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Company as at March 31, 1977 and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting for contractors' security deposits referred to in Note 2 to the financial statements, on a basis consistent with that of the preceding year.

I further report that in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

ELDORADO AVIATION LIMITED—*Concluded*

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 1976

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
February 16, 1977

## (1) Accounting Policies

## Deferred Engine Overhaul

The costs of rebuilding engines are deferred and charged to operations over the estimated life of the rebuilt engine on the basis of actual hours flown. In previous years, overhaul costs have been charged to expense when incurred and, had this practice been retained in 1976, operating expenses for the year would have been \$182,105 higher than reported.

## Property and Equipment

Assets are carried at cost. Costs of additions, betterments and renewals are capitalized.

Depreciation is taken by the diminishing balance method at various rates based on the estimated useful life of the depreciable assets.

## Revenue—(Recovery of expense)

The Company operates on a break-even basis and recovers its total costs, less any miscellaneous revenue, from Eldorado Nuclear Limited and Northern Transportation Company Limited based on freight and passengers carried.

## (2) Remuneration of Directors and Officers

The Company paid no remuneration to its five directors who are also officers of the Company.

## (3) Federal Anti-Inflation Legislation

The Company is subject to restraint of profit margins, prices, dividends and employee compensation under the Federal Anti-Inflation Act and Regulations.

THE HONOURABLE ALASTAIR W. GILLESPIE, P.C., M.P.,  
MINISTER OF ENERGY, MINES AND RESOURCES,  
HOUSE OF COMMONS,  
OTTAWA, ONTARIO.

Dear Sir:

I have examined the balance sheet of Eldorado Aviation Limited as at December 31, 1976, and the statements of recoverable expenses and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Company as at December 31, 1976, and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles which, except for the change in accounting treatment for engine overhaul referred to in Note 1 to the financial statements, with which I concur, have been applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada.*

## ELDORADO NUCLEAR LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31st, 1976

## (1) Accounting Policies

A statement of significant accounting policies of the Company is provided separately in these financial statements.

## (2) Mine Concentrates on Loan

Mine concentrates on loan are segregated from inventory and recorded at cost, which is lower than net realizable value. These costs are classified as either current or non-current assets, according to estimated or scheduled repayments.

Income from the mine concentrates on loan is included in current earnings.

## (3) Property and Equipment

	December 31st

Interest and other non-operating items .....	(1,623,733)	(1,095,229)
Government of Canada grants for exploration .....	(973,748)	(2,388,311)
	<u>\$ 1,068,137</u>	<u>\$ 572,703</u>

## (8) Income Taxes

At December 31st, 1976, the Company had tax benefits on an accounting income basis of \$8,111,000 not recognized in the accounts. Included therein was a loss carry forward for tax purposes of \$1,476,000 which expires in 1977. In addition, at December 31st, 1976, the Company had accumulated earned depletion allowances of \$641,000, which are available to reduce future taxable income.

## (9) Supplementary Information

(a) The Company's by-laws provide for nine directors. At December 31, 1976, the Company had nine directors and nine officers. Two of the directors are also officers. Remuneration of officers as officers in 1976 totalled \$274,000 and remuneration of directors as directors in 1976 totalled \$21,667. Interest bearing housing assistance loans totalling \$95,000 were granted to officers, under the Company's policy which provides assistance to senior professional employees relocating from a lower cost to a higher cost housing area.

(b) During 1976 sales commissions totalling \$192,951 were paid to Marubeni Corporation and Wambesco International bv, who have been retained as sales agents since 1960.

(c) The pension plan actuarial report as of December 31, 1973 revealed a surplus. However, employee earnings increases at rates higher than estimated by the actuary, combined with the depressed value of marketable securities during the years 1974 and 1975, have resulted in an estimated deficiency of \$1.7 million as established in an interim report as of December 31, 1975 on the position of the trust fund. The actuarial report as of December 31, 1976, currently in preparation, will determine the amount of special contributions required from the Companies pursuant to the Trust Deed and the Pension Benefits Standards Act.

(d) The Company is subject to restraint of profit margins, prices, dividends and employee compensation under the federal Anti-Inflation Act and Regulations.

(e) The Company has granted an option to borrow a quantity of mine concentrates not to exceed 1.4 million pounds U<sub>3</sub>O<sub>8</sub>. This option expires on December 31, 1977. In the event of possible timing differences between drawdown of the option and the availability of concentrates from internal sources, the Company will make alternate arrangements to fulfill commitments.

(f) Certain 1975 accounts have been reclassified for comparison purposes.

**ELDORADO NUCLEAR LIMITED—Continued****(10) Contingencies**

- (a) The Atomic Energy Control Board has notified the Company that after December 31st, 1976 export permits will not be approved for shipments to customers in countries which have not entered into nuclear safeguards arrangements satisfactory to Canada.

The Atomic Energy Control Board has assured the Company that the Government has been working continuously in an effort to obtain the required agreements and will continue its efforts until suitable safeguards arrangements are finalized.

During the year 1977, the Company has commitments to customers in three countries (Germany, Sweden and Japan), affected by the suspension of export permits. Sales revenue from these customers in 1976 totalled \$10.5 million, and budgeted sales for 1977 total \$23.6 million. It is expected that any deliveries postponed in 1977 would be re-scheduled for shipment following the signing of the safeguards agreements. Therefore, in the longer term, it is not expected that the Company will be adversely affected.

- (b) In connection with its operations, the Company is the defendant in certain pending or threatened litigations. It is the opinion of management, based on legal counsel, that these actions will not result in any significant liabilities to the Company.

**STATEMENT OF ACCOUNTING POLICIES**

The Company's accounting policies are in accordance with industry practices and conform to generally accepted accounting principles. The following policies are considered to be significant.

**Basis of Consolidation**

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Eldorado Aviation Limited.

**Inventories**

Inventories of mine concentrates and refined products are valued at the lower of cost or net realizable value.

Cost for mine concentrates is determined on a weighted average basis, and for refined products, on a first-in, first-out basis.

**Supplies**

Operating and general supplies are carried at cost.

**Property and Equipment**

Assets are carried at cost. Cost of additions, betterments and renewals are capitalized. When assets are retired or sold, the resulting gains or losses are reflected in current earnings.

Maintenance and repair expenditures are charged to cost of production.

**Depreciation**

The principal depreciation methods used are the unit of production method for mining operations at a rate that would fully amortize the costs of assets over ten years' productive capacity and, for other operations, the straight line method based on ten years' estimated life.

**Mine Development and Preproduction Costs**

Mine development costs incurred in shaft sinking programs and refinery preproduction costs are deferred until commencement of production. These costs are then amortized on a unit of production basis ensuring full amortization over ten years of capacity output. Other mine development costs are charged to production as incurred.

**Research and Development and Exploration Costs**

Expenditures for applied research and development relative to the products and processes of the Company are charged against earnings as incurred.

Expenditures for geological exploration programs are charged against earnings as incurred.

**Pension Plan**

The company has a contributory fixed benefit trustee pension plan covering all of its regular full-time employees. Annual pension costs are funded at rates confirmed by the consulting actuary pursuant to periodic actuarial valuations.

**Sales of Products and Services**

In accordance with normal industry practices, the Company contracts for future delivery of mine concentrates and refinery conversion services. Sales revenue is recorded in the period that title passes and/or delivery is effected.

ELDORADO NUCLEAR LIMITED—*Concluded*

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
March 4, 1977

THE HONOURABLE ALASTAIR W. GILLESPIE, P.C., M.P.,  
MINISTER OF ENERGY, MINES AND RESOURCES,  
HOUSE OF COMMONS,  
OTTAWA, ONTARIO.

Dear Sir:

I have examined the statement of consolidated financial position of Eldorado Nuclear Limited as at December 31, 1976, and the statements of consolidated earnings, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements give a true and fair view of the financial position of the corporation as at December 31, 1976, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books and accounts have been kept by the corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

The accompanying notes are an integral part of the Financial Statements.

**NOTES TO FINANCIAL STATEMENTS****1. Export Development Corporation**

Export Development Corporation is a Crown corporation established on October 1, 1969, by the Export Development Act, a statute of the Parliament of Canada, as the successor to the Export Credits Insurance Corporation which commenced operations in 1944.

The Corporation has broad powers including the power to borrow, to lend and to guarantee loans, to enter into export credits insurance contracts and to issue guarantees in respect of export transactions and foreign investments. The Corporation is not subject to the requirements of the Income Tax Act with respect to its earnings.

Contracts are entered into either under the authority of the Board of Directors (Corporate Account) or under the authority of the Government of Canada (Canada Account) and are so reflected in the Corporation's financial statements. The Export Development Act sets out separate loan and liability limits for Corporate Account and Canada Account, and for all purposes the Corporation treats Corporate Account and Canada Account separately. Canada Account transactions are administered by the Corporation for Canada. Funds required for such transactions are paid to the Corporation by Canada and the Corporation does not have any liability for transactions administered for Canada Account. All contracts of foreign investment guarantees are issued for Canada Account.

**2. Summary of Significant Accounting Policies****Export Loan Fees Earned**

Export loan fees are taken into income as earned: administration fees are generally earned when the loan agreement is signed; standby fees are earned over the loan disbursement period.

**Insurance Premiums**

For short-term export credits insurance policies, premiums are taken into income at the commencement of coverage. Premiums on other export credits insurance policies are taken into income on a reducing balance method, generally reflecting the diminishing exposure over the terms of the policies.

**Provision for Insurance Claims**

This provision is adjusted by a charge to income based on past claims experience and assessment of existing coverage. Claims payments are charged and recoveries credited to the provision.

**Interest Expense**

Interest expense is prorated between export loans and investments on the basis of average funds employed.

**Provision for Losses on Loans Receivable**

Under the terms of an agreement with Canada, the Corporation annually sets aside an amount for potential losses on loans made under the Exports Credits Insurance Act prior to October, 1969, of which \$142,089,000 is outstanding as at December 31, 1976. These amounts which total \$7,487,000 are withheld from interest otherwise payable on borrowings from Canada and any balance not required when all such loans have been collected will be repaid to Canada.

Provision for losses on other loans receivable is made by charges to income.

**Translation of United States Currency**

Assets and liabilities in United States dollars which, consistent with Corporation policy are approximately equal in amount and term, are translated into Canadian dollars at exchange rates prevailing at year end. Income and expenses are translated at average monthly exchange rates in effect during the year.

**EXPORT DEVELOPMENT CORPORATION—Continued****3. Loans Receivable**

Loans receivable at December 31, 1976, mature as follows:

Overdue .....	\$ 1,756,000
1977 .....	135,441,000
1978 .....	145,549,000
1979 .....	177,831,000
1980 .....	194,077,000
1981 .....	174,133,000
1982 and later .....	514,363,000
Total .....	\$ 1,343,150,000

The future economic and political conditions in some of the countries where the Corporation has made loans are unpredictable and accordingly possible losses to the Corporation are not susceptible to accurate measurement. During the year ended December 31, 1976, a provision for loss in the amount of \$2,000,000 has been made, and an amount of \$8,000,000 of retained earnings has been appropriated to the reserve for underwriting and lending contingencies.

During 1976, the Corporation rescheduled payments due of \$13,683,000. These reschedulings are intended to aid collectibility and servicing of the debt. Since inception of the export loans program in 1961, the Corporation has rescheduled \$61,196,000, none of which is overdue at December 31, 1976.

At December 31, 1976, \$2,458,000 of accrued interest is overdue.

**4. Loans Payable**

At December 31, 1976, loans from Canada bear interest at rates from 5-5/16 per cent to 9½ per cent annually, with an average cost to maturity of 7.58 per cent and mature as follows:

1977 .....	\$ 114,350,000
1978 .....	143,712,000
1979 .....	152,131,000
1980 .....	149,303,000
1981 .....	109,210,000
1982 and later .....	375,751,000
Total .....	\$ 1,044,457,000

Other loans payable totalling \$115,506,000 bear interest at rates from 8½ per cent to 8¾ per cent and mature in 1981.

**5. Contributed Capital**

The contributed capital of \$25,000,000 is the maximum amount provided in the Export Development Act.

**6. Contingent Liability**

The authority to enter the contracts of export credits insurance and guarantees under the Export Development Act is limited to an aggregate of \$750,000,000 at any time. As at December 31, 1976, the Corporation is contingently liable for \$647,100,000 under such contracts.

**7. Insurance Claims**

Claims payments to Canadian exporters were \$2,296,000 in 1976, and \$680,000 was recovered against outstanding claims. At December 31, 1976, the Corporation has a contingent asset of \$3,352,000 in respect of claims paid on which recovery action is being taken.

**8. Export Loans**

Under the Export Development Act, the Corporation may have outstanding loans to foreign borrowers, outstanding guarantee agreements to other lenders and signed but undisbursed loans and guarantee agreements up to a maximum of \$4,250,000,000 at any time. As at December 31, 1976, the position of the Corporation is as follows:

Loans receivable .....	\$ 1,343,150,000
Guarantees .....	7,462,000
Undisbursed funds on signed loan agreements .....	1,114,958,000
Total .....	\$ 2,465,570,000

It is anticipated that these undisbursed funds will be disbursed in 1977 and subsequent years as delivery of goods and services or progress on projects is achieved. The Corporation expects to finance these loans near the time of disbursement by issuing debt instruments and capital stock. The cost of funding is uncertain and cannot be assured to be below the yield on the undisbursed loans.

AUDITOR GENERAL OF CANADA  
Ottawa, March 23, 1977

THE HONOURABLE JEAN CHRÉTIEN, P.C., M.P.,  
MINISTER OF INDUSTRY, TRADE AND COMMERCE,  
OTTAWA, ONTARIO.

Dear Sir,

I have examined the balance sheet of Export Development Corporation as at December 31, 1976 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1976 and the results of its operations and the changes in financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

Yours sincerely,

## NOTES TO THE ACCOUNTS ADMINISTERED FOR CANADA

## 1. General

The Corporation administers certain loan and insurance programs for Canada and the funds required for these operations are provided by Canada. Accordingly, the Corporation has no direct financial interest in these programs. As cash is received by the Corporation it is remitted to Canada, net of amounts withheld to cover administrative expenses which are charged on a cost recovery basis.

The significant accounting policies applied to these accounts differ from those of the Corporation in that no provision is made for insurance claims or loan losses.

Foreign investment guarantee premiums are taken into income evenly over the terms of coverage, excepting that the first year's premium is taken into income in its entirety when received.

## 2. Loans Receivable Funded by Canada

Loans receivable at December 31, 1976, mature as follows:

1977	\$ 8,419,000
1978	8,419,000
1979	8,419,000
1980	8,419,000
1981	14,615,000
1982 and later	46,392,000
Total	\$94,683,000

**FARM CREDIT CORPORATION—Continued****NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977****1. Summary of significant accounting policies**  
Corporate objective

The Farm Credit Corporation was established on October 5, 1959, by the Farm Credit Act as the successor to the Canadian Farm Loan Board. The Corporation's prime objective is to assist Canadian farmers to establish and develop sound farm enterprises through the use of long-term credit as provided for by the Farm Credit Act.

The Corporation also administers the lending program authorized under the Farm Syndicates Credit Act which was originally introduced as the Farm Machinery Syndicates Credit Act on December 11, 1964. It provides for loans to groups or syndicates of farmers organized to share in the purchase and use of farm machinery, buildings and installed equipment.

Pursuant to the Farm Credit Act and an agreement with the Department of Agriculture, the Corporation provides services pertaining to the purchase and sale of farm land in administering the Land Transfer Plan, a component of the Department's Small Farm Development Program. The Corporation's operating costs are reimbursed by the Department and the excess of income over expense is paid to Canada.

The transactions relating to each of these activities are accounted for separately by the Corporation.

**Allowance for doubtful accounts**

The allowance for doubtful accounts relates to loans to farmers, loans to farm syndicates and agreements for sale. This allowance represents the Corporation's estimate of future probable losses on the accounts outstanding at March 31, 1977, and includes a component which, on the basis of historical loss experience, covers future losses not yet identified and also a component to provide for specifically identified probable losses.

Actual losses on loans, recoveries on loans and the changes in the allowance are recorded in the related statement of income and expense as a provision for doubtful accounts.

Capital losses resulting from real property transactions under the Small Farm Development Program may be recovered through a separate parliamentary appropriation. No requirement for the application of this provision has yet occurred.

**Revenue recognition**

Interest on loans to farmers, loans to farm syndicates and agreements for sale is recorded as income on an accrual basis.

Appraisal fees received with applications are recorded as income when received. Appraisal fees retained from loan funds are recorded as income at the time the loans are disbursed.

Supervision fees are recorded as income annually on the related instalment due date. Discharge and partial discharge fees are recorded as income when the discharge takes place.

Service charges earned on loans to farm syndicates are recorded as income when loans are disbursed.

**Employee termination benefits**

Employee termination benefits generally accrue to employees over their service period and are payable upon their separation or retirement. A provision for this liability is reflected in the balance sheet and the related expense is included in salaries and employee benefits in the statement of income and expense.

**2. Changes in accounting policies**

The Corporation made changes in accounting policies during

1976-77. Such changes have been applied retroactively so that the accounting policies described in Note 1 have been reflected in the accompanying statements.

The following is a summary of previous practices:

**Allowance for doubtful accounts**

Previously the allowance determined by the Corporation was not recorded to reduce the assets to estimated realizable value or reflected in the statement of income and expense.

Losses incurred during the year under the Farm Syndicates Credit Act were previously written off and regarded as an expense in the statement of income and expense.

**Employee termination benefits**

Previously no provision was made in the accounts for benefits accruing to employees, payments of benefits being expensed by the Corporation when paid.

The changes in accounting policy had the effect of increasing, by \$698,426, the operating loss for the year incurred under the Farm Credit Act, of which amount, \$512,426 was related to the provision for doubtful accounts and \$186,000 to the provision for employee termination benefits. The balance of Deficit-Farm Credit Act at March 31, 1976, previously reported as retained earnings of \$778,327 has been restated to show a retroactive charge of \$1,735,800 representing the estimated allowance for doubtful accounts and provision for employee termination benefits required at that date. Of this amount, a charge of \$110,800 in respect of the provision for doubtful accounts and a credit of \$29,000 in respect of the provision for employee termination benefits were applicable to the year ended March 31, 1976, and have been reflected in the statement of income and expense for that year. An amount of \$1,654,000 is applicable to years prior to April 1, 1975, and has been applied to reduce retained earnings at that date, previously reported as \$776,649. These amounts represent non-cash expenses which have not been recovered through parliamentary appropriation.

The change in accounting policy had no effect on the net profit for the year under the Farm Syndicates Credit Act. However, the balance of Retained Earnings—Farm Syndicates Credit Act at March 31, 1976, previously reported as \$226,828 has been restated to show a retroactive charge of \$60,000 representing the estimated allowance for doubtful accounts required at that date. Of this amount, a charge of \$7,000 was applicable to the year ended March 31, 1976. An amount of \$53,000 is applicable to years prior to April 1, 1975, and has been applied to reduce retained earnings at that date, previously reported as \$171,039.

**3. Long-term receivables**

Outstanding amounts are receivable over periods of up to thirty years at interest rates in effect at the time of approval.

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands)	
			1977	1976
Loans to farmers .....	30 years	5—10	\$2,264,017	\$1,978,786
Loans to farm syndi- cates .....	15 years	6½—10	11,887	12,776
Agreements for sale .....	30 years	5—10	12,253	12,125
			<u>\$2,288,157</u>	<u>\$2,003,687</u>

## FARM CREDIT CORPORATION—Continued

A summary of the long-term receivables in the aggregate, by annual interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands)						1983 through 2007
	Total	1978	1979	1980	1981	1982	
5-5 1/2 %	\$ 371,295	\$ 30,980	\$18,991	\$19,503	\$20,015	\$20,417	\$ 261,389
6-6 1/2 %	362,161	24,072	11,265	11,551	11,928	12,392	290,953
7-7 1/2 %	542,332	31,016	12,668	13,533	14,423	15,315	455,377
8-8 1/2 %	698,463	41,023	13,895	14,791	15,492	16,149	597,113
9-9 1/2 %	270,821	12,673	3,870	4,206	4,570	4,944	240,558
10	43,085	1,048	650	693	692	724	39,278
	<u>\$ 2,288,157</u>	<u>\$140,812</u>	<u>\$61,339</u>	<u>\$64,277</u>	<u>\$67,120</u>	<u>\$69,941</u>	<u>\$1,884,668</u>

At March 31, 1977, accrued interest of \$87,033,000 (\$72,372,000—1976) and arrears of \$15,541,000 (\$10,366,000—1976) are included and are shown as maturing in the year ending March 31, 1978.

Prepayments of principal from borrowers of \$33.7 million (\$36.1 million—1976) were received during the year and applied as a reduction of principal. As a result, this amount has reduced the principal which would have normally become due in future years.

## 4. Real estate

This represents farm property held by the Corporation for resale and is carried at the lower of cost and net realizable value. It consists of property acquired in the process of administering the outstanding loans to farmers and to farm syndicates and must be disposed of by the Corporation within five years of acquisition or such further period as the Governor in Council may prescribe.

## 5. Due to Canada

The amount due to Canada of \$1,591,074 (\$474,104—1976) is in respect of operations during the year under the Farm Credit Act and under the Small Farm Development Program and is determined as follows:

	1977	1976
Operations under the Farm Credit Act—		
Funds received from Agriculture Vote 60 (Vote 65—1976)	\$ 2,400,000	\$ 3,900,000
Less: Portion of operating loss recoverable	958,609	3,513,624
	<u>1,441,391</u>	<u>386,376</u>
Operations under the Small Farm Development Program—		
Funds received from Agriculture Vote 1	738,070	825,000
Less: Administrative expense	675,896	819,260
	<u>62,174</u>	<u>5,740</u>
Excess of income over expense	87,509	81,988
	<u>\$1,591,074</u>	<u>\$ 474,104</u>

## 6. Canada loans

The Corporation has borrowed funds, secured by note, from the Minister of Finance for the purpose of making farm loans, pursuant to section 13 of the Farm Credit Act and section 8 of the Farm Syndicates Credit Act. The Corporation also borrows funds pursuant to the Farm Credit Act, as authorized by Order in Council P.C. 1972-1490, dated June 29, 1972, for the purposes of the Small Farm Development Program. These borrowings are repayable in accordance with the terms and interest rates prescribed at the time of borrowing.

Outstanding amounts as at March 31, 1977, are as follows:

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands)	
			1977	1976
Farm Credit Act	20 years	3 1/2—9	\$ 2,130,174	\$ 1,863,067
Farm Syndicates Credit Act	5 years	5 1/4—9	11,629	12,499
Small Farm Development Program	20 years	6—9	10,380	10,136
Accrued interest			51,694	43,111
			<u>\$ 2,203,877</u>	<u>\$1,928,813</u>

## FARM CREDIT CORPORATION—Continued

A summary of the Canada loans in the aggregate, by annual interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands)						1983 through 1998
	Total	1978	1979	1980	1981	1982	
3-4 %	\$ 18,147	\$ 2,698	\$ 2,260	\$ 2,353	\$ 2,451	\$ 2,552	\$ 5,833
5-5 %	303,188	35,387	28,709	29,767	31,063	32,761	145,501
6-6 %	654,680	46,857	38,094	40,544	43,152	45,929	440,104
7-7 %	551,699	28,471	19,969	21,367	22,550	23,426	435,916
8-8 %	530,613	29,019	12,293	13,304	14,401	15,592	446,004
9	145,550	4,428	3,196	3,456	3,555	3,680	127,235
	<u>\$ 2,203,877</u>	<u>\$ 146,860</u>	<u>\$ 104,521</u>	<u>\$ 110,791</u>	<u>\$ 117,172</u>	<u>\$ 123,940</u>	<u>\$ 1,600,593</u>

The amounts outstanding as of March 31, 1977, include accrued interest totalling \$51,694,000 (\$43,111,000—1976) and are shown as maturing in the year ending March 31, 1978.

### 7. Contributed capital

The contributed capital of the Corporation represents the amount received from Canada under section 12 of the Farm Credit Act. The present statutory limit on this amount is one hundred million dollars.

### 8. Income taxes

The Corporation excludes funds provided by parliamentary appropriation from its income for income tax purposes. The resulting loss carry-forward which may be applied as a reduction of taxable income in future years amounts to \$26,004,124 and the potential tax benefits of this carry-forward will expire on the following dates:

March 31, 1978	\$ 8,556,522
March 31, 1979	6,588,461
March 31, 1980	4,150,140
March 31, 1981	3,380,913
March 31, 1982	3,328,088
	<u>\$26,004,124</u>

Revenue Canada—Taxation has issued Notices of Reassessment dated January 25, 1977, for the fiscal periods 1972 through 1975 which include in income, funds received under the parliamentary appropriation for recovering the Corporation's operating loss. The effect of the reassessments, if upheld, would be to reduce the loss carry-forward for tax purposes as at March 31, 1977, from \$26,004,124 to \$2,462,562 assuming similar assessments for 1976 and 1977. A Notice of Objection has been filed by the Corporation for each of these reassessments.

### 9. Interest rates

Loans to farmers bear an interest rate from the date of approval equal to the base rate defined in section 3(3) of the Farm Credit Act Interest Rates Regulations plus one percent. The base rate is determined using the average yield on Government of Canada bonds payable in Canadian currency and due to mature in five to ten years. The lending rate is established for six-month periods commencing April 1st and October 1st each year and applies to all loans approved in the related six-month period.

However, if a new loan under the Farm Credit Act is made, a portion of which is to be used to repay an existing Farm Credit Act loan, the current lending rate and the rate on the existing loan are blended and a composite rate charged. Except for the provision for blended rates, rates on loans to farm syndicates are determined in the same manner using the yield on Government of Canada bonds maturing in one to five years plus one percent.

Interest rates on borrowings from Canada by the Corporation under section 13 of the Farm Credit Act are established for six-month periods commencing April 1st and October 1st each year in accordance with the terms and conditions approved by the Governor in Council. Similarly, rates on borrowings under section 8 of the Farm Syndicates Credit Act are set on these dates for the same six-month periods.

### 10. Commitments to borrowers

Loans to borrowers approved but not disbursed as at March 31, 1977, amounted to \$39.9 million most of which were approved at 10%. It is expected that the majority of these loans will be disbursed within the six-month period ending September 30, 1977, from funds to be borrowed by the Corporation from Canada at 8¼%.

### 11. Comparative figures

Certain figures for the previous year have been restated to conform to the current year's presentation.

### 12. Anti-Inflation Act

Under this legislation, the Corporation is subject to mandatory compliance with the controls on employees' compensation.

**FARM CREDIT CORPORATION—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
June 8, 1977

THE HONOURABLE EUGENE F. WHELAN, P.C. M.P.  
MINISTER OF AGRICULTURE  
OTTAWA, ONTARIO

I have examined the balance sheet of Farm Credit Corporation as at March 31, 1977 and the statements of deficit—Farm Credit Act, retained earnings—Farm Syndicates Credit Act, income and expense, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes described in note 2 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

**NOTES TO FINANCIAL STATEMENTS  
AS AT MARCH 31, 1977****1. Significant Accounting Policies:****Loans and Investments**

Loans and Investments are recorded as assets when disbursed. Each loan remains as an asset until it is repaid or until realization of its security. Each investment remains as an asset until it is sold or written off. Losses on loans and investments are provided for as described in the following paragraph.

**Provision for losses on loans and investments**

A charge against income is made to cover amounts written off on loans and investments during the period. In addition, a provision is established to provide for future losses. This provision includes a component which, on the basis of historical loss experience, covers future losses not yet identified, and also a component to provide for specifically identified probable losses.

**Revenue recognition**

Interest on loans is recorded as income on an accrual basis except that interest is not accrued on loans where the Bank has taken possession of the assets pledged as security.

**2. Amounts not disbursed at March 31, 1977 on loans and investments authorized were approximately \$111,000,000 (1976—\$121,000,000).****3. The Bank is contingently liable as guarantor of loans aggregating \$146,250.**

**FEDERAL BUSINESS DEVELOPMENT BANK—Concluded**

4. Debentures issued to and held by the Bank of Canada at March 31, 1977 were as follows:

Rate	Maturities by Fiscal Year (in thousands of dollars)					Total
	1978	1979	1980	1981	1982	
%						
6-6½	\$ 66,800	\$ 6,000	\$	\$	\$	\$ 72,800
7-7½	71,700	127,800	78,400	51,400	44,200	373,500
8-8½	10,700	15,400	70,400	40,000	39,800	176,300
9-9½	22,400	22,300	22,300	79,600	47,600	194,200
	<u>\$171,600</u>	<u>\$171,500</u>	<u>\$171,100</u>	<u>\$171,000</u>	<u>\$131,600</u>	<u>\$816,800</u>

5. Notes held by Canada at March 31, 1977 were as follows:

Rate	Maturities by Fiscal Year (in thousands of dollars)						Total
	1978	1979	1980	1981	1982	1983 through 1985	
%							
8-8½	\$ 5,000	\$ 4,000	\$ 3,000	\$ 4,000	\$ 4,000	\$ 5,000	\$ 25,000
9-9½	46,000	46,000	48,000	48,000	47,000	136,000	371,000
	<u>\$ 51,000</u>	<u>\$ 50,000</u>	<u>\$ 51,000</u>	<u>\$ 52,000</u>	<u>\$ 51,000</u>	<u>\$ 141,000</u>	<u>\$ 396,000</u>

6. The Bank maintains a Pension Fund for its employees which is contributory, trustee and funded. According to the latest independent actuarial valuation, which was conducted as of December 31, 1976, an experience deficiency of \$1,259,800 arose during 1976. This deficiency, together with interest, is to be funded and charged to operations over a period not to exceed the next five years.

7. As at March 31, 1977 the Bank had fifteen directors (fourteen in 1976) and ten senior officers (nine in 1976). One senior officer retired in February 1977. Remuneration of \$59,500 (\$27,875 for 6 months in 1976) was paid to the ten directors selected from outside the public service of Canada. Remuneration of \$453,573 (\$207,387 for 6 months in 1976) was paid to the senior officers. One senior officer is also a director.

**AUDITOR'S REPORT**

THE HONOURABLE MINISTER OF INDUSTRY,  
TRADE AND COMMERCE,  
OTTAWA, ONTARIO.

Sir:

I have examined the statement of assets and liabilities of the Federal Business Development Bank as at March 31, 1977 and the statements of operations, retained earnings, changes in cash position and accumulated provision for possible future losses on loans and investments for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present a true and fair view of the financial position of the Bank as at March 31, 1977 and the results of its operations, the changes in its cash position and the changes in the accumulated provision for possible future losses on loans and investments for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Bank, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Bank.

Yours very truly,

RAYMOND J. MORCEL, C.A.  
of Price Waterhouse & Co.  
Montreal, Quebec  
May 4, 1977

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED APRIL 30, 1976

## 1. Accounting policy

## Payments to Fishermen

Initial payments to fishermen are recorded as a cost in the Statement of Operations in the year in which the fish are delivered. Final payments made to fishermen are charged to Retained Earnings in the year paid.

## Depreciation

The cost of fixed assets is written off by depreciation charges over the estimated useful lives of the fixed assets on the following basis:

Buildings	—Lake stations	10% Declining balance
	—Plant	40 year Straight line
Equipment	—Plant	20% Declining balance
	—Mobile	30% Declining balance
Packer vessel		15 year Straight line
Leasehold improvements		20 year Straight line

## Contributed Surplus

Contributed Surplus represents the proceeds of a grant from the Department of Regional Economic Expansion towards the construction of the Corporation's Transcona plant.

## 2. Government assistance for Fish Packing and Processing Stations

The Department of Indian Affairs and Northern Development has agreed to reimburse the Corporation in the amount of \$170,000 to offset certain costs incurred by the Corporation in operating a fish packing and processing plant at Island Lake, Manitoba.

The Department of Indian Affairs and Northern Development and the Department of Northern Saskatchewan have each agreed to reimburse the Corporation in the amount of \$30,000 to offset certain costs incurred by the Corporation in operating a fish packing and processing plant at Lake Athabasca, Saskatchewan.

The total of \$230,000 in government assistance has been offset against costs included in the Statement of Operations.

## 3. Mortgage Loan Receivable

The loan which bears interest at a rate of 10% per annum is secured by a chattel mortgage and is subject to consecutive monthly blended payments of \$1,048 until May 1, 1984.

## 4. Fixed Assets

At April 30, 1976, the fixed assets and related accumulated depreciation were as follows:

	Cost	Accumulated Depreciation	Net
Land	\$ 236,766	\$	\$ 236,766
Buildings	4,326,550	467,084	3,859,466
Equipment	2,493,294	1,226,845	1,266,449
Packer vessel	234,300	78,100	156,200
Construction in progress	86,093		86,093
Leasehold improvements	521,242	124,683	396,559
	<u>\$ 7,898,245</u>	<u>\$ 1,896,712</u>	<u>\$ 6,001,533</u>

## Leasehold Improvements

The Corporation has spent \$1,208,319 on land and a processing plant constructed for the Department of Indian Affairs and Northern Development at Hay River, N.W.T. Under a twenty-year agreement dated July 1, 1972, the Department has leased this property back to the Corporation for one dollar (\$1.00) per year. The Corporation has received \$850,000 from the Department and the balance of \$358,319 is being amortized as a leasehold improvement over the term of the lease.

## 5. Loans from Canada

These demand loans, secured by promissory notes, are made under Section 17 of the Act. At April 30, 1976, the outstanding loans included the following:

Amount	Interest Rate
\$2,450,000	7½%
1,350,000	8½%
650,000	8½%
4,262,473	4½%
158,000	7½%
623,000	9½%
<u>\$9,493,473</u>	

Payment of the instalment due on June 1, 1975, has been made on July 29, 1976.

FRESHWATER FISH MARKETING CORPORATION—*Concluded*NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED APRIL 30, 1976—*Concluded*

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

## 6. Deficit

Contributions of \$3,000,000 towards the operating losses incurred by the Corporation in 1971-72 and 1972-73 have been requested from the Federal and participating Provincial and Territorial governments. Of this amount, \$2,700,000 has been received; \$1,500,000 from Canada, \$150,000 from the Northwest Territories, \$150,000 from Ontario, \$150,000 from Alberta, and \$750,000 from Manitoba. These amounts have been credited to deficit in the year in which they were received. Under terms of an agreement with the Province of Manitoba, if the remaining \$300,000 is not received, the Manitoba contribution will become repayable.

## 7. Payment to Co-operative Fisheries Limited Under Guarantee Agreement

Under the terms of an Agreement entered into with one of its agents, Co-operative Fisheries Limited, the Corporation guaranteed that Co-operative Fisheries Limited would have a net income of \$75,000 for their fiscal year ended October 31, 1975. The Corporation has received Co-operative Fisheries Limited's audited financial statements for the year ended October 31, 1975, which indicate an operating loss of \$362,000. Thus, the Corporation's liability to Co-operative Fisheries Limited is \$437,000, of which \$255,000 has been paid.

## 8. Supplementary Information

During the year, remuneration paid to Directors as Directors was \$10,500 and remuneration paid to Officers was \$67,700. The Corporation has eleven (11) Directors and two Officers; one Officer is also a Director.

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.,  
MINISTER OF FISHERIES AND THE ENVIRONMENT,  
OTTAWA, ONTARIO.

Dear Mr. LeBlanc,

I have examined the balance sheet of the Freshwater Fish Marketing Corporation as at April 30, 1976 and the statements of retained earnings, operations and changes in financial position for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at April 30, 1976 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 1 applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

Yours sincerely,

J. J. MACDONELL  
*Auditor General of Canada*

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 1976

## 1. Significant accounting policies

## (a) Parliamentary appropriations

The Great Lakes Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. It is the practice that, until the revenue for pilotage charges is sufficient to permit the Authority to operate on a self-sustaining basis, any deficit, including capital expenditure, is to be recovered from parliamentary appropriations provided for that purpose. Amounts received from parliamentary appropriations in excess of the deficit are shown under current liabilities.

## (b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the asset as follows:

Buildings	20 years
Office furniture & equipment	10 years

Although charged in the Statement of Operations depreciation is not recovered from parliamentary appropriations.

## (c) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, plus the cost of capital assets financed from parliamentary appropriations, are shown as contributed capital.

## 2. Fixed assets

At December 31, 1976 the fixed assets and related accumulated depreciation were as follows:

	1976		1975	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Buildings .....	\$ 60,600	\$ 20,000	\$ 60,600	\$ 16,000
Office furniture & equipment .....	19,200	7,800	16,900	5,900
	<u>\$ 79,800</u>	<u>\$ 27,800</u>	<u>\$ 77,500</u>	<u>\$ 21,900</u>

## 3. Deferred collections

Accounts receivable include an amount of \$10,177 (\$35,093 in 1975) arising from pilotage services accounted for at the dispatching office of the United States Pilot Corporation at Duluth, Minnesota. Due to the lack of precise accounting information from the United States Pilot Corporation, the amount receivable and the date of collection cannot be determined. Because of these uncertainties, these amounts are not included in income but are shown as a deferred collection on the balance sheet.

## 4. Prior years' adjustments

## (a) Contributed capital

In previous years an account was maintained within Equity of Canada entitled Residual value of capital assets financed from parliamentary appropriations. This account was credited with values assigned to assets transferred by Canada to the Authority in 1972 plus the cost of fixed assets financed from parliamentary appropriations since that date. The account was reduced by depreciation and the net book value of assets disposed of and the deficit was reduced by a corresponding amount. Under the new policy, gains or losses on disposal of fixed assets are recorded in the Statement of Operations and contributed capital represents the original value assigned to assets transferred in 1972 plus the cost of fixed assets financed from parliamentary appropriations since that date.

As a result of the retroactive application of this change in accounting policy, contributed capital at December 31, 1974 increased by \$16,249 and the deficit at that date increased by a corresponding amount; for the 1975 year, contributed capital increased by \$5,979 and the deficit increased by a similar amount.

## (b) Public Service Superannuation Plan

During 1976 the Authority was required to record in its accounts the employer contribution in respect of the purchase of past service pension benefits by pilots who became employees (note 5). Previously the Authority was of the opinion that it would not be required to match these contributions. As a result of the retroactive application of this change, the deficit at December 31, 1974 increased by \$47,000; for the 1975 year the loss on operations has been increased by \$62,000 over the amount previously reported.

## (c) Due from Canada

The amount recognized in the Authority's 1975 financial statements as Due from Canada in respect of the Authority's deficit has been reversed because payment was conditional on the Crown releasing funds to the Authority and therefore the amount did not constitute a receivable of the Authority at that date. As a result of the reversal the amount charged against deficit at December 31, 1975 was \$146,888.

## 5. Contingent liability

Under provisions of the Pilotage Act pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Plan. Certain pilots have exercised their option to become employees and have elected to purchase pension benefits in respect of past service. These elections have created an obligation to make employer contributions in respect of past service, and in 1976 the Authority recorded these contributions in the accounts (Note 4b).

Pilots who have elected to become employees may purchase past service pension benefits either by monthly instalments which are to be paid over their remaining service periods or by the payment of a lump sum. Virtually all of these pilots have elected to pay on the instalment basis and therefore the Authority will be required to

**GREAT LAKES PILOTAGE AUTHORITY, LTD.—Concluded**

match past service pension contributions over the remaining service lives of the pilots.

With respect to pilots who have elected to purchase past service benefits by monthly instalments, employer contributions amounting to approximately \$390,000 will be required over future years until their retirement. Should all the pilots elect however to pay a lump sum in respect of past services the authority would be required to match an additional amount estimated at \$270,000.

With respect to the 20 contract pilots who may elect, in the future, to become employees of the Authority, the contingent liability with respect to past service pension contributions has not yet been determined.

**6. Remuneration of directors and officers**

Expense includes remuneration of directors as directors \$2,000 (1975-\$3,248), and remuneration of officers as officers, \$81,399 (1975-\$47,566). The Authority has six directors and six officers. Two officers are also directors.

**7. Comparative figures**

The presentation of the 1975 comparative figures has been amended to conform to the 1976 format.

**8. Anti-inflation legislation**

Under P.C. 1976-3079 of December 10, 1976 with retroactive effect from May 27, 1976 the Authority is subject to the Anti-inflation Act and the regulations promulgated thereunder, which provide for restraints of prices, profit margins and compensation of employees.

Ottawa, Ontario  
March 18, 1977

THE HONOURABLE OTTO E. LANG, P.C., M.P.  
MINISTER OF TRANSPORT  
OTTAWA, ONTARIO

I have examined the balance sheet of Great Lakes Pilotage Authority, Ltd. as at December 31, 1976 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes described in Note 4 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 1976

## 1. Significant accounting policies

## (a) Parliamentary appropriations

The Laurentian Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. It is the practice that, until the revenue for pilotage charges is sufficient to permit the Authority to operate on a self-sustaining basis, the excess of expenditures over revenues is to be recovered from parliamentary appropriations provided for the purpose. Accordingly, the amounts received from appropriations in excess of the deficit are shown under current liabilities.

## (b) Depreciation

Depreciation is calculated on the straight line basis and is based on the following estimated useful lives:

Buildings	20 years
Pilot boats	20 years
Office furniture and equipment	10 years
Communications equipment	10 years
Vehicles	3½ years

## (c) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, plus the cost of fixed assets financed from parliamentary appropriations, are shown as contributed capital.

## (d) Office space

An estimate of rent for office space provided without charge by a government department is included as an expense and credited to Retained Earnings.

## 2. Fixed assets

At December 31, 1976 the fixed assets and related accumulated depreciation were as follows:

	1976		1975	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Land .....	\$ 9,300	\$	\$ 9,300	\$
Buildings .....	23,622	8,245	23,622	6,567
Pilot boats .....	117,000	65,000	117,000	52,000
Office furniture and equipment .....	59,167	33,341	56,729	26,179
Communications equipment .....	47,896	47,417	47,896	37,909
Vehicles .....	21,654	21,654	21,654	19,489
	<u>\$278,639</u>	<u>\$175,657</u>	<u>\$276,201</u>	<u>\$142,144</u>

## 3. Due to Canada

Although the Authority is on a calendar year basis, parliamentary appropriations are granted for a fiscal year. The amount refundable of \$275,000 represents the balance payable to Canada on amounts received from appropriations in excess of the deficit to March 31, 1976. Since April 1, 1976 the Authority has operated on a self-sustaining basis, and accordingly, has not required appropriations.

LAURENTIAN PILOTAGE AUTHORITY—Continued

4. Prior years' adjustments

(a) Contributed capital

In previous years an account was maintained within Equity of Canada entitled Residual value of capital assets financed from parliamentary appropriations. This account was credited with values assigned to assets transferred by Canada to the Authority in 1972 plus the cost of fixed assets financed from parliamentary appropriations since that date. The account was reduced by depreciation and the net book value of assets disposed of, and the deficit was reduced by a corresponding amount. Under the new policy, depreciation and gains or losses on disposal of fixed assets are recorded in the Statement of Operations and contributed capital represents the original value assigned to assets transferred in 1972 plus the cost of fixed assets financed from parliamentary appropriations since that date. This change in accounting policy was applied retroactively to February 1, 1972.

As a result of the retroactive application of this change, contributed capital at December 31, 1974 increased by \$104,277 and the deficit at that date increased by a corresponding amount; for the 1975 year, contributed capital increased by \$37,867 and the deficit increased by that amount.

(b) Public Service Superannuation Plan

During 1976 the Authority was required to record in its accounts the employer contribution in respect of the purchase of past service pension benefits by pilots who became employees (Note 6a). Previously the Authority was of the opinion that it would not be required to match these contributions. As a result of the retroactive application of this change, the deficit at December 31, 1974 increased by \$39,579; for the 1975 year the loss on operations has been increased by \$54,143 over the amount previously reported.

5. Other income

Other income includes:

- \$30,000 received for damages caused by a vessel at the wharf at Les Escoumins in 1974; the wharf had no book value, and
- \$27,481 received as compensation with respect to a rescue operation performed in 1974.

6. Commitments and contingent liabilities

(a) Past service pension contributions

Under provisions of the Pilotage Act contract pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Plan. Certain pilots have exercised their option to become employees and have elected to purchase pension benefits in respect of past services. These elections have created an obligation to make employer contributions in respect of past service, and in 1976 the Authority recorded these contributions in the accounts (Note 4b).

Pilots who have elected to become employees may purchase past service pension benefits either by monthly installments which are to be paid over their remaining service periods or by the payment of a lump sum. Virtually all of these pilots have elected to pay on the installment basis and therefore the Authority will be required to match past service pension contributions over the remaining service lives of the pilots.

With respect to pilots who have elected to purchase past service pension benefits by monthly installments, employer contributions amounting to approximately \$260,000 will be required over future years until their retirement. Should all the pilots elect to pay a lump sum in respect of past services, the Authority would be required to match an additional amount estimated at \$140,000.

With respect to the 220 contract pilots who may elect, in the future, to become employees of the Authority, the contingent liability with respect to past service pension contributions has not yet been determined.

(b) Contractual and employee agreements

Claims aggregating approximately \$150,000 in respect of contractual and employee agreements have been received by the Authority. The Authority feels that its position is defensible and that the final outcome of these claims should not result in any material payments.

(c) Charges in dispute

Charges for certain pilotage services rendered from 1973 to 1975 amounting to \$435,013 are in dispute. While court judgements rendered have been essentially in favour of the Authority, appeals have been filed with the courts and are yet to be heard. In addition, charges for similar pilotage services not specifically in dispute amount to approximately \$500,000. The Authority believes that adequate provision for any loss related to this action has been included in its estimate of doubtful accounts.

7. Funds provided by (applied to) operations

	1976	1975
Net income (loss) for year .....	\$ 98,557	\$ (575,919)
Items not requiring an outlay of funds:		
Provision for employee termination benefits .....	85,114	32,865
Depreciation of fixed assets .....	33,513	37,867
Services provided free of charge by a government department .....	55,765	55,765
	<u>\$ 272,949</u>	<u>\$ (449,422)</u>

8. Remuneration of members and officers

Expense includes remuneration of members as members, \$5,514 (1975—\$9,250), and remuneration of officers as officers, \$104,150 (1975—\$100,725). The Authority has seven members and four officers. Two officers are also members.

9. Comparative figures

The presentation of the 1975 comparative figures has been amended to conform to the 1976 format.

10. Anti-inflation legislation

Under P.C. 1976-3079 of December 10, 1976 with retroactive effect from May 27, 1976 the Authority is subject to the Anti-inflation Act and the regulations promulgated thereunder, which provide for restraints on prices, profit margins and compensation of employees. The Authority has complied in all material respects with the controls.

**LAURENTIAN PILOTAGE AUTHORITY—Concluded**

Ottawa, Ontario

NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 1977

1. Objective of the Corporation and Significant Accounting Policies

(a) Objective

Loto Canada Inc. was established as a Crown Corporation under the provisions of Vote L27a, Appropriation Act No. 4, 1976 and was incorporated under the provisions of the Canada Business Corporations Act on June 7, 1976.

The Corporation's objective is to conduct and manage a national lottery in accordance with the National Lottery Regulations. The net revenues of the Corporation are required to be paid over to the Receiver General for Canada to be credited to a National Lottery Account and distributed as follows:

82.5%—to assist in the financing of the deficit of the 1976 Olympic Games and to assist in the financing of the 1978 Commonwealth Games;

12.5%—to the provinces, in proportion to the number of lottery tickets sold in each province;

5.0%—for the purpose of physical fitness, amateur sport and recreation programs.

(b) Significant accounting policies

Determination of net revenue

The Corporation's net revenue is determined on the basis of lottery ticket sales, prizes and expenses in respect of completed draws. Proceeds from the sale of lottery tickets, interest income thereon and direct expenses related to future draws are deferred until completion of the relevant draws.

Unclaimed prizes

Unclaimed prizes are carried in the accounts for a twelve-month period subsequent to the relevant draw, when in accordance with the National Lottery Regulations any claim for the prizes is then void.

Furniture and equipment

Purchases of furniture and equipment are recorded as an administrative expense in the year of acquisition.

**LOTO CANADA INC.—Concluded**

2. Contribution from the Olympic Lottery of Canada Corporation  
Surplus prize money of the Olympic Lottery of Canada Corporation's final draw was received by Loto Canada Inc. and paid out as prizes in the draw of December 5, 1976.
3. Provision for prizes—future draws  
The provision for prizes—future draws represents the balance of an amount set aside by the Corporation from revenues of the first draw (December 5, 1976) and held in the Prize Account for distribution as additional prizes in future draws. Of this provision, \$1.5 million is to be distributed in this manner in the June 19, 1977 draw.  
No such amount was set aside from revenues of the other draw held during the period due to a revised Corporation policy then in effect.
4. Remuneration of Directors and Officers  
During the period, the Corporation had six directors whose aggregate remuneration for the period as directors was \$3,700. The Corporation had nine officers whose aggregate remuneration for the period as officers was \$173,970. One of the officers was also a director and did not receive additional remuneration for that responsibility.
5. Other  
No statement of changes in financial position has been prepared since it would not have disclosed any additional information beyond that provided in these financial statements.

AUDITOR GENERAL OF CANADA  
OTTAWA, ONTARIO  
JUNE 17, 1977

THE HONOURABLE JEAN CHRÉTIEN, P.C., M.P.,  
MINISTER OF INDUSTRY, TRADE AND COMMERCE,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Loto Canada Inc. as at March 31, 1977 and the statement of operations for the period from incorporation June 7, 1976 to March 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977 and the results of its operations for the period from incorporation June 7, 1976 to March 31, 1977 in accordance with generally accepted accounting principles.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

## NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1977

### 1. Commission's Activities

The Commission is constituted under an "Act respecting The National Battlefields at Quebec", for the purpose of acquiring, preserving and developing an historic battlefields park.

### 2. Significant accounting policies

#### (a) Inventory

The inventory includes supplies, spare parts and tools and is valued at the lower of average cost and replacement value.

#### (b) Fixed assets

Fixed assets are financed by parliamentary appropriations and are recorded in the accounts at cost. A corresponding amount is credited to the Equity of Canada. Gains or losses on disposal of fixed assets are credited or charged directly to Equity of Canada.

#### (c) Special Land Purchase Fund

Funds have been received from provincial and municipal governments and others for the exclusive purpose of acquiring certain land. These funds, together with interest revenue earned, have been accounted for separately from the general funds. Bonds held by the Special Land Purchase Fund are carried at cost as it is the Commission's intention to hold such bonds to maturity.

### 3. Fixed assets

Fixed assets, at cost, include:

	1977	1976
Land .....	\$ 724,710	\$ 724,710
Buildings .....	153,339	153,339
Roadways, driveways and grading .....	771,645	760,042
Equipment .....	583,080	548,921
Illuminated fountain .....	61,930	61,930
	<u>\$2,294,704</u>	<u>\$2,248,942</u>

In general, fixed assets of the Commission are not revenue producing and no depreciation is recorded in the accounts. A study will be undertaken to assess all fixed assets to determine those that are of a depreciable nature and to establish depreciation policies.

### 4. Provision for employee termination benefits

During 1977 the Commission adopted the policy of recording in its accounts a provision for termination benefits accruing to employees. Previously the Commission had expensed actual termination benefit payments in the year of payment. The accounting change has been applied retroactively and the Statements of Operating Expense and Equity of Canada have been restated. The effect of the change is an increase in net operating expense of \$243 for 1977 and an increase in net operating expense of \$7,439 for 1976. The remaining \$29,006 is applicable to years prior to April 1, 1975 and has been charged to the balance of Equity of Canada at that date.

### 5. Comparative Figures

Certain of the figures for 1976 presented for comparative purposes, have been restated to conform to the 1977 presentation.

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
May 10th, 1977

THE HONOURABLE W. ALLMAND, P.C., M.P.  
MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT  
OTTAWA, ONTARIO

I have examined the balance sheet of the National Battlefields Commission as at March 31, 1977 and the statements of operating expense, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 3 to the financial statements, the Commission does not provide for depreciation on fixed assets which are susceptible to deterioration and obsolescence.

In my opinion, except for the effect of not recording depreciation of fixed assets referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1977, and its operating expenses and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting policy referred to in Note 4 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
Auditor General of Canada

NATIONAL CAPITAL COMMISSION—Continued

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

1. Significant accounting policies

(a) Capital assets

(i) Real property

Real property is recorded in the accounts at cost or nominal value. The nominal value represents the original cost of property acquisitions less proceeds from sale of part of the property. All proceeds from sales which occurred up to Marh 31, 1974 were credited to the asset account. Where the proceeds from such sales exceeded the total costs of acquisitions for a particular group of property, the property group has been valued at \$1. Gains or losses on sales of property since March 31, 1974 are reflected in the Statement of Operations and the assets are credited with the cost of the property sold. As gains or losses on sales made prior to March 31, 1974 are determined, they are presented as prior years' adjustments to proprietary interest.

(ii) Other than real property

Capital assets other than real property are recorded in the accounts at cost. The acquisitions are financed by parliamentary appropriations provided for operating expenditures.

When these assets are disposed of, the difference between the original cost of the asset and the amount received, if any, is recorded as a gain or loss in the Statement of Operations.

(iii) Depreciation

In general, capital assets are not revenue producing and no depreciation is recorded in the accounts. Studies will be undertaken to assess all capital assets to determine those that are of a depreciable nature and to establish depreciation policies.

(iv) Destruction or disposal of capital assets

Losses arising from the destruction or disposal of capital assets are charged to operations of the year.

(b) Capital projects

A capital project as set out in the National Capital Act is an expenditure for the acquisition of property, for contributions, or for other works.

The Commission makes expenditures for capital projects which have been specifically approved by the Governor in Council, from funds provided by the National Capital Fund and from sales of real property which were originally acquired out of funds provided by the National Capital Fund in which case the cost portion of the sale is credited to capital project expenditures, so reducing the amount required from the Fund. Expenditures made by the Commission from these funds to the extent that they relate to contributions and other works are charged to expenditures of the year. Only that portion relating to real property acquisitions is capitalized.

The Commission also makes expenditures for acquisitions of real property out of the loans from Canada referred to in Note 5. The terms of these loans require that the loans be repaid if the property acquired from such loans is sold, granted, conveyed or otherwise disposed of and further that, if the monies received are in excess of what is required to repay the loans, that the excess shall be applied against other loans made to the Commission. The excess is reflected in the Statement of Operations but does not provide funds that can be used by the Commission for operating purposes.

(c) Inventories

Inventories of supplies and small tools are carried at cost. Nursery stock is valued at replacement cost less an allowance

for overhead, balling and packaging expenses. Any increase or decrease in value of inventories is reflected in the Statement of Operations.

(d) Interest and grants in lieu of taxes

The cost of real property does not include interest on loans used to finance the acquisition thereof nor the grants in lieu of taxes thereon. Studies will be undertaken to consider the appropriateness of this policy as it relates to property held for development.

2. Effect of changes in accounting policies

During 1977 the Commission adopted the policy of reflecting expenditures on capital assets other than real property through proprietary interest only. Previously these expenditures were charged to operations of the year with the amount charged being included in capital assets and credited to proprietary interest. The change has been applied retroactively to March 31, 1976 and the statement of operations has been restated to reflect this accounting change. The effect of the change on operations is a decrease of \$572,971 in the net cost of operations for 1976. There is no change in proprietary interest.

3. Inventories

The following are major categories of inventories at March 31:

	1977	1976
Supplies .....	\$527,104	\$376,989
Small tools .....	108,991	115,803
Nursery .....	235,077	280,414
	<u>\$871,172</u>	<u>\$773,206</u>

4. Capital assets—Real property

The following are the major categories of real property at March 31:

	1977	1976
Greenbelt .....	\$ 38,604,260	\$ 38,402,672
Parkways .....	54,711,727	52,988,426
Parks .....	22,978,947	20,981,863
Bridges and approaches .....	19,304,329	18,765,999
Historic sites .....	8,615,730	7,240,265
Recreational facilities .....	3,105,399	2,802,253
Property held for development .....	140,373,697	132,573,146
Unsettled expropriations .....	2,900,000	3,500,000
Administration buildings .....	5,604,128	5,079,685
	<u>\$296,198,217</u>	<u>\$282,334,309</u>

5. Loans from Canada

The Commission purchases real property out of funds advanced from the Consolidated Revenue Fund of Canada by way of loans as authorized by Parliament, upon such terms and conditions as to interest, terms of repayment and otherwise as are approved by the Governor in Council.

Interest on loans from Canada is payable semi-annually at rates varying from 4% to 9% and averaging 6.2%. No dates for repayment of principal are specified except that loans are required to be repaid by the full proceeds of sales. Effective April 1, 1974, payment of principal and interest on loans totalling \$38,353,806 borrowed for the purpose of acquiring property in the Greenbelt, has been deferred until March 31, 1979. At March 31, 1977 the deferred interest amounted to \$6,247,041.

6. Vacation and termination pay

Vacation and termination pay included \$64,500 for vacation pay not taken and termination pay for employees who are known to be retiring in 1978, which amounts will be funded from appropriations in that year.

## NATIONAL CAPITAL COMMISSION—Continued

## 7. Capital project operations funds

These funds relate to the National Capital Fund, a special account in the Consolidated Revenue Fund of Canada. Amounts are paid from this Fund to the Commission from time to time as required by the Commission to finance the cost of capital projects approved by the Governor in Council. The balance in the Fund is held on deposit by the Receiver General for Canada and can be paid to the Commission by the Minister of Finance on the recommendation of the Minister of State for Urban Affairs. A summary of transactions in the Fund follows:

	1977	1976
Balance at beginning of year .....	\$ 7,802,521	\$10,121,661
Appropriated for year by Parliament .....	32,000,000	30,000,000
Real property sales—excluding recognized gains .....	714	53,654
	<u>\$39,803,235</u>	<u>\$40,175,315</u>
Capital project expenditures		
Real property .....	\$ 9,084,980	\$ 9,850,525
Contributions and other works .....	9,970,502	22,522,269
	<u>19,055,482</u>	<u>32,372,794</u>
Balance at end of year .....	<u>20,747,753</u>	<u>7,802,521</u>
Represented by:		
Cash on hand .....	\$ 2,747,753	\$ 802,521
Cash on deposit in the National Capital Fund .....	18,000,000	7,000,000
	<u>\$20,747,753</u>	<u>\$ 7,802,521</u>

## 8. Gain on sale of real property

The gain on sale of real property includes a \$1,269,384 adjustment to the \$13,627,771 gain recorded in 1976 relating to the Place du Portage, Place du Centre and Rideau Centre lands transferred to the Department of Public Works. Further adjustments will be made as legal surveys are completed.

## 9. Commitments

(a) Capital assets include the cost of certain properties which will be conveyed at the time of the completion of the legal surveys for the following agreements:

- (i) agreements with the railway companies resulting from the relocation of the Ottawa area railway facilities;
- (ii) agreement with the Province of Quebec for lands to be given free of charge for approaches to the Macdonald-Cartier Bridge;
- (iii) agreement with the City of Ottawa for lands for the Queensway right-of-way from the eastern city limits to the Rideau Canal to be transferred free of charge;
- (iv) agreement with the Province of Quebec for the transfer of lands for \$1 to be used as a right-of-way for the future Highway No. 550; and
- (v) agreement with the Province of Ontario for the transfer of lands for \$1 to be used as a right-of-way for Highway No. 417.

Upon completion of the legal surveys, the cost of the properties will be removed from capital assets and the losses reflected in the Statement of Proprietary Interest as prior years' adjustments. In addition, the Commission has agreed to be responsible for certain landscaping costs on the land to be assigned for transportation purposes.

(b) Subject to being provided with future funds from Parliament, the Commission is committed to make contributions to other levels of government:

- (i) to the Province of Quebec one-half of the cost of a road network within the National Capital Region. The Commission's share during the period 1971-72 to 1981-82 is currently estimated at \$150 million of which \$32 million

has been expended after provision for an estimated amount recoverable of \$2.9 million which is included in Accounts Receivable—Others;

- (ii) to the Province of Quebec and the Outaouais Regional Community one-third of the cost of a regional sewage disposal system. The maximum Commission cost will be \$40 million of which \$11 million has been expended after provision for an estimated amount recoverable of \$3.1 million which is included in Accounts Receivable—Other;

- (iii) to the Province of Ontario and the Regional Municipality of Ottawa-Carleton one-third of the cost of a regional sewage disposal system. The maximum Commission cost will be \$16.1 million of which \$13.5 million has been expended; and

- (iv) under agreement with the Province of Quebec, the Commission is committed to future expenditures totalling \$4 million as a 50% contribution towards the construction of Place d'Accueil in Hull.

## 10. Remuneration of members and officers

Management and general services expenditure includes remuneration of twelve members as members, \$12,500 (1975-76 \$8,800) and remuneration of three officers as officers, \$42,212 (1975-76 \$97,911). At March 31, 1977 the Commission had a total of fifteen members and two officers who were also members.

## 11. Comparative figures

The presentation of the 1976 comparative figures has been amended to conform with the 1977 format and accounting policies.

## 12. Contingent liabilities

(a) Legal action has been taken against the Commission claiming \$4.2 million for wrongful termination of certain agreements. The Commission has denied any liability in its statement of defence and has filed a counter-claim for approximately \$2 million.

(b) Legal action has been taken against the Commission and others, claiming damages estimated at \$1.6 million for nuisance, suffered by 101 homeowners as a result of the disturbance caused during the construction of a collector sewer on Commission property.

NATIONAL CAPITAL COMMISSION—*Continued*

Ottawa, Ontario  
June 30, 1977

THE HONOURABLE ANDRÉ OUELLET, P.C., M.P.  
MINISTER OF STATE FOR URBAN AFFAIRS  
OTTAWA, ONTARIO

I have examined the balance sheet of the National Capital Commission as at March 31, 1977 and the statements of operations, proprietary interest and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such test and other procedures as I considered necessary in the circumstances.

As explained in Note 9 to the financial statements, capital assets include the cost of certain properties which, upon completion of property surveys, will be conveyed to the provinces of Ontario and Quebec, the City of Ottawa and railway companies under existing agreements. At March 31, 1977 determination of the cost and proceeds of disposal had not been finalized, but it is anticipated that the properties will be conveyed at amounts substantially less than cost.

As explained in Note 1 (a) (iii) to the financial statements, the Commission does not provide for depreciation on capital assets which are susceptible to deterioration and obsolescence. Such assets include all or portions of balances representing parkways, bridges and approaches, recreational facilities, property held for development, administration buildings, vehicles, machinery and equipment and office equipment and furniture.

In my opinion, except for the effect of not recording appropriate adjustments for the disposition of properties and the effect of not recording depreciation of capital assets, referred to in the preceding paragraphs, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1977, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting policies described in Note 2 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

## NATIONAL CAPITAL COMMISSION—Continued

## NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1976

## 1. Significant accounting policies

- (a) The Commission's accounts are maintained on the accrual basis.

## (b) Inventories

The following are the major categories of inventories at March 31:

	1975/1976	1974/1975
Supplies .....	\$ 376,989	\$ 303,639
Small tools .....	115,803	155,833
Nursery .....	280,414	317,707
	<u>\$ 773,206</u>	<u>\$ 777,179</u>

Supplies and small tools are carried at cost. Nursery stock is valued at replacement cost less an allowance for overhead, baling and packaging expenses.

## (c) Fixed assets

## (i) Real property

Real property is recorded in the accounts at cost or nominal value. The nominal value represents the original cost of property acquisitions less proceeds from sale of part of the property. All proceeds from sales which occurred up to March 31, 1974 were credited to the asset account. Where the proceeds from such sales exceeded the total costs of acquisitions for a particular group of property, the property group has been valued at \$1. Gains or losses on sales of property since March 31, 1974 are reflected in the Statement of General Operations and the assets are credited with the cost of the property sold. As gains or losses on sales made prior to March 31, 1974 are determined, they are presented as prior year's adjustments to proprietary interest.

The following are the major categories of real property at March 31:

	1975/1976	1974/1975
Greenbelt .....	\$ 38,402,672	\$ 38,196,776
Parkways .....	52,988,426	52,184,384
Parks .....	20,981,863	19,944,282
Bridges and approaches .....	18,765,999	18,553,674
Historic sites .....	7,240,265	2,540,058
Recreational facilities .....	2,802,253	2,179,864
Property held for development ..	132,573,146	114,135,670
Unsettled expropriations .....	3,500,000	2,900,000
Administration buildings .....	5,079,685	4,271,566
	<u>\$ 282,334,309</u>	<u>\$ 254,906,274</u>

## (ii) Other than real property

Fixed assets other than real property are recorded in the accounts at cost. The acquisitions are financed by parliamentary appropriations and general operations are charged with the cost of acquisition less the value received for assets traded in, if any, on the acquisition. The net expenditures charged to operations are included in fixed assets and credited to proprietary interest.

When these assets are disposed of, the difference between the original cost of the asset and the amount received, if any, is recorded as a gain or loss in the Statement of General Operations. All gains or losses arising on disposal or destruction of these assets which occurred prior to March 31, 1974 were charged to the proprietary interest account.

## (iii) Depreciation

In general, fixed assets are not revenue producing and no depreciation is recorded in the accounts. Studies will be undertaken to assess all fixed assets to determine those that are of a depreciable nature and to establish depreciation policies.

## (d) Capital projects

A capital project as set out in the National Capital Act is an expenditure for the acquisition of property, for contributions, or for other works.

The Commission makes expenditures for capital projects which have been specifically approved by the Governor in Council, from funds provided by the National Capital Fund and from sales of real property which were originally acquired out of funds provided by the National Capital Fund. Expenditures made by the Commission from these funds are shown on the Statement of Capital Project Operations and accordingly are not included in the Statement of General Operations. Real property expenditures from these funds are included in the fixed assets and credited to proprietary interest.

The Commission also makes expenditures for acquisitions of real property out of loans from Canada and from general operating funds. These expenditures are not included in the Statement of Capital Project Operations or the Statement of General Operations.

The National Capital Fund is a special account in the Consolidated Revenue Fund of Canada. Funds are provided to it by parliamentary appropriations. Amounts are paid from this Fund to the Commission from time to time as required by the Commission to finance the cost of capital projects approved by the Governor in Council. The balance in the Fund is held on deposit by the Receiver General for Canada and can be paid to the Commission by the Minister of Finance on the recommendation of the Minister of State for Urban Affairs.

Prior to March 31, 1974, any gain on sale of property was not recognized in the accounts. The full proceeds from sale of properties which were acquired out of funds received from the National Capital Fund were used to finance the cost of new capital projects. Proprietary interest was reduced by the amount received from the sales. The sales were accounted for as described under "Fixed Assets".

After March 31, 1974, any gain on sale of real property has been taken into account and credited to general operations. The cost portion of the sale is charged to proprietary interest and credited to capital project operations. These amounts reduce the funds required from the National Capital Fund to finance the cost of approved capital projects.

## (e) Interest and grants in lieu of taxes

The cost of real property does not include interest on loans used to finance the acquisition thereof nor the grants in lieu of taxes thereon. Studies will be undertaken to consider the appropriateness of this policy as it relates to property held for development.

## NATIONAL CAPITAL COMMISSION—Continued

### 2. Effects of changes in accounting policies

#### (a) Inventories

During 1976, the Commission adopted the policy of reflecting inventory changes in the Statement of General Operations. Previously the Commission had adjusted proprietary interest to reflect any increase or decrease in inventory values at the fiscal year end. The accounting change has been applied retroactively and the Statements of General Operations and Proprietary Interest have been restated. The effect of the change is an increase of \$3,973 in net expenditures for 1976 and a decrease of \$285,401 in net expenditures for 1975. There is no change in proprietary interest at March 31, 1976.

#### (b) Destruction or disposal of fixed assets

##### (i) Real property

(a) During 1976, the Commission adopted the policy of reflecting in the Statement of General Operations current year losses arising on destruction or disposal of real property. The Commission also adopted the policy of reflecting disposals of real property which related to prior year's transactions as an adjustment to the opening balance of proprietary interest. Previously, the Commission had recorded all losses arising on destruction or disposal of real property as a decrease in proprietary interest for the year in which the destruction occurred or the deeds relating to the disposal were registered. The accounting change has been applied retroactively and the Statements of General Operations and Proprietary Interest have been restated. The effect of the change is an increase of \$16,742 in net expenditures for 1976 and an increase in net expenditures of \$10,307 for 1975. There is no change in proprietary interest at March 31, 1976.

(b) During 1976, the Commission adopted the policy of crediting the gain on sales of real property to operations. Prior to March 31, 1974 the Commission had used the full proceeds from sale of properties to reduce the carrying value of real property. The change has been applied retroactively to March 31, 1974 and the Statements of General Operations, Capital Project Operations and Proprietary Interest have been restated to reflect this accounting change. The effect of the change on General Operations is a decrease in net expenditures of \$13,808,681 for 1976 and a decrease in net expenditures of \$47,282 for 1975. The effect of the change on Capital Project Operations is a decrease in funds on hand of \$320,926 at March 31, 1976 (1975—\$140,016) and a corresponding increase in proprietary interest of \$320,926 at March 31, 1976.

(c) In addition, the changes in policy have been applied retroactively to adjust certain sales of real property which occurred prior to March 31, 1974. The effect of adjustments made in respect of such sales was an increase in proprietary interest of \$577,041 at March 31, 1974 and a corresponding increase in the carrying value of real property. As gains or losses on other sales made prior to March 31, 1974 are determined they will be presented as prior years' adjustments of proprietary interest.

##### (ii) Other than real property

During 1976, the Commission adopted the policy of reflecting in the Statement of General Operations gains or losses arising on destruction or disposal of fixed assets other than real property. Previously, the Commission had recorded all gains or losses arising on disposal or destruction of fixed assets other than real property as an adjustment to proprietary interest. The

accounting change has been applied retroactively and the Statements of General Operations and Proprietary Interest have been restated. The effect of the change is an increase of \$140,195 in net expenditures for 1976 and an increase in net expenditures of \$58,890 for 1975. There is no change in proprietary interest at March 31, 1976.

#### (c) Provision for employee benefits

During 1976, the Commission adopted the policy of recording in its accounts provisions for severance pay and vacation pay accruing to employees. Previously, the Commission had expensed actual vacation and severance payments in the year of payment. Accordingly, provisions of \$2,361,000 have been recorded as at March 31, 1976 representing the estimated liability for severance pay and vacation pay at that date. The accounting change has been applied retroactively and the Statements of General Operations and Proprietary Interest have been restated. The effect of the change is an increase in net expenditures of \$579,000 for 1976 and an increase in net expenditures of \$337,000 for 1975. The remaining \$1,445,000 is applicable to years prior to April 1, 1974 and has been charged to proprietary interest at that date.

#### (d) Interest on Greenbelt loans

During 1976, the Commission adopted the policy of recording in its accounts a provision for interest on loans from Canada to acquire property in the Greenbelt. Previously, the Commission had not recorded as an expenditure the amount of interest on which payment was deferred. Accordingly, a provision of \$4,167,195 has been recorded as at March 31, 1976 representing the liability for interest at that date. The accounting change has been applied retroactively and the Statements of General Operations and Proprietary Interest have been restated. The effect of the change is an increase in net expenditures of \$2,100,225 for 1976 and an increase in net expenditures of \$2,066,970 for 1975. Proprietary interest is decreased by \$4,167,195 at March 31, 1976.

### 3. Loans from Canada

The Commission purchases real property out of funds advanced from the Consolidated Revenue Fund of Canada by way of loans as authorized by Parliament, upon such terms and conditions as to interest, terms of repayment and otherwise as are approved by the Governor in Council.

Interest on loans from Canada is payable semi-annually at rates varying from 4% to 8 7/16%. No dates for repayment of principal are specified except that loans are required to be repaid by the full proceeds of sales. Effective April 1, 1974, payment of principal and interest on loans totalling \$38,353,905, borrowed for the purpose of acquiring property in the Greenbelt, has been deferred until March 31, 1979. At March 31, 1976 the deferred interest amounted to \$4,167,195.

### 4. Non-repayment of loans

During the year, lands were transferred to the Department of Public Works for a consideration of \$24.7 million. This total included a deposit of \$2.5 million received in 1972. The deposit was used to repay loans in that year.

In ordinary circumstances, the \$22.2 million received from the Department of Public Works would have been used to reduce outstanding loans as the lands had been acquired out of loan appropriations. The terms of the loans require that loans be repaid if the property acquired from such loans is sold, granted, conveyed or otherwise disposed of and further that if the monies received are in excess of what is required to repay the loans, that excess shall be applied against other loans made to the Commission. However, the funds were used to acquire lands in the Centre Core of Ottawa and to pay interest to the Department of Public Works on the deposit in accordance with Treasury Board approvals.

NATIONAL CAPITAL COMMISSION—*Continued*

No provision for this interest was recorded in the accounts of the Commission in prior years. During 1976 the Commission paid interest of \$582,741 to the Department of Public Works. The accounts have been adjusted retroactively and the Statements of General Operations and Proprietary Interest have been restated. The effect of the payment is an increase in net expenditures of \$132,430 for 1976 and an increase in net expenditures of \$150,000 for 1975. The remaining \$300,311 is applicable to years prior to April 1, 1974 and has been charged to proprietary interest at that date.

A gain of approximately \$13.6 million was realized on the transaction after provision for \$2 million which represents the estimated cost of land to be transferred to the City of Hull in exchange for land which was included in the transaction with the Department of Public Works. The gain on sale has been included with other revenue in the Statement of General Operations.

## 5. Commitments

(a) Fixed assets include the cost of certain properties which will be conveyed at the time of the completion of the legal surveys for the following agreements:

- (i) agreement with the railway companies resulting from the relocation of the Ottawa area railway facilities;
- (ii) agreements with the Province of Ontario and the Province of Quebec for lands to be given free of charge for approaches to the Macdonald-Cartier Bridge;
- (iii) agreements with the City of Ottawa for lands for Riverside Drive to be transferred at 50% of their book value and for lands for the Queensway right-of-way from the eastern city limits to the Rideau Canal free of charge;
- (iv) agreement with the Province of Quebec for the transfer of lands for \$1 to be used as a right-of-way for the future Highway No. 550; and
- (v) agreement with the Province of Ontario for the transfer of lands for \$1 to be used as a right-of-way for Highway No. 417.

Upon completion of the legal surveys, the cost of the properties will be removed from fixed assets and reflected in the Statement of Capital Project Operations as contributions with a corresponding decrease in proprietary interest. In addition, the Commission has agreed to be responsible for certain landscaping costs on the land to be assigned for transportation purposes.

(b) Subject to being provided with future funds from Parliament, the Commission is committed to make contributions to other levels of government:

- (i) to the Province of Quebec one-half of the cost of a road network within the National Capital Region. The Commission's share during the period 1971-72 to 1981-82 is currently estimated at \$105 million of which \$30 million has been expended after provision for an estimated amount recoverable of \$3.1 million which is included in Accounts Receivable—Others;
- (ii) to the Province of Quebec and the Outaouais Regional Community one-third of the cost of a regional sewage disposal system. The maximum Commission cost will be \$40 million of which \$9 million has been expended and of which \$2.6 million will be recoverable upon completion and final inspection of the works; and
- (iii) to the Province of Ontario and the Regional Municipality of Ottawa-Carleton one-third of the cost of a regional sewage disposal system. The maximum Commission cost will be \$25 million of which \$12 million has been expended.

## 6. Remuneration of members and officers

Management and general services expenditure includes remuneration of nine members as members, \$8,800 (1974-75 \$12,800), and remuneration of three officers as officers, \$97,911 (1974-75 \$96,238). The Commission had sixteen members and three officers. Two officers were also members.

## 7. Comparative figures

The presentation of the 1975 comparative figures has been amended to conform with the 1976 format and accounting policies.

NATIONAL CAPITAL COMMISSION—*Concluded*

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
July 26, 1976

THE HONOURABLE BARNEY DANSON, P.C., M.P.,  
MINISTER OF STATE FOR URBAN AFFAIRS,  
OTTAWA, ONTARIO.

Dear Mr. Danson,

I have examined the balance sheet of the National Capital Commission as at March 31, 1976, and the statements of capital project operations, general operations, proprietary interest and changes in financial position for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

As explained in Note 5 to the financial statements, fixed assets include the cost of certain properties which, upon completion of property surveys, will be conveyed to the Provinces of Ontario and Quebec, the City of Ottawa and railway companies under existing agreements. At March 31, 1976, determination of the cost and proceeds of disposal had not been finalized, but it is anticipated that the properties will be conveyed at amounts substantially less than cost.

As explained in Note 1(c) to the financial statements, the Commission does not provide for depreciation on capital assets which are susceptible to deterioration and obsolescence. Such assets include all or portions of balances representing parkways, bridges and approaches, recreational facilities, property held for development, administration buildings, vehicles, machinery and equipment and office equipment and furniture.

In my opinion, except for the effect of not recording appropriate adjustments for the disposition of properties and the effect of not recording depreciation of fixed assets, referred to in the preceding paragraphs, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1976, and the results of its operations and the changes in financial position for the year then ended, in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes in accounting policies described in Note 2 to the financial statements, on a basis consistent with that of the preceding year.

As explained in Note 4 to the financial statements, the Commission financed the purchase of lands in the Ottawa centre core with proceeds from certain properties transferred to the Department of Public Works (D.P.W.). The acquisition costs of the properties transferred to D.P.W. had been financed by loans from Canada which, under the terms approved by the Governor in Council, were repayable from the amount realized on disposal of the properties with any excess being applied in repayment of other loans made to the Commission by Canada. In my opinion, the \$22.2 million received from D.P.W. should have been applied against outstanding loans from Canada as required by the Governor in Council. The funds would not then have been available for acquiring Ottawa centre core lands and parliamentary authority would have been required to provide the necessary funds.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and, except for the failure to repay loans from Canada referred to in the preceding paragraph, the transactions that have come under my notice have been within its statutory powers.

Yours sincerely,

J. J. MACDONELL  
*Auditor General of Canada*

## NATIONAL HARBOURS BOARD—Continued

NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 1976

## 1. Accounting Policies

## (a) Financial Statements

The financial statements of the National Harbours Board include the accounts of all the ports and other facilities under its administration.

## (b) Investments

Investments are shown at amortized cost, with premium or discount amortized over the periods to maturity dates. Investments are in Government of Canada direct and guaranteed securities.

## (c) Fixed Assets and Depreciation

Assets are recorded at cost except for those transferred to the Board from the Crown which are recorded at estimated values. Depreciation, as in previous years, has been calculated on the straight-line method using rates based on the estimated useful lives of the assets.

(\$Millions)

Asset	Cost	Accumulated Depreciation	Net	Average Life
<b>Depreciable</b>				
Berthing Facilities .....	169	64	105	55
Terminal Facilities .....	126	29	97	37
Grain and Harbour				
Buildings .....	100	41	59	40
Bridges .....	73	14	59	100
All Others .....	47	21	26	Various
<b>Non-Depreciable</b>				
Land, Fill, Dredging .....	148		148	Indefinite
Work under Construction .....	17		17	
	<u>680</u>	<u>169</u>	<u>511</u>	

Each of the depreciable groupings above contains various types of assets with expected useful lives ranging from 5 to 100 years.

In view of recent technological changes, the Board directed that a review of its present depreciation policy be carried out. This project was not started in 1976 as originally planned due to the impending new ports legislation. The development of the new ports policy has advanced sufficiently in the latter part of 1976 and the Board now has engaged a firm of consultants to carry out this review which is expected to be completed during 1977. In 1976 the Board applied depreciation rates to fixed asset additions which vary from those applied to similar existing assets to reflect current technological conditions.

The Board's policy is to capitalize additions, purchases of assets, and original dredging costs which provide long-term benefit.

Expenditures for maintenance and repairs are charged to operating expenses as incurred.

## (d) Appropriations from Parliament

Amounts received by the Board from parliamentary appropriations to cover certain operating losses are credited to the deficit account. Treasury Board has approved the Board's submission for recovery of operating losses incurred at the Ports of Halifax, Prince Rupert, and Baie des Ha! Ha!, in the amount of approximately \$566,000.

The requested amounts are not reflected in these financial statements.

## (e) Pension Costs

Annual pension contributions are charged to operations in the amounts paid to the Public Service Superannuation Account.

## (f) Insurance

The Board assumes the risks against fire and general perils, as well as for workmen's compensation claims.

## 2. Long-Term Agreements of Sale

The long-term agreements of sale are receivable over periods up to 31 years with interest at rates varying from 5¼% to 9% and comprise \$7,169,368 in respect of the sale of two grain elevators at Vancouver and \$1,339,035 in respect of the sale of real property at Montreal. Of the total amount of \$8,508,403, \$8,231,563 is shown as the long-term portion and \$276,840 receivable within one year is included under current assets.

## 3. Debentures of Saint John Harbour Bridge Authority

The debentures, bearing interest at rates from 6 11/16% to 8¼%, were acquired in accordance with the provisions of Vote L106b, Appropriation Act No. 7, 1967, 1967-68, c.8, which also authorized advances to the Board for such purposes.

The total amount of the debentures is \$14,940,921 comprised of \$14,883,664 shown as non-current assets and \$57,257 receivable in 1977.

The interest and repayment terms of the parliamentary advances to the Board are identical to those of the debentures and are included in Loans and Advances. The resultant off-setting income and expense amounting to \$1,023,801 is not reflected in the statement of operations.

## 4. Burrard Inlet Crossing

Engineering studies were made in 1969 and 1970 to determine the exact location for a new crossing and to make designs of both a tunnel and a bridge. As no work has been carried out on this project since 1970, the Board has written off the intangible asset as an extraordinary item and transferred the related loans amounting to \$4,290,509 to Loans and Advances and interest of \$2,225,294 to Interest in Arrears.

## 5. Financing Provided by Province

Under an agreement dated July 13, 1972, the Province of New Brunswick advanced \$25,000,000 to partially finance the construction of Rodney Terminal, Saint John, which is owned by the Board.

The new Agreement effective January 1, 1976, calls for the equal sharing of net operating income from the terminal until the Province's capital investment, without interest, is repaid.

Under the old Agreement, the Province had agreed to pay the undepreciated value of the assets demolished as part of the construction of Rodney Terminal, which amounted to \$2,570,199.

As a result of the new agreement, this amount which was included in Deferred Accounts Receivable at December 31, 1975, is no longer receivable from the Province and has been written off and treated as an extraordinary item in 1976.

## 6. Loans and Advances

Although interest on outstanding loans and advances is payable semi-annually at rates varying from 2¼% to 10% (average of 4.6%), no dates for repayment of principal are specified for certificates of indebtedness issued prior to 1970. At December 31, 1976, principal in arrears related to loans received after July 8, 1970, amounted to \$2,136,000. Future repayments required with respect to loans received after that date are:

## NATIONAL HARBOURS BOARD—Continued

(\$000's)

1977— 2,204

1978— 2,399

1979— 2,612

1980— 2,844

1981— 3,096

after 1981—49,631

At December 31, 1976, certificates of indebtedness relating to loans from Canada amounting to \$267,594,000 had expired.

Interest in arrears increased by \$18,918,740, (\$18,902,443 in 1975) to a total of \$240,331,826 at December 31, 1976. Included in this increase is \$338,949 related to the Burrard Inlet Crossing. No interest is calculated on interest in arrears.

## 7. Operation of the Port of Vancouver

Effective December 1, 1975, the Port of Vancouver entered into new terminal operations agreements whereby the Board, as terminal operator, contracts directly for stevedoring services.

To reflect the operational responsibilities assumed by the Board, the financial statements include the gross revenues and expenses of the Vancouver port. As a result, revenues and expenses are increased by \$20,498,315 in 1976 and \$991,531 in 1975.

## 8. Contingent Liabilities

Claims aggregating approximately \$10,800,000 in respect of lawsuits, guarantees, employee agreements, damage allegedly suffered on the Board's property and sundry other matters in dispute have been received by the Board. In the opinion of the Board and its legal advisers, the Board's position is defensible and the final outcome of such claims should not result in any material financial liability.

## 9. Restatement of Comparative Figures

During 1976, changes were made to improve the classification of certain items and for comparative purposes the related figures for 1975 have been restated.

## 10. Grants in Lieu of Municipal Taxes

Grants in lieu of municipal taxes are provided based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Additional amounts for prior years' grants totalling \$833,986 are included in the current expense of \$9,542,750.

## 11. Anti-Inflation Legislation

The Board is subject to controls on employees' compensation under the terms of the Federal Government's Anti-Inflation Legislation which became effective October 14, 1975. User charge increases are controlled by Treasury Board. The Board is in compliance with these controls.

## SCHEDULE 1

## SCHEDULE OF NET OPERATING (LOSS) OR GAIN BEFORE NET INTEREST EXPENSE AND EXTRAORDINARY ITEMS BY PORT FOR THE YEAR ENDED DECEMBER 31, 1976

(Prepared Without Audit)

(\$000's)

**NATIONAL HARBOURS BOARD—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
March 4, 1977

THE HONOURABLE OTTO E. LANG, P.C., M.P.,  
MINISTER OF TRANSPORT,  
OTTAWA, ONTARIO.

Dear Sir:

I have examined the balance sheet of the National Harbours Board as at December 31, 1976 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained in the following paragraph.

As disclosed in Note (1c) to the financial statements, the Board has not completed a review of its depreciation policies and rates and has applied a range of rates in the current year. In the absence of adequate documentation supporting the estimated useful lives of the various fixed assets of the Board, I was unable to obtain sufficient evidence to form an opinion regarding the adequacy of the provision for depreciation for the year ended December 31, 1976 and the accumulated depreciation at the date.

In my opinion, except for the effect of any required adjustments which might have been disclosed if adequate documentation of the estimated useful lives of fixed assets had been available, the accompanying financial statements give a true and fair view of the financial position of the National Harbours Board as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the National Harbours Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

---

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 1977

## 1. Significant accounting policies

## Inventories

Inventories of operating and general supplies are valued at the lower of cost and estimated replacement cost.

## Property and equipment

Property and equipment, with the exception of those gifted to the Commission by Canada and others which have been recorded at nominal value, are carried at cost less accumulated depreciation. Costs of additions, betterments and major renewals are capitalized. In addition to direct payments for goods and services, project costs include interest at current rates on funds used during construction; engineering and technical support expense which is charged to capital projects on the basis of time reported at appropriate labour and overhead rates; and a share of general administration expense which is charged to capital projects as a percentage of direct costs. Repair and maintenance costs are charged to expense when incurred.

## Depreciation

Depreciation on fixed assets purchased out of loans from Canada is calculated using the sinking fund method. This has the effect of charging as depreciation an amount equivalent to the principal repayment of the associated loan which itself is amortized using the annuity method, over the estimated economic life of the asset. The Commission charges straight-line depreciation over the estimated economic life on assets purchased from internally generated funds, and on the head office building.

The following are the estimated economic lives of the principal classes of assets:

Hydro-electric plants	30-40 years
Diesel engines and associated equipment	15 years
Fuel storage equipment	20 years
Buildings	20 years
Heating systems	20 years
Transmission and distribution systems	20 years
Office and general equipment	10 years
Motor vehicles	4 years

## Deferred charges

Deferred charges represent the unamortized costs of relocating the head office from Ottawa to Edmonton, preproduction costs, and computer software, all of which are being written off to expense over a period of five years; together with project site investigation costs, which are to be claimed from Canada if projects are not proceeded with, under the provisions of section 14(3) of the Northern Canada Power Commission Act.

Accumulated amortization to March 31, 1977 amounted to \$217,000.

## Insurance

The Commission takes out full commercial insurance coverage against identified risk, including assets subject to risk of loss, and third party liability, in accordance with a comprehensive risk management program.

## 2. Loans from Canada

The Commission receives funds for capital expenditures by way of interest-bearing loans from Canada. Interest at current rates is accrued during the course of construction of a project, and added to the amount borrowed. Upon completion of each project, the total loan including accrued interest is repaid by equal annual instalments of principal and interest over the estimated economic life of the related asset which varies from four to forty years.

At March 31, 1977, these loans carry interest rates ranging from 3.125% to 10.375% and mature, as follows:

	Principal	Interest
	(thousands of dollars)	
1978 .....	3,544	14,076
1979 .....	3,807	13,806
1980 .....	4,089	13,524
1981 .....	4,394	13,219
1982 .....	4,392	12,891
1983 and later .....	160,309	
	<u>180,535</u>	

During the current year, the average interest rate on loans on completed projects was 6.8%.

## 3. Statement of deficit

Under the provisions of section 14(3) of the Northern Canada Power Commission Act, Canada reimbursed the cost of investigation of various capital projects which were not proceeded with. The retained earnings balance as at March 31, 1976 has been restated to show the prior years' recovery of \$740,000, of which \$249,000 is applicable to the year prior to April 1, 1975.

## 4. Transfer of Moose Factory operations

On January 1, 1977 the Commission transferred its operations at Moose Factory, Ontario to the Department of National Health and Welfare of the Government of Canada. The Department was given title to the assets and assumed the liabilities related to these operations. Proceeds to the Commission, as a result of this transfer were computed by reference to the net book values of the assets minus net revenues experienced in the years during which the Commission operated these facilities. Net book value of the assets exceeded proceeds to the Commission by \$181,000.

## NORTHERN CANADA POWER COMMISSION—*Concluded*

### 5. Contingent liabilities

Recognition of lawsuits against the Commission at March 31, 1977 has been made in the accounts, in an amount which the Commission considers adequate to provide for any settlement which may arise out of such claims.

Ottawa, Ontario  
August 23, 1977

### 6. Fixed asset commitments

Commitments for the completion of capital projects under construction and on contractual obligations for services and equipment to be delivered amount to approximately \$6,000,000 at March 31, 1977.

### 7. Regulation

As a Federal Crown corporation, the Commission is required to comply with the Anti-Inflation Act and related Regulations, which provide for the restraint of profit margins, prices, dividends and employee compensation. The Commission has complied with the legislation in every respect.

Rates established by the Commission require the approval of Governor in Council. Although not required by law to do so, the Commission also provides full information on proposed rates to the Territorial Public Utilities Boards, and conforms to their rulings where these do not conflict with section 10 of the Northern Canada Power Commission Act.

### 8. Supplementary information

- (a) Certain 1976 accounts have been reclassified for the purpose of comparison with 1977 accounts.
- (b) During 1976-77, the Commission engaged the services of S.N.C. Tottrup Services Ltd. and J. Vogelsang as procurement agents for certain construction materials and paid an aggregate of \$16,571 in remuneration for their services.

THE HONOURABLE WARREN ALLMAND, P.C., M.P.  
MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT  
OTTAWA, ONTARIO.

I have examined the balance sheet of Northern Canada Power Commission as at March 31, 1977 and the statements of income, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS AT DECEMBER 31, 1976

### 1. Accounting Policies

#### Principles of Consolidation

The consolidated financial statements include the accounts of the company and its subsidiaries, Yellowknife Transportation Company Limited and Grimshaw Trucking and Distributing Ltd. both of which are wholly owned. Goodwill arising on acquisition has been written off.

#### Operating and General Supplies

Operating and general supplies are valued at the lower of cost or estimated replacement cost.

#### Depreciation

Boats and barges are depreciated on a unit of production basis taking into account their estimated ton-mile productive capacity over a 15 year period with a minimum depreciation charge of four per cent per annum calculated on a 25 year maximum useful life. The cost of other depreciable assets is amortized over their estimated useful lives on a straight-line basis.

#### Insurance Investment Fund—Provision For Insurance

It is the policy of the company to carry general and third party liability insurance. The company is self-insured for physical loss or damage to real property and equipment except for marine floating equipment based at Churchill, Manitoba, buildings and certain other equipment which are insured in total for \$24,300,000. A fund in respect of self-insured losses is being established by annual charges against income.

### 2. Property and Equipment:

	1976	1975	Basis of Depreciation
<b>Land</b> .....	\$ 1,511,911	\$ 1,496,761	
Boats and barges .....	57,755,703	58,379,702	ton-mile basis
Other equipment .....	15,981,258	16,332,123	5 to 10 years
Buildings, other structures and site development .....	18,041,962	17,938,739	10 to 20 years
	<u>93,290,834</u>	<u>94,147,325</u>	
Accumulated depreciation .....	42,908,288	39,465,003	
	<u>\$50,382,546</u>	<u>\$54,682,322</u>	

### 3. Extra-Provincial Trucking Authorities

The cost of intangible assets has been written off during the year.

# NORTHERN TRANSPORTATION COMPANY LIMITED AND SUBSIDIARY COMPANIES—Continued

## 4. Bank Indebtedness

The accounts receivable of a subsidiary company are assigned as collateral security.

## 5. Long-Term Debt

Loans from Canada totalling \$40,700,000 are repayable in varying annual amounts through 1991 and bear interest at an average weighted rate of 7.68 per cent. A mortgage of \$166,490 is owing by a subsidiary company. The mortgage bears interest at the prime bank rate plus 1¼ per cent. It is secured by a charge against that company's property and is repayable in equal monthly installments through April 1983. Aggregate repayment requirements over the next five years are as follows:

1977	\$155,000
1978	169,000
1979	185,000
1980	201,000
1981	219,000

## 6. Share Capital—Long-Term Debt

Supplementary letters patent were issued during the year increasing the authorized capital of the company by 350,000 common shares of no par value. Subsequent to this and pursuant to Order-In-Council P.C. 1976-2607, loans and advances from Canada totalling \$24,900,000 were converted into 249,000 fully paid no par value common shares.

## 7. Contributed Surplus—Deficit

During the year \$1,036,186 was transferred from contributed surplus and applied against the accumulated deficit.

## 8. Parliamentary Appropriation

Parliament approved payment of \$202,042 to the company to defray the excess of costs incurred over revenue earned from the 1976 Keewatin resupply operation.

## 9. Change in Accounting Policy

The method of computing depreciation on boats and barges was changed during the year to more closely match the depreciation charge with the level of capacity actually utilized in any given year. Had the previous method of depreciating the cost over 15 years on a straightline basis been used in 1976, the net loss for the year would have increased by \$1,280,000. The comparative figures have not been restated to reflect this change.

## 10. Income Taxes

The company has a tax loss carry forward of approximately \$577,000 which can be applied to reduce income otherwise taxable, earned during the next five years. In addition, the company has claimed for income tax purposes certain expenses, principally capital cost allowances on depreciable assets, in amounts lower than those charged against operations. Accordingly, income taxes payable on income of future years may be reduced by claiming allowances for tax purposes in excess of amounts charged against operations. At December 31, 1976, the undepreciated capital cost exceeds the net book value of depreciable assets by approximately \$13,500,000.

## 11. Comparative Figures

Certain reclassifications have been made in the accounts in 1976 and the 1975 figures presented for comparative purposes have been restated to conform with the revised classifications. Reported earnings are unaffected by these changes.

## 12. Lease Commitments

The company leases certain equipment, land and real estate under long-term contracts and is committed in 1977 to rental payments of \$544,000; 1978—\$399,000; 1979—\$304,000; 1980—\$283,000 and 1981—\$101,000.

## 13. Pension Plan

The company participates in the Eldorado Pension Plan (1959) covering all the regular employees of Northern Transportation Company Limited. Annual pension costs are funded and accounted for at rates confirmed by the consulting actuary pursuant to periodic actuarial valuations. An interim review as of December 31, 1975, on the position of the pension fund indicates an estimated deficiency attributable to Northern Transportation Company Limited of \$1,100,000. Annual payments over the next five years of approximately \$185,000 would be required to fund a liability of this amount. An actuarial report as of December 31, 1976, is currently in progress and the results thereof will determine the actual contributions required from the company to meet the deficiency, pursuant to the trust deed and the Pension Benefits Standards Act.

## 14. Remuneration of Directors and Officers

	1976		1975	
	Number	Amount	Number	Amount
Northern Transportation Company Limited				
As directors .....	11	\$ 8,500	11	\$ 8,750
As officers .....	5	165,500	8	274,138
Officers who also served as directors .....	3		3	
Grimshaw Trucking and Distributing Ltd.				
As directors .....	5	1,500	6	2,000
As officers .....	3	30,000	5	30,000
Officers who also served as directors .....	2		2	

The number and remuneration of directors and officers reported above includes all persons who acted in either capacity at any time during the year.

## 15. Federal Anti-Inflation Legislation

The company is subject to the Anti-Inflation Act which provides for the restraint of profit margins, prices, dividends and compensation. Management is of the opinion that the company has complied with the intent of the Act and Regulations and that no significant liability will arise as a result of the legislation.

**NORTHERN TRANSPORTATION COMPANY LIMITED  
AND SUBSIDIARY COMPANIES—*Concluded***

AUDITOR GENERAL OF CANADA

Ottawa, Ontario,  
February 18, 1977.

THE HONOURABLE OTTO LANG, P.C., M.P.,  
MINISTER OF TRANSPORT,  
OTTAWA, ONTARIO.

Dear Mr. Lang,

I have examined the consolidated balance sheet of Northern Transportation Company Limited as at December 31, 1976 and the consolidated statements of income and expense, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements give a true and fair view of the financial position of the Company as at December 31, 1976 and the results of its operations and the changes in financial position for the year then ended in accordance with generally accepted accounting principles applied, except for the change in depreciation policy referred to in Note 9 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

Yours sincerely,

J. J. MACDONELL  
*Auditor General of Canada.*

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 1976

## 1. Significant accounting policies

## (a) Parliamentary appropriations

The Pacific Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. It is the practice to recover from parliamentary appropriations any deficit, including capital expenditure, until revenue from pilotage charges is sufficient to permit the Authority to operate on a self-sustaining basis. The Authority has operated on a self-sustaining basis since March 31, 1976. Amounts received from appropriations that have not been used are shown under current liabilities as Due to Canada in respect of parliamentary appropriations until refunded to the Consolidated Revenue Fund.

## (b) Depreciation

Depreciation of capital assets is calculated on a straight-line basis and is based on the estimated useful life of the asset as follows:

Buildings	20 years
Pilot boats	20 years
Floats	10 years
Communication equipment	10 years
Office furniture and equipment	10 years
Leasehold improvements	5 years

Although charged in the Statement of Operations depreciation is not recovered from parliamentary appropriations.

## (c) Contributed capital

Amounts representing the values assigned to assets transferred to Authority from Canada in 1972, plus the cost of capital assets financed from parliamentary appropriations, are shown as contributed capital.

## 2. Fixed assets

At December 31, 1976 the fixed assets and related accumulated depreciation were as follows:

	1976		1975	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Buildings .....	\$ 40,000	\$ 9,837	\$ 40,000	\$ 7,831
Floats .....	9,810	3,509	9,810	2,528
Pilot boats .....	461,615	119,017	461,615	94,286
Communication equipment .....	204,338	79,220	203,863	57,797
Office furniture and equipment .....	37,562	17,661	37,242	13,817
Leasehold improvements ..	8,564	8,564	8,564	6,619
	\$761,889	\$237,808	\$761,094	\$182,884

## 3. Prior years' adjustments

In previous years an account was maintained within Equity of Canada entitled Residual value of capital assets financed from parliamentary appropriations. This account was credited with values assigned to assets transferred by Canada to the Authority in 1972 plus the cost of fixed assets financed from parliamentary appropriations since that date. The account was reduced by depreciation and the net book value of assets disposed of and the deficit was reduced by a corresponding amount. Under the new policy, gains or losses on disposal of fixed assets are recorded in the Statement of Operations and contributed capital represents the original value assigned to assets transferred in 1972 plus the cost of fixed assets financed from parliamentary appropriations since that date. As a result of the retroactive application of this change in accounting policy, contributed capital at December 31, 1974 increased by \$168,807 and the deficit at that date increased by a corresponding amount; for the 1975 year, contributed capital increased by \$59,105 and the deficit increased by a similar amount.

## 4. Pilots' travel expenses

Pilots' travel expenses charged to ships' agents previously not shown on the financial statements, of \$606,851 for 1976 and \$469,969 for 1975, are included in income-pilotage charges and the corresponding expenses included in transportation and travel expenditure. The 1975 comparative figures have been restated to conform with this presentation. This change has had no effect on the determination of net income (loss) in either year.

## 5. Long-term commitments

The Authority has outstanding commitments as follows:

- In respect of a bare boat charter under which it is required to pay an annual rental of \$32,229 up to and including 1988.
- In respect of a contract for the provision of launch services involving an annual payment, which may vary according to changes in costs and usage, up to and including 1991. The amount payable in 1977 is expected to be \$184,320.

These two commitments may be terminated at the discretion of the Authority on the exercise of its option to purchase the vessels. The option price with respect to the first vessel is \$243,000 and to the second \$434,000.

## 6. Contingent liabilities

Contingent liabilities exist with respect to:

- Legal actions wherein shipping companies dispute the legality of the regulations pursuant to which the Authority has collected compulsory pilotage of \$82,585. In the opinion of legal counsel the Authority has a valid defence.
- Matching past service superannuation contributions of employees pursuant to section 10 of the Pilotage Act. The Authority's responsibility for payment of 50 percent of total required contributions of \$160,000 is under review.

**PACIFIC PILOTAGE AUTHORITY—Concluded****7. Anti-inflation legislation**

Under P.C. 1976-3079 of December 10, 1976 with retroactive effect from May 27, 1976 the Authority is subject to the Anti-inflation Act and the regulations promulgated thereunder, which provide for restraints of prices, profit margins and compensation of employees.

Ottawa, Ontario  
March 21, 1977

**8. Remuneration of members and officers**

Expense includes remuneration of members as members, \$12,150 (1975—\$16,035), and remuneration of officers as officers, \$42,201 (1975—\$34,917). The Authority has seven members and two officers. One officer is also a member.

THE HONOURABLE OTTO E. LANG, P.C., M.P.  
MINISTER OF TRANSPORT  
OTTAWA, ONTARIO

I have examined the balance sheet of the Pacific Pilotage Authority as at December 31, 1976 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the accounting changes described in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

## PETRO-CANADA—Continued

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 1976

(tabular amounts shown in thousands of dollars)

## 1. Summary of Significant Accounting Policies

## (a) Basis of Consolidation

The consolidated financial statements include the accounts of Petro-Canada ("the Corporation") and its wholly owned subsidiary, Petro-Canada Exploration Inc., (formerly Atlantic Richfield Canada Ltd.).

## (b) Inventories

Inventories are valued at the lower of cost and net realizable value.

## (c) Panarctic Oils Ltd.

The Corporation accounts for its investment in Panarctic Oils Ltd. on the equity method. The activities of Panarctic Oils Ltd. are in the exploratory stage and all expenses less sundry income have been capitalized; the company is deemed not to have earned a profit or sustained a loss.

## (d) Property, Plant and Equipment

The Corporation follows the full cost method of accounting for oil and gas properties whereby all costs relating to the exploration for and development of oil and gas reserves are capitalized. Such costs include lease acquisition costs, geological and geophysical expenses, carrying charges of non-producing properties, cost of drilling both productive and non-productive wells and overhead expenses related to exploration activities.

The costs incurred in Canada, except as noted below, are depleted on the unit of production method based on estimated proven oil and gas reserves. For purposes of calculating depletion, natural gas production and reserves are converted to equivalent barrels of crude oil based on the relative energy content of each commodity. In addition, separate cost centres have been established for each of the Frontier areas, presently comprising Mackenzie Delta/Beaufort Sea, Arctic Islands, Labrador Shelf and Scotian Shelf. Annual costs accumulated in these separate cost centres are amortized on a straight line basis over the period during which exploration activity in each area is expected to continue. Where exploration proves to be successful, amortization will be suspended and the unamortized balance of the cost centre will be depleted on the unit of production method when production commences. Where exploration proves to be unsuccessful and the cost centre is condemned or abandoned, the unamortized balance of that cost centre will be charged to earnings at that time.

Bituminous Sands costs are accumulated in separate cost centres and will be depleted on the unit of production method when production commences.

Depreciation of plant and production equipment directly associated with oil and gas activities is provided on the unit of production method.

Depreciation of other property and equipment is provided on the straight line method at rates varying from 5% to 25%, designed to amortize the cost of the assets over their estimated useful lives.

## (e) Polar Gas Project

The Corporation is deferring costs relating to its participation in the Polar Gas Project. These costs presently consist of feasibility studies relating to a gas transmission system from the Arctic Islands to Eastern Canada. Under the participation agreement, subject to the project's feasibility and approval by the necessary regulatory bodies, the participants shall be entitled to have the costs they have incurred treated as an

equity investment in a company incorporated to construct and operate the transmission facilities, or be reimbursed out of any financing of such company. In the event the project does not proceed, costs will be charged to earnings at that time.

## (f) Income Taxes

The Corporation makes full provision for income taxes deferred as the result of claiming tax depreciation and exploration and development costs which exceed the related amounts charged to expense in the financial statements (Note 7).

## 2. Incorporation

The Corporation was incorporated pursuant to an Act of the Parliament of Canada which received Royal Assent on July 30, 1975. The inaugural meeting of the Board of Directors was held on January 20, 1976 after which operations commenced.

## 3. Acquisition of Subsidiary Company

Effective August 1, 1976 the Corporation acquired, for a cash consideration of \$342,440,000, all of the issued shares of Atlantic Richfield Canada Ltd. (now Petro-Canada Exploration Inc.), a company involved in the exploration for and production of oil and gas in Canada. The Corporation's consolidated earnings include the earnings of the subsidiary company since August 1, 1976. Details of the acquisition, which has been accounted for by the purchase method, are as follows:

Book value of acquired assets .....	\$179,944
Book value of assumed liabilities .....	53,239
	<u>126,705</u>
Excess of assigned value over book value of acquired net assets	
Petroleum and natural gas properties .....	\$208,972
Bituminous Sands leases .....	6,763
	<u>215,735</u>
Cost of acquisition .....	<u>\$342,440</u>

The excess of assigned value over book value of acquired net assets is subject to the accounting policies outlined in Note 1 (d).

## 4. Panarctic Oils Ltd.

During the period the Corporation acquired the investment of the Government of Canada in Panarctic Oils Ltd. which consisted of:

Common shares (representing 45% of the issued and fully paid common shares) .....	\$78,131
1976/1977 financing advance .....	1,869
	<u>\$80,000</u>

The common shares of Panarctic Oils Ltd. are not traded on the open market and therefore do not have a quoted market value.

## 5. Property, Plant and Equipment

	Cost	Accumulated Depreciation, Depletion and Amortization	Net
Oil and gas properties			
—Non-Frontier areas .....	\$330,116	\$7,226	\$322,890

Other property and equipment .....	3,901	150	3,751
	<u>\$585,163</u>	<u>\$8,854</u>	<u>\$576,309</u>

## PETRO-CANADA—Continued

The Composition of the amounts accumulated in respect of depreciation, depletion and amortization is as follows:

Depreciation .....	\$ 1,082
Depletion.....	7,226
Amortization .....	546
	<u>\$ 8,854</u>

### 6. Income Debentures

On August 4, 1976 the Corporation issued an Income Debenture to a Canadian chartered bank in the amount of \$240 million, due on February 1, 1977 and bearing interest at approximately 52% of that bank's prime lending rate, as announced from time to time. No deduction is allowed under the Income Tax Act for interest expense related to the Income Debenture (Note 7). Subsequent to December 31, 1976 the Corporation repaid the Income Debenture from funds obtained by issuing Bank Income Debentures in the amount of \$240 million to the same bank and under similar terms.

While the Bank Income Debentures are not secured by any charge against the assets of the Corporation, there are certain restrictions with respect to the disposition or encumbrance of the investment by the Corporation in its subsidiary company.

The Bank Income Debentures bear maturity dates from December 31, 1977 to December 31, 1983 and require repayments in each of the next five years as follows:

1977—\$10 million, 1978—\$20 million, 1979—\$30 million, 1980—\$40 million, 1981—\$50 million.

### 7. Income Taxes

The provision for income taxes of \$11,216,000 differs from the result which would be obtained by applying the combined Canadian Federal and Provincial income tax rate of 47% to the earnings before income taxes of \$14,549,000. This difference results from the following items:

	Amount	Percentage of earnings before income taxes
Computed "expected" tax expense .....	\$6,838	47.0%
Increase (decrease) in taxes resulting from:		
Royalties and other payments to Provincial Governments .....	9,462	65.0
Refund of taxes under Provincial rebate plans....	(1,126)	(7.7)
Tax depletion on Canadian production income ..	(3,402)	(23.4)
Federal resource allowance .....	(5,060)	(34.8)
Non-deductible interest on Income Debentures (Note 6) .....	2,424	16.7
Amortization of excess of assigned value over book value of assets acquired on purchase of subsidiary company (Note 3) .....	2,080	14.3
Provision for income taxes .....	<u>\$11,216</u>	<u>77.1%</u>

The wholly owned subsidiary, Petro-Canada Exploration Inc. (formerly Atlantic Richfield Canada Ltd.) is not subject to income tax pursuant to Section 149 (1) (d) of the Income Tax Act. The Government of Canada has proposed legislation excluding Petro-Canada Exploration Inc. from the exemption from taxation provided under the Income Tax Act. Income taxes have been provided based upon the proposed legislation.

### 8. Capital Stock

Authorized:

The initial authorized capital of the Corporation was \$500 million divided into 100 common shares of the par value of \$5 million each. This was increased to 116 common shares on the acquisition of the capital of Panarctic Oils Ltd.

Pursuant to the Petro-Canada Act, and subject to certain conditions and limitations as to the aggregate amount, the authorized capital of the Corporation is increased by the issue of preferred shares. Accordingly, at any time, the authorized and issued preferred shares are identical. At December 31, 1976, 158,799,853 preferred shares of the par value of \$1 each had been issued. Such preferred shares, which are redeemable at par at the option of the Corporation, carry no stated rate of dividend and are non-cumulative.

Issued:

	Number of Shares	Consideration
Common shares		
Issued during the period to the Government of Canada		
For cash .....	29	\$ 145,000
In consideration for the acquisition of the investment and obligations of the Government of Canada in Panarctic Oils Ltd. ....	16	80,000
	<u>45</u>	<u>\$ 225,000</u>
	Number of Shares	Consideration
Preferred shares		
Issued during the period to the Government of Canada

In consideration for the acquisition of the interests of the Government of Canada in the Syncrude Project .....	93,799,853	93,800
	<u>158,799,853</u>	<u>\$ 158,800</u>

### 9. Commitments

In addition to commitments incurred in normal exploration activities, the Corporation has the following undertakings:

- The Corporation is a participant in a project operated by Syncrude Canada Ltd. to produce synthetic crude oil from the Athabasca Oil Sands. The project is expected to be completed in 1978 at an estimated cost of \$2.1 billion. The Corporation's 15% interest will require a total commitment of \$315 million of which \$170 million had been expended to December 31, 1976.
- The Corporation is committed to expenditures of approximately \$22 million in connection with the 1977/1978 financing of Panarctic Oils Ltd.

### 10. Remuneration of Directors and Officers

Aggregate direct remuneration paid or payable in 1976 by the Corporation to the Corporation's directors and officers amounted to \$34,000 and \$308,000 respectively. During the period there was a total of ten directors and ten officers, of whom three served in both capacities.

### 11. Anti-Inflation Program

The Corporation is subject to the Anti-Inflation Act which provides, as from October 14, 1975, a restraint on profit margins and compensation to employees.

**PETRO-CANADA—Concluded**

Calgary, Canada

**AUDITORS' REPORT**

TO THE HONORABLE ALASTAIR W. GILLESPIE, P.C., M.P.  
MINISTER OF ENERGY, MINES AND RESOURCES  
HOUSE OF COMMONS  
OTTAWA, CANADA

We have examined the consolidated balance sheet of Petro-Canada as at December 31, 1976 and the consolidated statements of earnings and retained earnings and changes in financial position for the period from the date of commencement of operations, January 20, 1976 to December 31, 1976. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the corporation as at December 31, 1976 and the results of its operations and the changes in its financial position for the period then ended in accordance with generally accepted accounting principles applied on a consistent basis.

We further report as required by Section 77(1) of the Financial Administration Act, that, in our opinion, proper books of account have been kept by the corporation and the transactions that have come under our notice have been within the powers of the corporation.

## ROYAL CANADIAN MINT—Continued

NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 1976

## 1. Statutory financial limitations.

Significant financial limitations set out in the Royal Canadian Mint Act respecting loans from the Minister of Finance and the reserve for losses are as follows:

- i) Loans are made on such terms and conditions as are approved by the Governor in Council.
- ii) Loans made to the Mint for fixed assets and working capital may not in the aggregate exceed \$35 million which includes a maximum of \$5.0 million for working capital.
- iii) Additional loans made for temporary purposes may not in the aggregate exceed \$1 million and each shall be repaid within twelve months from the day on which the loan is made.
- iv) The Mint may make a provision from profits for a reserve against possible losses, but the aggregate amount in the reserve at any one time shall not exceed \$1 million. Any profits in excess of those required to cover previous losses and the reserve shall be applied to non-tax revenues of Canada.

## 2. Revenue.

Revenue generated was from:

- (a) the production of Canadian circulating coinage and the minting of Canadian Olympic coins;
- (b) the sale of Canadian numismatic products and refinery services;
- (c) production contracts for foreign circulating coinage and other products.

## 3. Inventories.

Inventories are valued at the lower of cost and net realizable value as follows:

- (a) metals and supplies are valued at the average cost;
- (b) work-in-process is valued at standard cost.

## 4. Fixed assets and depreciation.

Fixed assets are stated at cost. Depreciation is calculated using the straight-line method based on the economic life of the assets or, for those used in the Olympic Coin Program, over the life of the Program. Land improvements and buildings are depreciated at 5%; equipment used for the O.C.P. at 33-1/3% and the remainder at 10%.

Assets costing \$765,348., which are now fully depreciated, were taken over from the Department of Finance at the time of incorporation in 1969. These were paid for through annual installments and treated as an operating expense (rental of machinery and equipment). Payment in full was completed in 1976 and the full cost of the assets was recorded as fixed assets and accumulated depreciation.

## 5. Sale of Land.

The net gain resulting from the sale in 1975 of approximately half of the land holdings in Winnipeg has been recognized as a profit and the amount payable to the Government of Canada for that year was adjusted accordingly.

## 6. Provision for Employee Termination Benefits and Annual Leave

A liability for termination benefits of \$1,429,000 was recognized for the first time in 1976. As a result, earnings for 1975 and 1976 were charged with an additional \$208,000 and \$30,000 respectively and a retroactive adjustment of \$1,191,000 was recorded.

A liability for annual leave will be recognized starting with the year 1977.

## 7. Loans due to Government of Canada.

Loans from Canada bear interest at rates ranging from 5-7/8% to 9-3/4% per annum and are payable in varying installments over the next nineteen years. The following payments on principal become due within the next five years:

Year 1977	\$4,542,000
Year 1978	2,600,000
Year 1979	4,800,000
Year 1980	1,600,000
Year 1981	1,600,000
	<u>\$15,142,000</u>

The portion due within one year has been shown for the first time this year under current liabilities. The figures for 1975 have been restated accordingly.

## 8. Comparative figures.

For comparative purposes, the financial statements for the year ended December 31, 1975 have been restated to conform to generally accepted accounting principles.

The major changes are in connection with the 1975 sale of land (Note 5) and the provision for employee termination benefits (Note 6) and loans due to Government of Canada (Note 7).

Accounts receivable, accounts payable and accrued liabilities have been increased by \$566,555 respectively to recognize a federal sales tax refund receivable from the Department of Revenue and payable to the Olympic Coin Program.

Interests on loans due to the Government of Canada were previously included under accounts payable and accrued liabilities.

## 9. Safekeeping.

At year-end the Mint held in safekeeping the following inventories which are excluded from the accounts:

## On behalf of the Department of Finance:

	(000)
i) Gold and silver at approximate trading value, December 31, 1976 .....	\$ 41,583
ii) Coins, at face value .....	5,657
	<u>\$ 47,240</u>

## On behalf of others:

Gold and silver at approximate trading value, December 31, 1976 .....	7,648
Unprocessed ore at approximate market value less cost to complete .....	7,639
	<u>\$ 62,527</u>

## 10. Remuneration of directors and officers.

The Mint has seven directors and nine officers; one officer is also a director. Remuneration of officers and directors in 1976 totalled \$308,600.

## 11. Mint displays.

The Mint maintains displays of minted products in Ottawa and Winnipeg. These contain approximately 6,000 Canadian and foreign coins and medals of undetermined value. As these coins are not intended for resale, they are excluded from the accounts.

ROYAL CANADIAN MINT—*Concluded*

Ottawa, Ontario  
July 15, 1977

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.  
MINISTER OF SUPPLY AND SERVICES  
OTTAWA, ONTARIO

I have examined the balance sheet of the Royal Canadian Mint as at December 31, 1976, and the statements of revenue and expense and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as considered necessary in the circumstances.

During the year ended December 31, 1976, as outlined in Note 6 to the financial statements, the corporation accrued employee termination benefits in its accounts for the first time and restated the 1975 financial statements accordingly. However, the Corporation in its restatement charged 1975 profits, not only with the amount of employee termination benefits related to that year, but also those incurred prior to December 31, 1974, thereby understating 1975 profits, as restated, by \$1.2 million.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1976, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, except for the method of restating the 1975 financial statements as referred to in the preceding paragraph and after giving retroactive effect to the change to the accrual method of recording employee termination benefits, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

## THE ST. LAWRENCE SEAWAY AUTHORITY—Continued

NOTES TO THE FINANCIAL STATEMENTS  
MARCH 31, 1977

## 1. SIGNIFICANT ACCOUNTING POLICIES

**CHANGE IN FINANCIAL YEAR**—By Order-in-Council P.C. 1975-799 dated April 8, 1975, the financial year of the Authority was changed from the calendar year to a year ending March 31st. Consequently, the comparative figures for the prior period 1975-76 cover a fifteen month period from January 1, 1975 to March 31, 1976.

**PARLIAMENTARY APPROPRIATIONS**—The operating deficits and capital expenditures of the Welland Section and Non-Toll Canals are recovered from parliamentary appropriations. The recoveries for operating deficits are reported in the Statement of Income, Expense and Deficit. Parliamentary appropriations to finance capital expenditures are added to Contributed Capital.

Amounts remaining to be recovered from Canada are recorded as Due from Canada.

**CONTRIBUTED CAPITAL**—Contributed capital represents the transfer value attributed to capital assets received from Canada and the amount of parliamentary appropriations used to purchase capital assets. Contributed capital is reduced by the cost of such assets taken out of service. Proceeds on disposal of these assets are applied directly against amounts Due from Canada.

**SUBSIDIARY COMPANIES**—Consolidated statements of the St. Lawrence Seaway Authority and its subsidiaries have not been prepared, as each entity has distinctly separate and regulated operations.

**CAPITALIZATION POLICY**—It is the policy of the Authority to capitalize expenditures only on major undertakings, such as improvements or modifications to the existing seaway structures, which increase the capacity of the deep waterway system, and on purchases made of fixtures, tools and equipment.

**CAPITAL ASSETS**—Capital assets are recorded at cost, except for those entrusted to the Authority in 1959 as part of the deep waterway system, which are recorded at values established at date of transfer.

Non-Toll Canal assets with a value of \$8,363,976 are under the administration of the Authority, but do not form part of the deep waterway system. Since the Authority does not hold title, the assets are not recorded in its accounts.

Under Order-in-Council P.C. 1976-2407 dated September 28, 1976 the management and operation of the Canadian portion of the Thousand Islands Bridge was entrusted to the St. Lawrence Seaway Authority. The Bridge, which had reverted to Canada at no cost, has been valued at the nominal sum of \$1.

**DEPRECIATION**—In the Montreal-Lake Ontario Section, depreciation is provided on equipment and machinery having an estimated life of less than fifty years. Depreciation is provided over the estimated useful life of the asset based on the estimated cost of replacing the asset. No provision is made for depreciation on other components of fixed assets.

No depreciation is recorded on assets used in the Welland Canal Section.

Estimated annual depreciation on assets for which depreciation is not now being recorded amounts to \$7.3 million per year for all sections of the Seaway with the accumulated unrecorded depreciation estimated as at March 31, 1977 to be \$141.4 million.

The Authority, as part of its refinancing plan, intends to implement a revised depreciation policy effective April 1, 1977 and to provide depreciation on all fixed assets using the straight-line method at rates ranging from 1% to 20% per annum based on the estimated useful life of the asset.

**ALLOCATION OF HEADQUARTERS ADMINISTRATION EXPENSES**—Headquarters administration expenses are allocated to the Montreal-Lake Ontario Section, Welland Section and the Non-Toll Canals in proportion to their respective payrolls.

**GRANTS IN LIEU OF MUNICIPAL TAXES**—Grants in lieu of municipal and school taxes are recorded when paid.

## 2. LONG-TERM AGREEMENTS OF SALE

Long-term agreements of sale are receivable over periods up to 10 years with interest at rates varying from 5¼% to 9¼% and comprise \$699,556 in respect of sale of land to the City of Longueuil and \$8,346 in respect of sale of land to individuals.

## 3. INVESTMENTS IN SUBSIDIARY COMPANIES

An investment of \$8,000 represents the total capital stock of The Seaway International Bridge Corporation, Ltd. which operates the Bridge for the Seaway Authority and its U.S. counterpart the Saint Lawrence Seaway Development Corporation. At December 31, 1976 the Corporation had no retained earnings or deficit.

An investment of \$1,500 represents the total capital stock issued by the Great Lakes Pilotage Authority, Ltd. At December 31, 1976 the Great Lakes Pilotage Authority, Ltd. had a net recorded deficit of \$713,450 (1975—\$798,116). This deficit has not been reflected in the accounts of the Seaway Authority.

## 4. LOANS FROM CANADA

At March 31, 1977 outstanding loans from Canada and deferred interest on such loans are as follows:

	Loans from Canada	Deferred interest
Montreal-Lake Ontario Section .....	\$ 336,500,000	\$ 183,585,000
Welland Canal Section .....	288,450,000	32,822,016
Totals .....	<u>\$624,950,000</u>	<u>\$216,407,016</u>

Vote L116d, Appropriation Act No. 1, 1977 authorizes the conversion of loans totalling \$624,950,000 to capital effective April 1, 1977.

Order-in-Council P.C. 1977-1365 dated May 12, 1977 approves cancellation, as of April 1, 1977, of any future accrual of interest on the above outstanding deferred interest totalling \$216,407,016 as at March 31, 1977.

Payment of deferred interest was suspended pursuant to Order-in-Council P.C. 1968-163 of January 25, 1968 and P.C. 1966-1828 of September 22, 1966.

**THE ST. LAWRENCE SEAWAY AUTHORITY—Concluded****5. CLAIMS**

In the normal course of business a number of claims and lawsuits have been brought against the Authority and the Authority has initiated certain claims and suits against others. The Authority does not expect that it will incur any material losses upon resolution of these actions.

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
May 20, 1977

**6 EMPLOYEE TERMINATION BENEFITS**

Termination benefits paid to employees are expensed in the year of termination or retirement. The financial statements do not reflect the termination benefits accruing to employees under labour contracts and conditions of employment. The amount of benefits earned to March 31, 1977, which will become payable on termination or retirement of employees, is estimated to be \$6,425,000 (1975—\$6,000,000).

THE HONOURABLE OTTO E. LANG, P.C., M.P.,  
MINISTER OF TRANSPORT,  
OTTAWA, ONTARIO.

I have examined the balance sheet of The St. Lawrence Seaway Authority as at March 31, 1977 and the statements of income, expense and deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

**7. CONTRACTUAL COMMITMENTS**

Contractual expenditures, committed but not expended, at March 31, 1977 amounted to \$2,243,000.

As explained in Note 1 to the financial statements, the Authority does not provide for depreciation on all capital assets which are susceptible to deterioration and obsolescence.

**8. REMUNERATION OF MEMBERS AND OFFICERS**

The Authority had three members and three other officers. Remuneration paid as members was \$115,000 and as officers \$92,673.

As explained in Note 6 to the financial statements, the Authority has not recorded a provision for termination benefits accruing to its employees.

In my opinion, except for the effect of failing to record a provision for termination benefits and to provide adequately for depreciation of capital assets referred to in the preceding paragraphs, these financial statements give a true and fair view of the financial position of the Authority as at March 31, 1977 and the results of its operations and the changes in financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Authority.

J. J. MACDONELL

The accompanying notes are an integral part of the financial statements.

**NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1976**

**1. Accounting Policies**

**(a) General**

The Seaway International Bridge Corporation, Ltd. was incorporated for the purpose of operating and managing the international toll bridge system between Cornwall, Ont., and Roseveltown, N.Y., on behalf of the owners, The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation. By agreement between the Seaway entities, the annual income from the operation of the bridge

system, after payment of operating expenses, is to be applied first towards the amortization of the cost of the North Channel bridge, together with interest, after which the balance of the income is to be divided equally between the Seaway entities.

**(b) Deferred income from tolls**

Unredeemed toll tokens are recorded as deferred revenue.

**(c) Depreciation**

Depreciation of equipment is based on the estimated useful life of the assets calculated on a straight line method at the following rates:

Automotive	20%
Office and Shop	10%
Toll equipment	10%

**(d) Statement of changes in financial position**

A statement of changes in financial position has not been presented as, in the opinion of management, it would not add significantly to the information to be derived from the financial statement.

**2. Termination benefits**

The financial statements do not reflect the amount of the future termination benefits accruing to employees. Actual costs are expensed in the year of termination or retirement, and in 1976 such costs amounted to \$4,700 (1975—\$9,800). The amount of unrecorded future benefits earned to December 31, 1976 is estimated at \$75,000 (1975—\$64,000).

**3. Bridge construction charge**

This amount was charged by the parent company to the corporation to assist in defraying the construction cost of the North Channel bridge. At December 31, 1976 the outstanding balance was \$13,612,746 compared with an outstanding balance of \$13,203,699 at December 31, 1975.

**4. Remuneration of directors and officers**

The corporation has eight directors and seven officers, five of whom are also directors. No remuneration was paid to them during the year.

**THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
March 17, 1977

THE HONOURABLE OTTO E. LANG, P.C., M.P.,  
MINISTER OF TRANSPORT,  
OTTAWA, ONTARIO

I have examined the balance sheet of The Seaway International Bridge Corporation, Ltd. as at December 31, 1976 and the statement of income and expense for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 2 to the financial statements the Corporation has not recorded the cost of future benefits accruing to employees.

In my opinion, except for the failure to record the amount of future employee benefits referred to in the preceding paragraph, these financial statements present fairly the financial position of the Corporation as at December 31, 1976 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Corporation.

## TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 1977

## 1. Nature of activities

The Teleglobe Canada Act provides that the Corporation shall establish, maintain and operate in Canada and elsewhere external telecommunication services for the conduct of public communications, and coordinate Canada's external telecommunication services with those of other nations. Such services include the telephone, telex and telegraph services, the leasing of private and public use circuits, data transmission, television and radio programme transmission and participation in the provision of international communications satellite systems.

## 2. Summary of significant accounting policies

The accompanying financial statements have been prepared in accordance with Canadian generally accepted accounting principles. Significant accounting policies are as follows:-

## (a) Fixed assets—

Fixed assets are stated at acquisition cost, which includes salaries, wages, employee benefits and certain general overheads applicable to the construction activity. In addition the Corporation capitalizes the cost of funds used to finance major construction projects lasting for more than twelve months as a component of the cost.

The Corporation was designated by the Government of Canada to be the Canadian signatory to the International Telecommunications Satellite Organization (INTELSAT) Operating Agreement, and as a consequence includes in fixed assets its ownership in the international satellite system. Periodically each signatory's ownership share is adjusted to conform with its percentage of total use of the system. The Corporation's ownership share as at March 31, 1977 is 2.554508% (1976—2.466102%).

## (b) Depreciation and obsolescence—

Assets are depreciated over their respective estimated service lives, using the straight line method. Where assets are taken out of service prior to the expiry of their estimated lives any un depreciated balances, less salvage values, are charged to "depreciation and obsolescence expense" in the year of retirement, except for satellite system costs when a launch failure occurs. In such a case the costs of the satellite are depreciated over the life of that group of satellites.

The estimated service lives for determining depreciation of the various classes of assets are:

	Years
Buildings & improvements .....	20—40
Furnishings .....	8—10
Cable systems .....	20—25
Terminal, transmission and switching equipment .....	10—14
International satellite system space segment .....	4—12
Other plant & equipment .....	5—25

## (c) Foreign exchange—

Amounts receivable or payable in foreign currencies are translated to Canadian dollars at exchange rates prevailing at year end. Income and expense items are translated at average monthly exchange rates for the month in which the transactions are reflected in the accounts.

## (d) Revenue—

The Corporation reports as revenue its share of income earned from all its telecommunications facilities, whether owned outright by the Corporation, owned jointly with other partners or leased from third parties.

Telephone, telex and telegraph service revenue reflects the Corporation's portion of amounts billable to domestic and foreign subscribers by the Canadian carriers and foreign administrations. Estimates are included to provide for that part of such amounts for which foreign administrations have yet to account to the Corporation.

Leased circuit revenue includes the Corporation's portion of revenue derived from the leasing of circuits to other administrations and private users.

Intelsat revenue comprises the Corporation's share of revenue, less its share of operating expenses excluding depreciation, derived from its ownership in the international satellite system.

## (e) Income tax—

The Corporation, being a Canadian Crown Corporation, is not subject to the payment of Provincial income taxes.

Income taxes are deferred as a result of timing differences with respect to depreciation and obsolescence, and interest charged to construction.

## (f) Commonwealth Telecommunications Organization—

The Corporation is the designated Canadian participant in the Commonwealth Telecommunication Organization (CTO), the purposes of which are to promote the development and efficient exploitation of the Commonwealth external telecommunication system and to provide for the administration of collaborative financial arrangements.

The financial agreement provides that the aggregate expense incurred by all partners, in the provision and operation of each facility within the Commonwealth system, are apportioned to partners in proportion to the use made by the partners of that facility. Use of the system is measured in terms of the number of units of traffic carried over each facility within, or part of, the system.

Settlements are initially effected between partners during each financial year on the basis of estimated traffic volumes and system costs, with final settlements only being effected after the close of each year on the basis of audited data submitted by each partner. Since the final settlements cannot be accurately predicted, the Corporation follows the practice of recording estimated recoverable costs in each financial year, and of recording final adjustments, in its accounts, only at the time that final settlements are made.

## (g) Maintenance—

Costs incurred in maintaining the planned life and capacity of operational facilities, and in ensuring that quality standards are constant, are charged to "maintenance expense".

## 3. Fixed assets and depreciation

## (a) The major categories of fixed assets as at March 31, 1977 are as follows:

	thousands of dollars			
	1977		1976	
	Cost	Accumulated depreciation	Cost	Accumulated depreciation
Land .....	\$ 1,363	\$ —	\$ 1,364	\$ —
Buildings & improvements .....	17,491	5,505	16,783	4,834
Furnishings .....	2,066	671	1,532	560
Cable systems .....	82,150	35,632	81,949	31,740
Terminal, transmission & switching equipment .....	68,907	32,348	66,238	27,107
International satellite system space segment .....	14,270	5,530	14,384	6,473
Other plant & equipment .....	16,749	6,312	12,209	5,176
	<u>\$202,996</u>	<u>\$85,998</u>	<u>\$194,459</u>	<u>\$75,890</u>

## TELEGLOBE CANADA—Continued

- (b) Fixed assets include assets owned outright by the Corporation and assets owned jointly with other telecommunications entities as follows:

	thousands of dollars	
	1977	1976
Owned outright .....	\$125,094	\$119,076
Owned jointly (Corporation's interest) .....	77,902	75,383
	<u>\$202,996</u>	<u>\$194,459</u>

- (c) Depreciation and obsolescence expense includes \$484,000 (1976—\$1,089,000) being the undepreciated balance remaining in the accounts relating to assets taken out of service during the year, prior to the expiry of their estimated service lives.

- (d) During the year the Corporation charged to fixed assets salaries, wages, employee benefits and general overheads relating to construction activity amounting to \$2,266,000 (1976—\$2,097,000).

## 4. Commonwealth financial arrangements

- (a) Finalization of partnership accounts—

As at March 31, 1977, 26 Commonwealth Governments are signatories to the Commonwealth Telecommunications Organization Financial Agreement (1973). Due to the fact that some of the partners are delinquent in submitting audited statements of incurred expenses and traffic volumes, in accordance with the 1973 and preceding Agreements, it has only been possible to finalize partnership accounts up to March 31, 1969. Although every effort has been expended to improve this undesirable situation, management is unable to estimate, with any degree of certainty, when the accounts for subsequent years will be finalized.

The Corporation has submitted its own audited accounts for the years ended March 31, 1974 and 1975 under the current agreement, which commenced April 1, 1973, and up to March 31, 1971 under the preceding arrangements. Management anticipates submitting its audited accounts for the years ended March 31, 1972 and 1973, under the preceding arrangements, by June 30, 1977.

The Corporation has received provisional settlements amounting to \$71,008,000, in total, for the eight years ended March 31, 1977, where partnership accounts remain unfinalized.

- (b) Estimated amount due to Commonwealth Partners—  
The estimated amount due to Commonwealth Partners comprises:

\$3,231,000 with respect to the amount by which instalments received for the years yet to be finalized, and which ended prior to April 1, 1973, exceeded the estimated amount recoverable recorded in the books of account, and

\$15,665,000 with respect to the amount by which the instalments received for the four years ended March 31, 1977 exceeded the estimated amounts recoverable for these years under the 1973 Agreement. No final settlements have yet been effected under the 1973 Agreement.

- (c) Adjustment to prior year earnings—

At the time of signature of the 1973 Agreement certain issues remained unresolved. These issues, together with modification of certain other aspects of the financial arrangements, are currently under review with the likelihood that a number of revisions will take effect from April 1, 1975.

As a consequence and based upon information received during the year, management determined that certain of the bases used in estimating the recovery for the year ended March 31, 1976 were no longer valid. Consequently a charge of \$1,080,000 has been made in the statement of income for the year ended March 31, 1976 which represents the amount of the adjustment net of related income taxes of \$920,000.

- (d) Estimated amount recoverable from Commonwealth Partners—

The estimated amount recoverable from Commonwealth Partners of \$11,529,000 reflected in the Statement of income is management's best estimate of the anticipated expense recovery for the year, and comprises:

	thousands of dollars	
	1977	1976
Estimated amount recoverable under the 1973 Agreement .....	\$10,390	\$10,452
Adjustments under previous financial arrangements for periods finalized during the year .....	1,139	
	<u>\$11,529</u>	<u>\$10,452</u>

## 5. Long-term debt

Loans from the Government of Canada bear interest at rates ranging from 3½% to 6¼%, and averaging 5%.

Maturities by fiscal year and interest rate:

	thousands of dollars				
	3½— 4%	4%— 5%	5%— 6%	6%— 6¼%	Total
1977-78 .....	\$ 679	\$ 814	\$ 1,216	\$ 377	\$ 3,086
1978-79 .....	98	831	1,282	401	2,612
1979-80 .....	94	835	1,351	427	2,707
1980-81 .....	97	877	1,423	456	2,853
1981-82 .....	100	922	1,500	485	3,007
1982-98 .....	2,189	5,145	3,984	1,069	12,387
	<u>\$3,257</u>	<u>\$9,424</u>	<u>\$10,756</u>	<u>\$3,215</u>	<u>\$26,652</u>

## 6. Commitments

- (a) As at March 31, 1977 the estimated cost of completing construction projects, as approved by Governor in Council, amounts to approximately \$99,600,000 (1976—\$106,400,000) of which \$27,200,000 (1976—\$33,200,000) relates to the year ending March 31, 1978. Contractual commitments amounting to approximately \$19,100,000 (1976—\$6,200,000) are outstanding as at March 31, 1977.

- (b) The corporation is a party to certain non-cancellable long-term leases for property and facilities used in the performance of its operations. As at March 31, 1977 the aggregate minimum annual rentals for all such leases are:

	thousands of dollars
1977—78 .....	\$ 7,956
1978—79 .....	7,561
1979—80 .....	3,084
1980—81 .....	2,458
1981—82 .....	1,133
1982—87 .....	\$ 4,271

Rental expense relating to such items for the year ended March 31, 1977 is \$8,127,000.

- (c) Under the terms of an agreement, which expires in 1995, between the Corporation and the Department of Transport, the Corporation charters the cableship/icebreaker CCGS John Cabot on a cost reimbursement basis.

**TELEGLOBE CANADA—Concluded**

AUDITOR GENERAL OF CANADA  
Ottawa, Ontario  
June 23, 1977

**7. Anti-inflation legislation**

The Corporation is subject to the provisions of the Anti-Inflation Act which became effective on October 14, 1975 and the Regulations promulgated thereunder, which provide for restraints on prices, profit margins and compensation of employees.

**8. Executive remuneration**

Included in expense for 1977 is remuneration of 5 directors, as directors, \$3,000 (1976—\$3,000) and of 11 officers, as officers, \$394,000 (1976—\$377,000). One officer is also a director.

**9. Contingent liabilities**

(a) The Corporation's sick leave policy permits employees to accumulate up to fifteen (15) days of paid sick leave per annum, against the eventuality of long-term sickness or disability. Half of all unused sick leave may upon retirement, whilst in the service of the Corporation, be converted to pre-retirement leave, or taken as a retirement bonus. As at March 31, 1977 the maximum liability of the Corporation under this policy, should all then present employees retire whilst in the service of the Corporation, amounts to \$2,616,000.

(b) On November 1, 1974, the Corporation established a retirement bonus scheme, in lieu of post-retirement life insurance previously provided, for all employees on staff at that date who subsequently retired whilst in the service of the Corporation. As at March 31, 1977 the maximum liability of the Corporation under this scheme, should all then present employees retire whilst in the service of the Corporation, amounts to \$2,487,000.

**10. Comparative figures**

Certain of the 1976 comparative figures have been reclassified to conform with the financial statement presentation adopted for 1977.

THE HONOURABLE JEANNE SAUVÉ, P.C., M.P.  
MINISTER OF COMMUNICATIONS  
OTTAWA, ONTARIO

I have examined the balance sheet of Teleglobe Canada as at March 31, 1977 and the statements of retained earnings, income and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly includes such tests and other procedures as I considered necessary in the circumstances.

As described in note 4 to the financial statements, partnership accounts in respect of Commonwealth financial arrangements have been finalized to March 31, 1969. For years subsequent to that date, the Corporation has recorded its estimates of the amounts recoverable from the partnership and has provided for the repayment of provisional settlements in excess of those amounts. However complete information is not available as to the probable results of the final settlements for years subsequent to March 31, 1969.

In my opinion, subject to the determination of adjustments, if any, arising from final settlements of Commonwealth financial arrangements for the years subsequent to March 31, 1969, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS  
AS AT DECEMBER 31, 1976

## 1. Significant Accounting Policies

- (a) Activities administered for Canada  
The Corporation administers and sells, as Canada's agent, the joint uranium stockpile purchased from Denison Mines Limited and the general government uranium stockpile acquired by Canada since 1963. All monies and benefits received by the Corporation from the sale of the stockpiles are paid to Canada after deduction of applicable costs and expenses. Accordingly, such activities are reported as administered for Canada's account. In prior years the activities were reported as being for the Corporation's account; this change in reporting has been made retroactively and the 1975 comparative financial statements have been amended accordingly. Administrative services are provided to the Corporation without charge by the Department of Energy, Mines and Resources.
- (b) Inventories  
Inventories are carried at Canada's acquisition cost. Warehousing and other carrying costs are borne directly by Canada and are not reflected in these accounts.
- (c) Interest  
The Corporation under contractual agreements allows extended payment terms to its customers. Interest is charged on the sales value from the time of delivery to the time of payment when such terms apply.
- (d) Translation of foreign currency  
U.S. dollar accounts are translated to Canadian funds at rates prevailing at December 31. Gains or losses are included in sales.

**URANIUM CANADA LIMITED—Concluded****2. Uranium Concentrates received from Canada**

The Government of Canada general stockpile was transferred to the Corporation on May 3, 1976, in accordance with an agreement between Canada and the Corporation entered into under authority of Order in Council P.C. 1976-2/1001 dated April 27, 1976. The transfer of the general stockpile has been recorded by the Corporation at \$101,188,304, representing the original acquisition cost to the Government of Canada.

**3. Subsequent Event**

In accordance with a purchase/sale agreement of uranium bearing concentrates, between a Japanese Utility (as "Purchaser") and Her Majesty, the Corporation and Denison Mines Limited, dated May 8, 1973 and amended on January 1, 1975, approximately 10% (1,000 tons U308 in concentrates) of the general stockpile was sold to the Japanese Utility for delivery in January 1977. The concentrates are being held in storage at Port Hope until safeguard negotiations between Canada and Japan have been successfully completed and until arrangements have been made for further processing of the material in Canada.

**4. Sales Agents**

The Corporation's share of the selling expenses of its sales agent, Denison Mines Limited, was \$519,126.

**5. Directors and Officers**

The Corporation's seven directors receive no remuneration as directors. The Corporation's four officers, three of whom are also directors, receive no remuneration as officers.

Ottawa, Ontario  
March 25, 1977

THE HONOURABLE A. W. GILLESPIE, P.C., M.P.,  
MINISTER OF ENERGY, MINES AND RESOURCES,  
OTTAWA, ONTARIO.

I have examined the balance sheet of Uranium Canada Limited as at December 31, 1976 and the statement of operations of accounts administered for Canada and the statement of account due to Canada for assets administered for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1976, and the results of the operations administered by the Corporation for the account of Canada and the account due to Canada for assets administered for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive affect to the change in reporting activities administered for Canada as described in Note 1, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of accounts have been kept by Uranium Canada Limited, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL  
*Auditor General of Canada*
